Capt. Augustus G. Hall, master of the fishing schooner Annie L. Hall, recently arrived at Gloucester from Grand banks, reports that on March 30th the crew of the vessel discovered an immense trunk turtle, which they at first supposed was a vessel bottom up; the schooner passed within ten yards of the monster, which was estimated to be at least forty feet long, thirty feet wide, and thirty feet from the apex of the back to the bottom of the under shell, the flippers being not less than twenty feet long. Though this story sounds "very like a whale," its truth is vouched for by the captain and crew, who also say the figures given are under rather than over the actual size of the creature. The only capture recorded of a turtle of this species was by a Gloucester fishing vessel in 1877, when the schooner Herman Babson brought in one six feet in length and seven across the back, which was wounded in capturing, and bled to death in two days after being taken.

—Little Charlie was having a wordy war with the nurse. His father cried out: "Now, Charlie, are you going to be quiet, or shall I come with a switch?" "Never mind the switch, papa," responded the youngster; "I can see her right without your help."

—A Philadelphia stationer is authority for the statement that many ladies in that city have visiting cards engraved for their pet dogs. Specimens shown to a *Record* reporter read as follows: "Spider, Manheim street, Germantown." "Topsy Bow-wow and Misses Bow-wow, 300 South street." "Prince, No. 881 South street. Saturdays—Bones." The addition to the last specimen means that the dog will be at home on the day mentioned, to receive calls from other dogs, and that bones will be furnished as a refreshment. The fashion, it seems, was set in Boston last spring.

Fred Douglass advises colored men to marry white women, so as to obliterate the color line.

Mr. John Shaw, the veteran shipbuilder of Machias, Me., went to that place in 1848, and commenced work on his first vessel in Machias that year. He has built one or more vessel—barks, brigs, or schooners,—nearly every year since. April 10th, 1883, he commenced on his 51st vessel, a brig of about 400 tons.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 26th, 1883:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of *debris* placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be proceeded against in consonance with section 6, chapter 17 of the Ordinances.

my1 JOHN S. TREAT, Mayor.

PURE BLOOD IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. HOOD'S SARSAPARILLA purifies the blood. HOOD'S SARSAPARILLA cures dyspepsia. HOOD'S SARSAPARILLA cures biliousness. A peculiar point in HOOD'S SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and those who use the Any-priceless ever a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

PARISH MEETING.

The annual meeting of the parishioners of the South Parish was held in the Unitarian church on Monday. William H. Hackett was chosen moderator; and in the absence of the parish clerk, Wm. W. Cotton was chosen clerk *pro tem.* Joseph H. Foster was unanimously re-elected parish clerk. The sum appropriated for parish expenses was $5325, including $1500 for music. The board of wardens were re-elected, namely, William H. Sise, Wm. W. Cotton, John W. Parsons, A. C. Hoyt and Andrew P. Preston. The question as to raising the sum above the amount to be levied by tax upon the pews was postponed to an adjourned meeting to be held Monday, May 14th. A committee consisting of William H. Hackett, Charles H. Rollins, Jos. Haven Thacher, John J. Pickering and John Laighton was appointed to act with the wardens in relation to pulpit supply.

MEMORIAL DAY.

A meeting of the citizens is hereby called for this (Tuesday) evening at 7:30 o'clock in the Common Council room, to take measures for the suitable observance of Memorial Day. PER ORDER.

ARRIVALS IN APRIL.

The number of arrivals at this port during the month of April, as entered at the custom house, was seventy-nine, of which five were steamers, and ten British sailing vessels. The number of vessels bringing coal was twenty-eight, their cargoes aggregating 20,027 tons, an average of over 700 tons to a vessel. The British vessels were all from ports in the provinces, and brought ties to the number of 15,765 for the Eastern railroad. There were five arrivals with cement, three with lime, two with oysters, and one each with lumber, sand, plaster, and cotton.

GOSSIPS SAY

That ice half an inch thick formed on the night of the 27th of April in exposed places about the city.

That the Burnham farm at Gerrish's island, Kittery, with its stock of cattle and farming utensils, has been sold to S. Ellery Jennison, Esq., a wealthy Boston lawyer, for the sum of $14,000.

That Mr. J. O. Poor of Franklin is the owner of a maple table one hundred and fifty years old, which formerly belonged to a Mr. Quint of this city, who fought in the Bon Homme Richard under Paul Jones, the table having been carried from this city to Orford on the back of a horse.

That there is a lack of harmony among the roller skaters of this city.

That four hundred books were issued to the patrons of the Public library on a recent Saturday.

That nearly half of the general committee on the return of the sons, are themselves sons by adoption only.

POLICE COURT--BATCHELDER, J

MONDAY, April 30th.

Catharine Reid, charged with violating the Sunday ordinance, was fined $10, costs being taxed at $6.90; paid.

Catharine Reid, for an assault on Mary Hubbard, was let off on probation.

Walter Prior, for drunkenness, was assessed $9.90, fine and costs; paid.

To-morrow evening, in Music hall, a first-class minstrel show will be given—probably the last one this season, no other being now booked. The company, Leavitt's Gigantean Minstrels, is a good one, and includes many old favorites. They were here last September, and gave a tip-top entertainment.

The three-masted schooner building by Wm. F. Fernald will be ready for launching in June. The planking on the outside is sublet to a gang of carpenters from Newburyport. The schooner is to carry a steam engine to furnish power in weighing anchor, hoisting sails, discharging cargo, etc. She is to be a superior vessel and when completed will rank well with any vessel of her size and build.

Many of the central seats in Music hall have been taken for Thursday evening, when the popular actress Lotta will make her first appearance in this city, in her most popular comedy, "Musette." But there are still good seats to be procured, and persons proposing to attend that evening will do well not to put off getting their tickets until the last moment.

John Sise, Esq., reached home on Monday from a brief visit to Bermuda.

A man and two boys, from England and bound to Peterborough, N. H., got on the wrong train in Boston on Monday, and arrived here that evening. Being without money they were taken to the police station, where they were kindly cared for, and will be sent to their destination this morning.

Albert Chamberlain was arrested in this city on Monday evening on a charge of breaking and entering the house of Lydia Davis at Exeter.

Mr. Henry H. Ham, watchmaker, has removed from the store in the lower story of the city building to the store on Daniel street recently occupied as a news room by Mr. George W. Ham. The office of the Mutual Union Telegraph Co. will be removed on or before July 1st, and the entire space thus vacated will be appropriated to municipal uses. The marshal and tax collector are to have offices in the front of the building; the police court room is to be enlarged to a decent size; and a place is to be fitted up for the detention of women, boys, etc., who may be arrested, apart from the cells allotted to drunkards, thieves and bummers generally.

Special Agent Marvin, of the internal revenue bureau, has examined the offices of the collector of internal revenue in this state. He was in this city last week, and afterward examined the office at Manchester. His criticisms on a former visit to the offices in this state were plain and to the point, and he is said to be the only man in the department whom the political editor of the *Mirror* is really afraid of, as he is an officer who not only makes reports of results but as to methods in conducting business, keeping books, etc., and insists that every "i" shall be dotted and every "t" crossed, and that no blots shall mar the papers of our Uncle's books.

The schooner Cocheco, Seaward master, sailed from Philadelphia for Lynn, Mass., with a cargo of coal at $1.45 per ton, April 27th.

A Washington correspondent writes: "The plans of the engineers for the works provided for in the last river and harbor bill have been approved by Secretary Lincoln, and the works ordered in all but nine cases, in which the appropriations aggregated $318,000. Gen. Wright the chief of engineers, estimates that about $5,250,000 will remain unexpended June 30th, 1883, and will be available to continue the works of improvement at 237 points. In the list of works which will thus be continued during the next fiscal year are the improvements of the harbors at Portland, Me., Portsmouth, N. H., and Newburyport, Mass."

The elevator placed in the Rockingham house having not proved satisfactory in its working, was taken out last week, and a new machine, made by the same company which furnished the elevator for the Wentworth, is to supply the place of the rejected lift.

The Eastern railroad service tank near the Vaughan street crossing was drained on Sunday, and the sediment which has for a number of months been collecting in the bottom was cleared out, there being a considerable quantity of it. The tank is now supplied with water from the company's wells near the Plains; when first built it was for a time filled by the Portsmouth aqueduct, the water from which deposited no sediment.

We clip the following from an exchange: "Joseph H. Davis, a desperate longshore pirate, who has for years been the terror of the fishermen of Maine from Eastport to Kittery Point, was arrested lately by constable Samuel Rich of Long Island plantation, Me., after a violent resistance, in which Davis' wife and wife's mother took part with revolvers. In default of bail Davis was sent to jail in Ellsworth, to await trial next October." We never heard of this "terror" before; and from what we know of the fishermen of Kittery and York are of opinion that he would have had things made quite warm for him, had he depredated very largely on their property. Although these men are, as a class, law-abiding and reputable citizens, they are but slightly imbued with non-resistant principles; and the longshore desperado who despoils them of their property will do much better as a sneak thief than as a daylight bully.

A Washington despatch of April 28th says: "Sites have been purchased for five new stations of the life-saving service on the New England coast, located at Damariscove island, Hunnewell's beach and Cape Elizabeth, Me.; Jerry's point in Portsmouth harbor, N. H.; and Great point, at Nantucket, Mass. The buildings will be constructed this summer, and the stations manned before another winter."

A box car which was taken across Portsmouth bridge to Kittery on Monday afternoon jumped the track at the end of the bridge, and took up a very objectionable position crosswise of the track. All traffic was suspended until the car was again placed on the rails.

The hotels at Old Orchard beach are to be lighted by the American Electric & Illuminating Co. of Boston, which company has contracted to supply light and furnish the required apparatus.

It is proposed to have all the people who were born in and have gone from Limington to other towns or states, return and hold a celebration on the Fourth of July next. Mr. M. B. Cole, a native of Limington and now a member of the firm of Burrage, Cole & Mason, commission merchants in New York, is the originator of the scheme.

A rare chance to purchase fine goods is offered at the semi-annual sale of the Boston Collateral Loan Co., which begins next Monday.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

PASTURAGE.

AT THE BURNHAM FARM, Gerrish's Island, Kittery, a limited number of **CATTLE** will be taken to **pasture** during the season, at fair rates. Prompt application is advisable, as no more animals will be received than there is abundant accommodation for. The feed on the place is of extra quality, the water abundant and good, the forest shelter from sun and wind all that is needed; and there is low land enough to meet all the wants of a dry season. Cattle taken to pasture will receive the same care and attention as those belonging on the farm, without responsibility. Apply to PORTER R. EMERY, Manager.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixty edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, enclosed, full gilt, Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cts. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on physiology ever published. Her worthy whatever that the world has for single either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N.B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves cured of their heart disease by using Dr. Cramer's Heart Regulator for kidney or liver trouble, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cleveland, surprisingly says "one third of our physicians suffer from heart disease."

The heart weighs about nine ounces, and just man's twenty-eight pounds of blood passes through it once in a minute and whilst resting not day or night; surely this subject should have careful attention.

Dr. Cramer a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Cramer's Heart Regulator** *and can be obtained at your druggists, 11 per bottle, six bottles for $5 by express. Send stamp for Dr. Cramer's thorough and exhaustive treatise.* (1)

Too Much Lifting.

A Detroit man went home late the other night, and his wife woke up and found him with a burning match trying to light the cold water tap over the marble basin in his dressing room.

"James," she said, "that is not the gas burner."

"I know it, my love," he replied unsteadily; "fact is, I've been overworked, and that's the reason I made the mistake."

"Yes, you look as if you had been lifting a good deal," she quietly answered, as she returned to her pillow.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

The force of the recent great tornado in the Mississippi valley was such that a solid iron screw of a cotton press, weighing 675 pounds, was carried by the cyclone a distance of 300 yards; and a piece of scantling three by four inches and ten feet long, was driven through a red oak sapling.

Catarrh of the Bladder,

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

The state of Vermont has secured the $200,000 willed to the state by Amanah Huntington of Brantford, Canada, for the benefit of the common schools.

A Druggist Says.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did not help them. They cured me of those terrible sick headaches when every other remedy failed.

In Des Moines, Iowa, the rate of saloon licenses has been fixed at $1000.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

Forty-six deaths by the cyclone are reported at Wesson and Beauregard, Miss.

—Dr. Benson's Skin Cure consists of internal and external treatment at same time and it makes the skin white, soft and smooth. It contains no poisonous drugs. $1. at druggists.

It is said that importers are putting their own construction upon the new tariff law.

Dr. E. F. Fuller, Keokuk, Iowa, says: "I have used Brown's Iron Bitters in my own family with excellent results.

Col. C. D. Uline has been held for manslaughter in the Ward brothers case in Dakota.

It's hard to believe Miss Whittier was cured of such terrible sores by Hood's Sarsaparilla, but reliable people prove it.

Seed corn in Wisconsin and Minnesota will not sprout on account of injury by the frost last winter.

Mr. William Knights, Great Falls, N. H., says he received decided benefit from using Brown's Iron Bitters.

Congressman Thompson of Kentucky, who shot Walter Davis, has been held in $5000 for the grand jury.

Florida strawberries usually sell for $1. per quart basket, when first brought to Northern markets. Wheat Bitters bring the same price per bottle during all seasons. The first are a luxury. The latter is a necessity—because it cures most human maladies.

—Canada claims owls so big that they attack men. This Canada fiction was probably started by some woman to keep her husband home at night.

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprung up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches*, which mar your features, are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier, SULPHUR BITTERS. Why suffer with *Boils?* Why have with that terrible Headache? Why by and by have with that bed of pain, with Rheumatism? What makes you troublesome Kidney-Wort? Why suffer to expel the disease which your excesses have caused, by the use of some stimulating poison? Why give the liquor seller your money for poison, when SULPHUR BITTERS is not a cheap rum or liquor substitute, but is the purest and best medicine ever made? It contains no Rum, Whiskey, Proof Spirit or Intoxicating Liquor of any kind. It is a Vegetable Compound, and is the only preparation which extracts the virtues of the Roots, Herbs and Barks, which are combined with the Extracts of Sulphur in such proportions as to make it a sure cure for all those who suffer from Impure Blood, Dyspepsia, Constipation, Liver Complaint, Nervous Debility, Female Weakness, Rheumatism, Kidney Complaints, Nervous Prostration, Sick Headache, Fever and Ague, Boils, Pimples, Blotches, Tetter, Salt Rheum, Ringworm, Scald Head, Erysipelas, Scurvy, Mercurial Disease, Blood Poisoning, Diseases of the Skin, Liver and Kidneys, Female Complaints, Nervous Diseases

"Hail Stones as Big as Pumpkins."

There is some doubt about the hailstones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is ill with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

It will be seen by our report of the doings of the stockholders of the Eastern Railroad in New *H*ampshire at their annual meeting held in this city on Tuesday, that the stockholders are alive to any action looking to a transfer of the lease of their road to the Boston & Maine railroad. When the controversy between the Eastern and the Eastern in N. *H.* was about to be adjusted, the financial condition of the Eastern, it was presumed, did not warrant the payment of over four and a half per cent dividend as rental for the New *H*ampshire road, which was the then interest on the bonded indebtedness of the Eastern. Since the rate of interest has advanced to six per cent, the Eastern in N. *H.* shareholders assert that their road is worth more than $25,000 per year to the main line, and they want six per cent dividends upon their shares instead of four and a half per cent. The prospect is that some change in this respect may be brought about in case of the lease of the Eastern to the Boston & Maine railroad.

News and Notes.

Calkins; "Kitty's Conquest," Captain King's new story; "Offenses, Punishments and Morals of Enlisted Men; their Causes of Complaints and Measures of Correction," by Major Thomas Wilhelm; besides the usual editorial departments. This number is fully up to the average of merit of this valuable publication.

TEMPORA MUTANTUR.

WELLS, ME., April 30th.

Editor of Gazette: How the times have changed since I lived in good old Portsmouth, sixty years and more ago; and how the people have changed with the times! I am led to this moralizing by a brief notice in a late number of the *Gazette*, that only *one* church in Portsmouth was open for divine service on the last Fast day in New Hampshire, and that even that one had but a small congregation. When I was a boy, every church, so far as I know, had services on Fast day, and the congregations were large; in fact, Fast day, to me, was as terrible and gloomy as Sunday—and I say this with all reverence for sacred things and for the Lord's day.

Gloomy indeed was Sunday to me, in those olden days—a day to be dreaded in its arrival, a day that was weary in its passing, a day that made me happy in its departure. To-day I am regarded by the young men who "run" our church as a decided conservative in religious matters; a veritable old fogy, compared with the "advanced thought" of the times; but in my early manhood I was considered by many as little better than a heathen in my belief, and far worse in reality, I having had the advantage of the strictest "Christian bringing up."

And what a bringing up it was. Of a winter Sunday, to church in the forenoon, and listen with ears blue with cold, to an interminable doctrinal sermon; a hurried dinner, and then Sunday school; another long sermon in the afternoon; and occasionally a prayer meeting in the evening. In summer the services were much the same, excepting that Sunday school, coming after the afternoon service, could hold in a half hour or so longer than in winter. But winter or summer, no unseemly conduct was allowed, and whatever was natural to a child was unseemly. A dry, prosy book from the limited Sunday school library might be read; but a stroll in the fields, to bask in God's free sunlight and breath His pure air, was not to be even thought of; and a merry laugh, childhood's offering of joy and gladness to the Deity, would sound so impious in the silent home as to startle even the culprit who made it. What wonder children dreaded the day of rest, and in their later years departed as far as possible from their early teachings?

And now what a change. Doctrines which were fundamental when I was a boy, are to-day unheard of in the pulpit; religion and gloom are no longer synonymous; and even the clergyman, in the heat of summer, sees nothing wrong in cutting off one service, or even closing the church for a couple of months while he enjoys himself at the mountains or the beaches. Religious training is very different now from what it was sixty years ago.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod&w1y

Whence Comes Our New Race of Plutocrats.

The unseemly large fortunes that are scattered around promiscuously by The Louisiana State Lottery Company are creating a race of plutocrats who succeed to the position held by those who made fortunes by contracts in the late unpleasantness, or who had sold corners in silk, wheat, whiskey, silver, copper or gold mines, or wild cat railroads or sinking vessels at sea with heavy insurance. The former often have real merit to commend them, and on May 8th next, under the sole management of Gen'ls G. T. Beauregard of La., and Jubal A. Early of Va., $285,000 will be handed out to some fortunate ticket holders, all information of which can be had on application to M. A. Dauphin, New Orleans, La.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of Hood's Sarsaparilla upon all humors and low conditions of the blood (as proven by the cures effected) proves it the best BLOOD MEDICINE. Cases of this article are on record that nearly every family in whole neighborhoods have been taking it. It eradicates the same time, scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's Sarsaparilla purifies the blood. Hood's Sarsaparilla cures blotches, boils, tumors, blotches, scrofula, salt rheum, erysipelas, blotches, pimples, eruptions, and all humors. Hood's Sarsaparilla cures biliousness. A peculiar point in Hood's Sarsaparilla is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

135 HOWARD STREET, LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours, C. C. PICKERING.
(Coburn Shuttle Co.)

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

THE *Admiration* OF THE *WORLD.* *Mrs. S. A. Allen's* WORLD'S *Hair Restorer* IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for nourishing, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT--BATCHELDER, J.

TUESDAY, May 1st.

Catharine Reid was brought in on three complaints, for selling liquor and keeping it for sale, but a *nolle prossequi* was entered in each case.

Mary E. *H*ubbard was charged with an assault on Catharine Reid; this case also was *nol. pros'd.*

MEMORIAL DAY.

There was a good attendance of citizens in the common council room, Tuesday evening, to take measures for the proper observance of Memorial day. Col. Sise called the meeting to order, and was chosen chairman, with W. T. Dodge secretary.

A committee consisting of Wm. G. Billings, *H.* W. Oxford and Walter *H.* Page was chosen to nominate committees to act in conjunction with the committees of the G. A. R., and reported the following, which were adopted:

On Invitation, Route, Procession, and selection of Chief Marshal, Charles E. Batchelder, John S. Perry, E. C. Matthews, T. E. O. Marvin,

Flowers, Frank J. Philbrick, Wm. C. Grace, W. P. Benedict, Frank E. *H.* Marden.

Carriages, John E. Colcord, W. G. Billings, *H*enry Wendell, A. P. Wendell.

Finance, A. P. Preston, Frank L. Pryor, Gustavus Peyser, Geo. E. French.

Evening Exercises, Sam. Dodge, R. *H.* Perkins, *H.* W. Oxford, *H*owe Call.

Printing, W. *H.* Page, Richard I. Walden, W. T. Dodge.

It was voted that the chairman and secretary of the meeting be the president and secretary of the general committee, and that Col. Marvin be the vice president.

A committee consisting of Col. Sise, Col. Marvin, Wallace *H*ackett and John Laighton, was appointed to confer with the G. A. R., and report to a future meeting resolutions in memory of the late Gov. Goodwin, who for many years took a prominent part in the Memorial day observances.

Adjourned for one week.

POOL TOURNAMENT.

The April pool tournament at the Eureka Pool Room, No. 31 Congress street, closed on Tuesday evening, the 1st. inst., when three players, each with a score of thirteen balls to his credit, "played off" to see who should have the several prizes, each being sure of one prize; the room was filled with interested lovers of the game, and the interest was kept up until the deciding shot was made.

Two prizes will be given to the highest scorers in May, viz.: a highly ornamented shaving mug, with the name of the winner in gilt; and a cabinet-photograph frame—a wreath of grape leaves, overlaid and framed in black walnut.

Railroad Meeting.

The annual meeting of the stockholders of the Eastern Railroad in New Hampshire, was held in this city on Tuesday, at 10:30 a. m., the president, Moody Currier, presiding. There was a larger attendance than usual, 2398 shares being represented. The treasurer's report was read and accepted. Messrs. Moody Currier, Dexter Richards, Francis Thompson, Edward L. Giddings, Edward A. Abbot, William H. Goodwin and Frank A. Philbrick were unanimously elected directors. The following vote was passed:

Voted, that the directors be and are hereby authorized and empowered to take such steps in relation to any of the interests of the corporation growing out of the proposed leasing of the Eastern railroad, as in their judgment shall be deemed expedient and beneficial to the stockholders of this corporation. Adjourned.

At a subsequent meeting of the directors, Moody Currier was elected President and Wm. H. Hackett clerk. It was voted that the matter of the proposed lease referred to the directors by vote of the stockholders at their annual meeting held this day be referred to a committee consisting of Messrs. Thompson, Giddings and Abbot.

A committee consisting of Messrs. Currier, Richards and Hackett was appointed to look after the matters coming before the legislature in which the interests of this corporation may be involved.

GOSSIPS SAY

That a fence is being built around the lot on Vaughan street where the Wilson house stood,—the sum of many conflicts.

That the trouting season commenced on Tuesday.

That the bon-bon skating carnival will take place next Monday evening.

That crowds of boys board the passenger trains on the Eastern railroad at Seabrook, with bouquets of arbutus for sale.

That over six thousand dollars was taken on the counter of the collector of internal revenue in this city on Monday, and nearly the same amount on Tuesday, of this week.

That work was commenced on the Chase house, corner of Washington and Court streets, May 1st, toward fitting it up for the use of the Chase *H*ome for Children.

That the Mitchell weir at the mouth of the harbor is now in operation, a few buckets of herring having been taken from it on Monday last.

That there was a narrow escape from a serious accident at the Vaughan street crossing of the Eastern railroad on Tuesday of this week, when the flagman stopped a team consisting of a horse and yoke of oxen, drawing a load of lumber, just in season to prevent the horse from being struck by the locomotive of a passing train.

That the gates concerning which the city has been in litigation for so many years with the railroad should be at once erected, at the Green street and Vaughan street crossings, all legal quibbles having been decided in favor of the city, so far as the citizens are informed.

That the railroad will not put any gates at those crossings, no matter what either city or court may say or do.

The street sprinklers were out on Tuesday.

The history of the "Reunion of 1873" can be procured at M. Goodrich's—ten cents in pamphlet form, fifteen cents for handsomely bound copies.

Mr. James Kehoe has opened a retail market for fresh fish and lobsters, in the building near the Spring market occupied for the same purpose last year by Caswell & Co.

The Middle street Baptist society have an entertainment and sale of fancy articles, cake, ice cream, etc., in their vestry this evening. Prof. Faulhaber will give a lecture on music, interspersed with whistling and singing.

Mr. James O. Spinney, the Market street hairdresser, says he has no intention of leaving the city and going west, as has been reported. He prefers to make a comfortable living in Portsmouth.

The alarm of fire late Tuesday afternoon was caused by a blaze in Wendell's woods. A detail of firemen went down in a job wagon to render assistance if necessary.

Lovers of minstrelsy will have a treat at Music hall this evening, when Leavitt's Giganteans appear.

The *Times* affects to believe that the city government should do something about watering the streets. This is an object for which private subscriptions are made, the city paying for watering certain public squares and before school houses and public buildings. The lack of personal, not corporate, interest,—the disinclination on the part of individuals to come down with their dust, is what's the matter this year.

Fred E. Pickering, who has been boarding at the Elm house in South Newmarket, kept by A. M. Wiggin, was arrested in this city on Tuesday on suspicion of having stolen a large sum of money from the house. *He* was soon discharged.

A considerable number of Irish emigrants, bound from Boston, where they landed on Monday, to Dover, were at the railroad station in this city Tuesday afternoon. From their appearance we should say that they had been intimately acquainted with suffering in the "old country."

The summer term of school in Newington commenced on Monday, with Miss Ida M. Nutter as teacher.

Mr. Ira C. Stevens started for his home in San Antonio, Texas, on the 1st inst., after spending a few weeks in this city with his relatives and former companions.

The steamer Emerald recommenced her regular trips between the navy yard and this city on Tuesday, May 1st, and will it is understood continue them.

The schooners Ocean Eagle and *H*attie Lewis, both loaded with bricks for Boston, and the Nancy J. Day from Dover and the Wm. A. Morrell from South Newmarket, both light and bound to the eastward, were at the draw of Portsmouth bridge on Tuesday afternoon.

On Saturday morning of last week the north pond was skimmed over with ice so thick that the little steamer Swan had all she could do to force her way through it.

Charles Randall, a young man of South Berwick, accidentally shot himself in the left breast while handling a revolver on the 1st inst., and it is thought he cannot live.

In answer to orders from Washington a report was on the 1st inst. forwarded from this navy yard to the navy department, giving the depth of water at various points in the vicinity of the yard; from the measurements taken it appears that there has been no perceptible variation in the depth of water for fifty years past.

The Maine Central railway company has issued a special circular calling the attention of its station agents to the condition of the grounds about their respective depots, and giving orders that the same be materially improved during the coming summer. To do this the station agents are empowered to employ extra help at the expense of the company.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain;

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or any close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 25 cts. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extensive work on Physiology ever published. There anything whatever that the married or single either requires or wishes to know but what is fully explained.—Louisville Leader.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver trouble, or dyspepsia, while it is truth was known, the real cause is the heart.

The renowned Dr. Cheseldine, in speaking upon this subject says: "One third of my patients show signs of heart disease."

The heart weighs about nine ounces, and pumps from twenty-eight pounds of blood every three minutes in a healthy and cheerful manner, and upwards of eight! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. Unknown as Dr. Graves' Heart Regulator has been to obtained at your druggists, $1, or sent postpaid, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

HEART TROUBLES!

Yours for Health
Lydia E. Pinkham

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural hues to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humor from the blood, and give tone and strength to the system, of whom so much is said. Inclose 2c. stamp.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Inclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

"When a thing is once begun, it is almost half finished." If you, reader, have dyspepsia, constipation, biliousness, or any disorder arising from impure blood, begin taking Wheat Bitters. Your cure will be half finished, likely completed, by the first bottle.

Winter D. Somers of Leominster, Mass., a prominent citizen, was instantly killed Monday forenoon by being caught in the belting of his button manufactory.

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidneys, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

Clara Wells, daughter of George Wells, on a visit to William Robinson's family, at Pittsfield, Mass., attempted suicide, last Sunday afternoon, *Her* recovery is doubtful.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of Frane, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

R. C. Coleman, while practicing at a rifle range at Newburg, N. Y., on Saturday, had his right eye cut by an exploding cap so badly that his physicians fear he will lose the eye. *He* was one of the American team that contested at the international match in England.

—Dr. Benson's Skin Cure consists of internal and external treatment at same time and it makes the skin white, soft and smooth. It contains no poisonous drugs. $1, at druggists.

Fitzharris, alias "Skin the Goat," on trial for his life in Dublin on a charge of complicity in the murder of Lord Cavendish and Mr. Burke, was on the 1st inst. acquitted by the jury.

Dr. E. F. Fuller, Keokuk, Iowa, says: "I have used Brown's Iron Bitters in my own family with excellent results.

Moses Lilly, employed at Titcomb's shingle factory at Houlton, Me., was killed Friday. *He* either fell or was drawn into some large gears, and his body nearly severed in twain. He was able to speak when taken out of the machinery, but died in about half an hour. Mr. Lilly was about fifty years of age, and lived in Littleton. *He* leaves a widow and several children.

Good health is the greatest of fortunes; no remedy has so often restored this prize to the suffering, as Hood's Sarsaparilla. Try it.

At Fort Worth, Texas, a construction train on the Texas & Pacific railroad ran into a steer, the concussion throwing the two head cars from the track, killing S. A. Simmons, civil engineer, Price Johnson, brakeman, and John T. Bond, one of the workmen. Jeff Ward, Charles F. Porter and Albert Somers, brakemen, were badly hurt, but will recover.

Mr. William Knights, Great Falls, N. H., says he received decided benefit from using Brown's Iron Bitters.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hailstones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is it with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

The New Cruisers.

The secretary of the navy has advertised proposals for building the new steam cruisers, the bids to be presented by July 2d. The New York *Sun* suggests that the secretary is more concerned as to the names of these vessels, as there can be but little doubt that the contractors will arrange among themselves how the bids should be made, and will contrive to apportion the work so that the honest and ingenuous secretary may be unable to see how the job is arranged. The *Sun* suggests that it would be a particularly graceful act on his part to call the 4,500-ton steel cruiser the John Roach, and the two 3,000-ton steel cruisers the Charles H. Cramp and William M. Cramp respectively! Another suggestion is that the secretary should name these vessels in honor of his fellow orphans of the Washington Market, and designate "Gov. Butler" and "Gov. Ordway" for the 3000-ton ships, while the large 4,500-ton cruiser should bear the name of the originator of the bill in aid of the contractors, the Hon. Mr. Robeson of New Jersey.

New Hampshire Items.

The state board of equalization met at Concord, May 1st, and after organizing by electing Jewett Courier of Exeter as chairman and William Butterfield of Concord as secretary, adjourned to May 22d.

Petitions are being circulated addressed to the coming legislature, praying that body to pass an act taking the sense of the qualified voters at the next election on the subject of a prohibitory constitutional amendment.

The rate of taxation in Amherst is $1.17 on $100, as against $1.31 in 1882.

Hopkinton has an inventory of $1,047,849, a small decrease from the previous year.

The highest salary paid in Manchester is ten thousand dollars to one of the agents of a manufacturing company, with a douceur of a thousand dollars a month for being obliged to live in Manchester.

E. A. Hubbard and W. N. Melcher, administrators of Richard Gove's estate, advertise the stock of jewelry recently appraised by J. E. Dixon, formerly of this city, for sale at auction; among the items contained in the advertisement is "the well known diamond pin worn by the deceased, weighing 20 1-4 carats."

News and Notes.

A Washington despatch of the 2d inst. says: "Preparations are being made for a naval review at Fortress Monroe, but it may be delayed until Secretary Chandler returns from New Hampshire, where he is called by the illness of his mother."

The United States ship Jamestown arrived at Havana on Monday night, April 30th, from St. Thomas.

Patrick Delaney and Thomas Caffrey, two more of the men charged with participation in the Phenix park murders, pleaded guilty in the court at Dublin on the 2d inst., and were sentenced to death.

The Pennsylvania railroad company have issued their summer note-book entitled "Cape May to Atlantic City," giving in attractive form a description of the places of resort on the Jersey shore of the Atlantic, with practical suggestions as to the mode of reaching them. The illustrations are abundant and elegant. The book is full of timely hints, and though calculated for the meridian of Jersey will answer for other states in many respects.

AROUND HOME.

The schooner Chilon, Call master, now in Boston, will go from there to Bangor, to load lumber for Hingham, Mass.

A. T. Goodrich and Abram A. Johnson of this city gathered a bushel and a half of trailing arbutus in the woods of York and South Berwick last Sunday.

Mr. Leonard C. Cook of Kittery, and his son Frank, have been seriously ill, but are now improving. Mr. Cook's mother, aged eighty-six years, wife of Daniel Cook, was reported on the 1st inst. as being very sick; she and her husband have lived together fifty-eight years, and they have occupied the same farm, on the road from Kittery to South Berwick, for fifty-three years.

The post office at North Berwick is to be made a money order office on the 1st of July.

Deputy Sheriffs Elliot and Grant, of York county, on the night of the 30th ult. saw some persons removing kegs from a point on the railroad outside of Biddeford, and followed them to the house of a Mrs. Wood, where nineteen five-gallon kegs and ten ten-gallon kegs, all full of whiskey, were captured, and also about five gallons of the ardent in a forty-gallon cask. This is one of the largest seizures ever made in that place.

Freemont Varrell, of York harbor, buys all the lobsters which are offered by the fishermen at that place, for Randall & Caswell of this city.

Charles Randall, who accidentally shot himself in South Berwick on the 1st inst., has died.

At Kittery Point active preparations are being made for the coming season. Mr. N. G. Berry has let his cottage for the summer to Mrs. Blake of Portsmouth; the Decatur cottage is occupied, and Mr. Stephen Decatur has got his yacht afloat, and is fitting her for use; Admiral Craven it is said will not come to the Point this year, but will remain at Geneva, N. Y., owing to the sickness of his wife; it is reported that Comdr. Thos. H. Eastman, U. S. N., of Portsmouth, will occupy the Craven cottage. Mr. R. H. Billings and Mrs. Carrie Frisbee have leased their houses for the season; and Horace Mitchell has had several applications for his. Mrs. Gunnison is preparing to take boarders. New York parties are negotiating for the occupancy of the residence of Oliver Cutts. Dr. Barney's cottage, near Admiral Craven's, is to be sold.

Among the appointments made by the Maine conference of the Methodist Episcopal church were the following: Kittery, 1st church, A. Hamilton; Kittery, 2d church, Perry Chandler; Eliot, J. F. Trask; South Eliot, E. K. Colby; York, George C. Andrews; South Berwick, E. W. Hutchinson; Berwick, E. W. Simons; Cape Porpoise, Alvah Cook; Maryland Ridge and Ogunquit, S. T. Record.

James Sylvester, of Kittery, a diver employed on the removal of Gangway rock in this harbor, started from Newburyport for his home on Saturday forenoon, the 28th ult., in a sailboat and had not been heard from up to the evening of the 2d inst. He was seen to pass Black rocks, and it is feared he was swamped on the bar.

The approaches of the bridge at Sturgeon creek, Eliot, which suffered from washouts this spring, have been repaired; the bridge also has had all necessary work done to it.

The New Hampshire house, at York beach, which was last fall purchased by Mr. Decatur of Great Falls, is being enlarged, and put in good condition for the coming season.

The parsonage of the First Christian church at Kittery Point has been put in thorough repair for the occupancy of the new pastor, who assumes the pastoral duties on the 6th inst.

John Hanscom of South Berwick was driving across the track of the Eastern railroad in that town on the 2d inst., when the team was struck by a train, killing the horse and smashing the carriage. Hanscom was but little hurt.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 26th, 1883:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of *d bris* placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be proceeded against in consonance with section 6, chapter 17 of the Ordinances.

PURE BLOOD IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it. It eradicates the same time, scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. HOOD'S SARSAPARILLA purifies the blood. HOOD'S SARSAPARILLA cures dyspepsia. HOOD'S SARSAPARILLA cures biliousness. A peculiar point in HOOD'S SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE VALVE SUITS.

An important witness in the suits of Norton and others against the several cities of New Hampshire, in which heavy damages are claimed for an alleged infringement upon the alleged Knibbs' patent valve for steam fire engines, arrived in this city on the 2d inst., and was carefully locked up in the house of engine No. 2, on Court street. This witness is a steam fire engine, built in 1859 by the Amoskeag Co. of Manchester, and originally fitted with the circulating valve which is alleged to be covered by the "Knibbs patent," for infringement on which the cities are invited to contribute liberal thousands of dollars to the alleged holders of the patent. The machine weighs about 8000 lbs., has a square firebox and a round boiler, and looks as ancient and as unwieldy as a full-grown elephant; it is named the "J. R. Esty," and belongs to the town of Brattleboro', Vermont. It will be shown in actual operation on Market square, in company with one of the city engines, to the jury in the valve suits which are set for trial at the approaching term of the Circuit court of the United States in this city.

Judge Foster and George L. Roberts, Esq., the eminent patent lawyer of Boston, counsel for the cities, were in Dover on Wednesday, the 2d, engaged in making preparations for the trial of the suits.

POLICE COURT--BATCHELDER, J.

WEDNESDAY, May 2d.

Joseph J. Morrison, for drunkenness, was ordered to Brentwood for sixty days, and to pay $6.90 costs.

Michael Reagan, another drunk, got ninety days in Brentwood, with $6.90 costs.

The two indiscreet individuals named had been but a short time back from a sojurn at the county farm.

GOSSIPS SAY

That the new cornet band recently organized in this city is getting along wonderfully in its practise, and already plays better than half the bands in the state.

That Richards avenue is sadly in need of a coating of gravel from end to end.

That quite a number of Dartmouth students have been engaged as waiters for the hotels at Rye this summer.

That a calico ball took place in the town hall at Newington on the evening of the 2d inst., and was a grand success.

That Special Agent Marvin, of the internal revenue bureau, says the New Hampshire district is one of the best-managed in the country, and that the affairs of the office in this city are of the highest possible grade.

That many novelties will be introduced at the skating carnival next week, not the least being the flying leaps of Prof. Bailey.

That Ex-Mayor Sise was in Concord on the 1st inst., in consultation with Adjt. Gen. Ayling on military affairs.

That the post-office at Greenland has been made a money order office.

That work on the north millbridge has ceased for the want of plank.

That last month was colder on the average than any other previous April for twelve years.

That Dover will send another excursion to this city next week.

LOTTA.

This evening, at Music hall, Lotta will give her first performance in this city, when "Musette, or Little Bright Eyes," will be presented. A large audience is assured, but there are still good seats to be had; tickets at Goodrich's.

City workmen have for some time been engaged in blasting a ledge on Broad street, near the residence of Mr. James Miller, and ripped out a large lot of stone without doing any damage until about six o'clock in the evening on the 1st inst., when the last shot for the day was fired, and a piece of rock about the size of a coffee-pot sailed gracefully through the air and in through the closed window of Mr. Miller's bed-room, carrying a part of the blind and one sash, and scattering pulverized glass over everything in the room, including the bed. Mr. Miller was absent from home at the time, and on returning was surprised to find the big stone in the middle of his couch, in a position indicating that it would have landed about on his stomach had he been in bed at the time the blast was made, which he was glad he wasn't.

Workmen on Noble's island on Monday afternoon of this week noticed a whirling mass of dust and small sticks in the air near the Kittery end of Portsmouth bridge, just north of the tracks; while they watched they saw the cloud move at a moderate speed across the tracks, and then across the cove to the southward of the bridge, the whirlwind lifting quite a large quantity of water to a height of ten or fifteen feet as it went across the cove to the opposite shore, where it disappeared. One of the spectators who has seen numerous waterspouts in the Indian ocean and Panama bay, says the whirl had the exact appearance of a waterspout in course of formation, though there was no sign of a funnel coming down from the clouds.

In Boston, on the 2d inst., the trustees under the mortgage of the Eastern railroad having taken measures to secure an injunction against the proposed lease of the Eastern road to the Boston & Maine, and the necessary papers preliminary to a hearing having been issued, the papers were served upon the Eastern railroad officials.

Eastern railroad bonds to the amount of about $160,000 were sold at the broker's board in Boston in the forenoon on the 2d inst., and about $100,000 changed hands immediately after the board. In the afternoon, the bonds sold down to 111, and a few shares of Eastern stock went at forty-five.

It is stated that a price considerably above par has been offered for a block of Eastern Railroad in New Hampshire stock sufficient in amount to control the whole interest in the company.

Col. J. C. Butler is getting up his buildings at Wallis' sands, Rye, in readiness for the coming season. H. C. Russell is making considerable improvements to his place, close by.

Harry J. Freeman has bought of Mr. Peter Emery the Haddock estate on Islington street.

The directions from Mr. Geo. B. Chase to Mr. L. E. Martin, the master builder in charge of repairs upon the Chase house, are for him to retain the appearance of the house as originally built long ago. This is a sensible conclusion. A summer resident in Rye has asserted that Portsmouth contains more handsome, well proportioned houses of the old style than any city in the country. Let none be modernized, as these houses are one of our chief attractions, and ere long may be a source of revenue to us when other means of support become exhausted.

A large and beautiful model of a full-rigged ship was placed in the show window of Goodrich's store on the corner of Market and Daniel streets, on the 2d inst., and attracted great attention and admiration. It was made by Mr. William Philbrick of Kittery, and is an exact model, on a scale of three-sixteenth of an inch to the foot, of the ship Adam M. Simpson of Philadelphia, a 1500-ton ship built at Bath, Me., in 1876, and of which Mr. Philbrick has been carpenter; the most scrupulous attention has been paid to the spars, deck fittings, standing and running rigging, etc., of the model, so that it is an exact reproduction in miniature of the big vessel.

Mr. George Clark, late a clerk in the employ of the Eldredge Brewing Co., has given up that position to accept one in Boston.

No freight train now comes to this city direct from North Conway; the train is broken up at Conway junction, and the cars distributed there.

The cotton loaded schooner Alice Montgomery came up to the wharf on the 2d inst. from the lower harbor, to take a berth at the Eastern railroad wharf as soon as one is vacant. Her cargo, which is owned by the Great Falls Manufacturing Co., will of course go to Great Falls by rail.

Harry C. Cook, a lad about fifteen years old, son of Mr. Oliver H. Cook, died on the 1st inst. after a very brief illness. He received a blow in the stomach from a base ball while at play a few days before his death, and it is thought possible may have been internally injured at that time.

The lighthouse board on the 1st inst. gave notice that the whistling buoy on Boon island ledge had been replaced, and was working all right.

Mr. Edward D. Coffin is this week painting the store and office of the Eldredge Brewing Co. on Bow street. The building is a dull red, and a sign, "Eldredge Brewing Co.," in black letters shaded with brown and twenty inches long, on a white ground, is painted across the front of the structure.

Hon. Daniel Clark, who for many seasons has been a sojourner at Appledore, will take his summer vacation this year at Shirley hill, a sightly and beautiful spot in Goffstown, seven miles from Manchester, where there is a comfortable summer hotel and plenty of fresh air.

Mr. Ed. Ben Amazeen, of Newcastle, on the 2d inst. brought in 200 fine lobsters to John Kehoe. George Stover and Clarence Caswell on the 1st brought in from the Shoals, in their whaleboat, 3500 lbs. of haddock.

The supply of bricks from last year's burnings at the several yards up the river will probably give out by the 1st of July; the burning of new bricks will hardly begin before the first of June, and in some of the yards not till much later.

John C. Jones, boat builder, left this city on the 2d inst. for Boston, in search of employment, failing to find which there he will keep on to the westward as far as Dakota.

Green peas from the Hayes farm, spring lamb raised by Oliver Dixon of Eliot, and cucumbers and asparagus from Boston, were being sold by C. Sullivan & Co. on the 2d inst.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 138.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 136.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE unsold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25, by mail, postpaid, on receipt of price. Illustrated sample six cts. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Now people think themselves ill and take medicine for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheneau, of Paris, says nine-tenths of our sudden deaths are due to heart disease. The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful study.

Dr. Graves, a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

Mrs. Patrick Costello of South Framingham, Mass., was found dead Tuesday morning, the 1st inst., having, it is alleged, fallen out of bed while intoxicated.

The affairs of the late Webster Park, the Norwich, Conn., clerk of courts, who was reported at the time of his death to have been dishonorably a debtor to the state and private individuals, have been thoroughly examined by his wife, and she finds, it is claimed, that a balance of $37,000 is due him from the state house alone, and that his accounts are correct.

An explosion of gas took place at the Keystone colliery, about one mile from Ashland, Pa., April 30th, killing August Welcher, Patrick Reagan and Andrew Jones, and seriously wounding Charles Tyler and Cooney Watters. The explosion was caused by the sliding of a pillar, which pushed a large body of gas in contact with the lamps of the miners. The force of the explosion was terrific.

James Madden, aged about forty years, and at one time engrossing clerk of the New Jersey legislature, was arrested in New York on the 30th ult., charged with stealing $23,000 worth of laces from the importing house of Muser & Brothers. Max Gradenski, his daughter, Mrs. Anna Lewis, and a Madame Miller of Fifth avenue, to whom Madden sold the goods, have also been arrested.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Tewfik Pasha, the new Turkish minister, arrived in New York April 30th, on the way to Washington.

Catarrh of the Bladder,

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

The body of Fred Hough, a Hartford, Conn., car driver who has been missing for two months, has turned up in the river, where he either committed suicide, or fell in, it is not known which.

—Dr. Benson's Skin Cure consists of internal and external treatment at same time and it makes the skin white, soft and smooth. It contains no poisonous drugs. $1, at druggists.

The New York legislature has passed a bill appropriating $20,000,000 for a new Croton aqueduct for New York city; this it is thought will secure the state in the reform democracy for many years.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

Frederick J. Cluff of Cambridgeport, Mass., recently employed in New York, gave himself up to the police in a Rhode Island town a few days ago, claiming protection from twenty imaginary Freemasons of Hoboken who were chasing him to kill him for passing himself off in New York as a member of the order. He was given to his friends to take care of.

Hood's Sarsaparilla gives an appetite and imparts new life and energy to all the functions of the body. Try a bottle and realize it.

Elizabeth Quinquinet was on April 30th found not guilty of murder by a jury in New York, she testifying that she stabbed D. L. Houvet to death on Feb. 28th, to protect herself from assault.

Unable To Tell.

Yes, that was so. For years I suffered severely with scrofula; sores broke out all over my body and I am unable to tell one half I suffered. I was not able to obtain relief until I used Sulphur Bitters, which completely cured me.—C. B. Dale, 17 Allston street, Boston.

Dr. Henry Meyer, a prominent German physician of Chicago, is implicated in a conspiracy with men whom he believed to be ex-convicts, but who were really detectives, to poison his wife in order that he might obtain her estate of $60,000.

Dr. E. F. Fuller, Keokuk, Iowa, says: "I have used Brown's Iron Bitters in my own family with excellent results.

The late Capt. Amasa Howe of Shrewsbury, Mass., bequeathed $4,200 to the Congregational church and $1,000 to the high school of that place.

Mr. William Knights, Great Falls, N. H., says he received decided benefit from using Brown's Iron Bitters.

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprung up and began to steal the notices from the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Stick to none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hail-stones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is it with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

The New York senate on the 1st inst. by a vote of nine to fifteen refused to order to its third reading the bill to prohibit free passes on railroads.

"When a thing is once begun, it is almost half finished." If you, reader, have dyspepsia, constipation, biliousness, or any disorder arising from impure blood, begin taking Wheat Bitters. Your cure will be half finished, likely completed, by the first bottle.

The Haytian rebellion is ended, and government troops have possession of the most of Miragoane. The rebels are executed as fast as captured; orders have been issued by the government to take no prisoners.

Mr. C. B. Littlefield, 1433 Elm street, Manchester, N. H., says: "Brown's Iron Bitters are giving perfect satisfaction. I take pleasure in recommending them."

The police of New York and Providence made extensive raids on gambling dens and houses of ill-fame in their respective cities, on the night of the 1st inst.

Ship Building on the Merrimac.

Our neighbors at Newburyport seem to have revived the business of ship building at that city, though however much it declined elsewhere, it was kept up there to a limited extent during the depression in the business. Mr. John Currier, Jr.'s fine ship, the Mary L. Cushing, is a specimen of naval architecture of which we all can afford to be proud, for it shows the success of the New England ship builder over any competitor in the world.

Recently there was launched from the yard of George E. Currier at Newburyport a fine three-masted schooner, and on this occasion the celebration of the event was like similar occasions in former times.

The schooner was christened Albert T. Stearns, as she was being launched, Mrs. E. A. Williams, a young lady of Newburyport, breaking the bottle of wine over the bow, and the burgee being shaken out to the breeze at the same moment. The schooner is owned by persons in Newburyport, Baltimore, Gloucester, Boston, Harwich and New Bedford, hailing from the latter port. She is expected to carry 900 tons of coal on fourteen feet of water, and is equipped with all modern appliances.

At the launch were present visitors from Dennisport, Harwich and other places, and speeches were made, and a poem written for the occasion was read; indeed it was quite a celebration, and was enjoyed to the full, no less than was the lunch served by Mrs. M. A. Currier at her residence, where the banquet hall was decorated with flags and bunting in honor of the occasion. Mr. Currier is already engaged in the building of another of this class of vessels, while below the bridge two or more are in frame by other builders.

Thus the Newburyport builder comes into New Hampshire and obtains his oak frames, transports them, in some instances through our city, and builds his vessels twenty miles from a navy yard, where, free from the blight from which Portsmouth now suffers, plenty of mechanics can be found who will work for fair wages all the year round, instead of deserting private yards for a few weeks' employment upon a navy yard.

Socrates: A translation of the Apology, Cato, and parts of the Phædo of Plato. New York; Charles Scribner's Sons. In paper covers, fifty cents.

Prof. W. W. Goodwin of Harvard gives in an introduction some interesting suggestions as to Plato and Socrates, and in the author's preface we learn many things of Socrates, who was born 469 B. C. We are inclined to the belief that of late years the Athenian philosophers have not been the subject of much reading, but in the present form, with the interesting introduction, much can be learned of Socrates with profit to the reader. Socrates was a man who took time to think. "It was one day observed that he had been standing in the same position from dawn to noontide, apparently lost in thought over some problem which he was seeking to solve. Then people began to notice him and to relate to one another with wonder that Socrates had been standing there pondering ever since daybreak. When evening came some of the Ionians after supper brought out their mats and slept in the open air, partly to enjoy the cool and partly to watch Socrates to see whether he would remain all night. There the philosopher stood until the day broke and the sun had risen, and then, after he had offered a prayer to the sun-god, he went away."

News and Notes.

Mr. Albert H. Beal, Jr., whose fatal mistake caused the death of his partner, A. P. Fickett, on the steamer Bristol, was brought from Fall River to Boston on Wednesday, the 2d inst., and arraigned before United States Commissioner Hallet. He pleaded not guilty to the charge of manslaughter, and asked for a continuance, which was granted. Mr. John Stetson, the theatrical manager, furnished $2,000 bonds for Mr. Beal's appearance. Funeral services were held over the remains of Mr. Fickett in the Dorchester district, Wednesday afternoon, and they were taken to Portland on the boat in the evening.

The board of aldermen of Newburyport having refused to confirm Mayor Johnson's nominations for officials of the fire department, and the time of the old officials having expired, the mayor appointed new officers, and ordered the department to obey them. The aldermen applied for an injunction to prevent the new engineers from acting, but the court declined to grant it. A building on Cushing's wharf was burned by an incendiary fire on the 2d inst., and the firemen obeyed the new officers, though the aldermen have refused to confirm them.

A suit for $100,000 as damages for the alienation of his wife's affections has been begun by Eli Johnson, a well known temperance speaker of Brooklyn, against Henry A. Higley, a prominent member of Plymouth church, and a grain and provision broker of New York.

The cracker bakers of New England had an informal meeting in Lewiston, Me., May 2d. A party of fifteen had a late dinner. No discussion of prices occurred.

An inquest was held at Corinna, Me., May 2d, over the body of George Parkman, with George W. Whitney of Bangor as coroner. The jury brought in a verdict of justifiable homicide.

A difficulty occurred on the 28th ult. between Isaiah Cain, a prominent farmer, near Little Springs, Miss., and Amos Bailey, colored, in which the latter struck the former over the head, inflicting injuries from which Mr. Cain died on the 30th. On the 1st inst. fifty armed men took Bailey from a sheriff's posse, and hanged him near the scene of the murder.

—At one of the churches of Danbury, Conn., on Sunday, the opening piece on the organ was from the "Pirates" and the closing piece from "Pinafore," and nobody found any fault except the deacon who passed the plate to the music of "I am a Pirate King."

—"Then if I understand you," said a merchant to a customer, "you do not intend to pay me the amount you owe." "Your understanding is correct, cap'n." "And you call yourself an honest man, do you?" "Yes, sir. If I were not honest, I would tell you that I intend to pay; but, being honest, I do not wish to deceive you."

HOOD'S SARSAPARILLA

THE marvellous results of Hood's SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, and thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures scrofula. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

SCROFULA.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WEATHER.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 45 degrees above zero.

Cloudy.

The report that the Mutual Union telegraph office in this city is to be discontinued or removed, is incorrect; it will be continued in the same place as at present — the lower floor of the city building.

Mr. Joshua P. Fabyan, an esteemed citizen of Newington, was found dead in bed by his wife shortly after midnight, on the 3d inst. There being no other person in the house, the unfortunate woman was compelled unattended to seek assistance at the Badger farm, half a mile distant. The deceased was about forty-five years of age, and was apparently in robust health when he retired for the night, the day previous visiting a neighboring farm three times. The deceased leaves no children.

A slight fire at the house of John H. Wendell, on Hancock street, on Thursday at noon, was extinguished by a few buckets of water; no general alarm was given, but steamers two and three turned out, in answer to the shouting of "fire" by a lot of boys.

Persons wishing to purchase two cottage houses in Newcastle, or to exchange a house in this city for them, are referred to Mr. Frank B. Johnson.

The eastward bound way freight on the Concord & Portsmouth railroad met with an accident this side of Raymond on the 3d inst., a number of cars being derailed and broken; passage was blocked for other trains, and passengers and baggage bound either way had to be transferred around the wreck to trains on the other side.

A house at Durham point, owned by Mr. Valentine Mathes, was burned on the afternoon of the 1st inst., with nearly all its contents; it is supposed the fire caught on the roof, by a spark from the chimney. Loss $800; insurance $600.

Mr. J. M. Tebbetts in another column explains to the ladies how it is that he is able to sell millinery goods as cheaply as can be procured in Boston, and asks them to investigate for themselves, at his two stores, Nos. 3 and 14 Market street.

Eastern railroad stock sold down to 42 3-4 at the brokers' board in Boston on the 3d, but later in the day recovered to 43 1-4.

The divers have commenced operations on Gangway rock, and find the new-fangled tide-breaker to work admirably.

The fire in Wendell's woods at Sagamore, which was supposed to have been extinguished on Tuesday afternoon of this week, broke out afresh on Wednesday afternoon, and before it burned itself out had run through half or two-thirds of the woods, and also over two pieces of young growth of about three acres each, one piece being owned by Mrs. Marston and the other by Mrs. Stackpole. The heavy woods probably suffered little if any, but the young trees are spoiled.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their conditions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

298th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of very extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 6 cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. Their motto is what every man has the marrid or single either require or wish to know but what is to be explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or Self-Preservation, the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sound and are for Kidney or Liver trouble, or dyspepsia, while it is the weak nerve known as the heart.

The renowned Dr. Cheinisi of Paris says one-third of our subjects also suffer from heart disease.

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, rested not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' Thrength and exhaustive treatise.* (1)

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it has been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or counterfeits, no matter what their name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

"Hail Stones as Big as Pumpkins."

There is some doubt about the hail-stones having been quite so large, but as some people said they were as large as potatoes anyhow, it must have been a very severe storm. A man who is fit with many hail-stones will be badly bruised. It is surprising to see how quickly Perry Davis's Pain Killer will relieve the pain, even of the worst bruises.

A little girl of seven years died in New York on Friday, the 27th ult., from the effect of skipping rope. On Wednesday evening, the 25th, she told her mother she had jumped the rope 200 times, and her head ached. The doctor said she died of coma and congestion of the brain.

He was "Penny wise and pound foolish"—the man who got a cough, neglected it and was laid up for months, when he might have been speedily cured by using a bottle of Adamson's Botanic Cough Balsam.

John Taffe, a currier, residing in Woburn, Mass., had a quarrel with his wife, May 3d, and cut her throat with a pocket-knife, making a gash four inches long. A doctor sewed up the wound and thinks she will recover. Taffe was arrested.

Mr. C. B. Littlefield, 1133 Elm street, Manchester, N. H., says: "Brown's Iron Bitters are giving perfect satisfaction. I take pleasure in recommending them."

Seth H. Manson committed suicide at the Essex house, Haverhill, Mass., May 3d, by shooting himself with a revolver. He was recently divorced, and despondency was probably the cause. He was thirty-nine years old. He left a letter addressed to his father.

Of Unvarying Excellence

is the "G. O. Taylor Old Bourbon," bottled by Chester H. Graves & Sons. It is pleasant to speak of an article which has maintained so high a reputation for many years. Your Druggist or Grocer will supply you.

Advices from different parts of Texas report great activity among stockmen, and a great number of cattle already on the trail for the north.

Difficulty in breathing; terrific dreams; starting from sleep; swelling of feet and legs; purple or blue color of the cheeks, nose and lips, and especially around the eyes; feeble and oppressive palpitation; bleeding from the nose; faintness; ringing in the ears, and inability to lay on the left side—are a few characteristics of heart disease. Dr. Graves' Heart Regulator comes to the rescue, in furnishing tone to the heart and curing all its diseases.

The Irish Troubles.

In Dublin, on the 3d inst., the jury found true bills for murder against Peter Tynan, ("No. 1,") John Walsh and P. J. Sheridan, and a bill against Fitzharris for being accessory to murder after the fact. Walsh and Sheridan are in the United States, and Tynan is supposed to be.

True bills were found against Lawrence Hanlon, James Mullet and Joseph Mullet, and Daniel Delaney, on the charge of attempting to murder Juror Dennis Field. They also found true bills for conspiracy to murder against the two Mulletts, Lawrence Hanlon, Edw. McCaffrey, Edward O'Brien, George Smith, Peter Doyle, Thomas Doyle, Wm. Moroney, Thomas Martin and Daniel Delaney. James Mullett and William Moroney pleaded guilty on the charge of conspiracy to murder. Edward O'Brien and Edward McCaffrey were indicted for participating in the Phenix park murders.

A man named Hawkins was arrested in Dublin on the 3d, charged with conspiring with Eugene Kingston and others to murder Poole, the Fenian centre who turned informer.

Two hundred persons, who are known to be members of the Patriotic Brotherhood, have left Crossmaglen, county Armagh, and its vicinity, because of revelations which have been made recently, implicating them in unlawful acts.

As the result of great effort about $11,000 has been raised in Bangor, Me., toward the $15,000 needed to insure the construction of the Shore Line railroad, between Bangor and Sullivan. The *Whig* says the people are not awake to the great advantage to be derived by Bangor if the proposed road should be built.

A despatch of May 3d from Victoria, British Columbia, says: "The steamer Grappler, while proceeding north with 100 passengers and a full cargo, took fire Sunday night at Seymour narrows, near Bute inlet, and was burned and sunk. It is supposed that at least fifty persons, including Capt. J. Jaggers, lost their lives. Only twenty persons are so far known to have been saved. It is feared that a number of Canadians, who came here by the lost steamer to work in the coast canneries, perished."

The German steamer Africa, which left New York March 17th for Leith and Hamburg, is given up for lost.

Priestgate street, one of the principal thoroughfares in Peterborough, Eng., was partially blown up Wednesday night, May 2d. Great alarm was caused by the explosion, as it was thought it was the work of dynamite fiends, but it is now believed that it was due to the ignition of gas in the sewer under the street. The houses on the street were much damaged.

Early Wednesday morning, the 2d inst., Hon. W. B. Seabright, mayor of Vincennes, Ind., committed suicide by shooting himself with a revolver. He fired two shots, one taking effect in the right breast and the other in the right temple. He had been mayor six years, and was a candidate for re-election on Tuesday, the 1st, but was defeated. It is believed that his defeat at the polls prompted the act.

In New Orleans, La., May 3d, Judge Billings rendered an opinion in the case of Myra Clark Gaines against the city of New Orleans on an exception to the report of the master in chancery. The report of the master is confirmed, and interest is added. Mrs. Gaines gets judgment against the city for $1,925,667, of which $566,707 is interest.

A dispatch from Silver Lake, New Mexico, says that the richest strike on record is at Bear mountain, five miles west of Silver City, Grant county. The first discovery was made April 23d. The vein is said to be solid metal.

The first state appropriation for the higher education of women was the sum of $1000, given by the state of New York to the Albany free academy.

The suicide of Reuben Bugbee, of Bedford, who hung himself recently, was very successfully planned by the deceased. He bored a hole through a floor in his carriage house, through which he ran a strong rope, securing it on the upper side by a strong piece of wood. He then tied a rope about his left wrist, this rope having a noose in the other end, and by placing his left hand behind him and inserting his right through the noose he effectually tied his own hands. The rope suspended from the flooring above was also supplied with a noose, which the deceased placed around his neck while mounted upon a high box. After having done this he evidently secured his hands behind him, and then swung off the box. Mr. Bugbee was in good circumstances, but was recently possessed of the belief that he would end his days in poverty, and had threatened to take his life, so that his wife had kept close watch upon his movements. He ate a hearty dinner on the day of his death, and it was while his wife was engaged in washing the dishes that he committed the fatal act.

Charles Chauncey Burr died at his residence in West Hoboken, N. J., May 2d, aged sixty-eight years. He was a native of Maine, a graduate of Bowdoin college, and began his career as a school teacher. He was in turn a lawyer, lecturer, preacher, author, elocutionist, political orator, and journalist. He was a favorite with President Pierce, and was offered the appointment of minister to Berlin. He was dissatisfied with the nomination of Horace Greeley in 1872, and was the man who nominated Charles O'Conor in opposition, on a "straight-out democratic" ticket. He was an ultra pro-slavery man, and a noisy opponent of the war for the preservation of the Union. Some years after the close of the war he delivered in this city a course of what he called "Ethnological lectures," in which he earnestly endeavored to show that the negro was created inferior to the white man and must ever remain so, and that God did not intend either civil equality or the Christian religion for the inferior races; in support of these positions he quoted poetry, history and the Bible, and though an ex-preacher, made some ridiculous blunders in quoting the latter.

At the installation of Rev. Samuel M. Barnum as pastor of the Congregational church at Durham on the 29th ult., Rev. A. B. Peabody of Stratham gave the introductory prayer; Rev. Wm. A. McInley of this city the ordination prayer; and Rev. E. Robie, D. D., of Greenland, the address to the people. This is Rev. Mr. Barnum's first pastorate.

Mr. Wm. T. Frye has returned to this city from Boston, where he passed the winter.

Alewives are now running up the small rivers emptying into Great bay, and small numbers of them have been trapped in the weirs.

Hon. William G. Perry, assistant superintendent of the Amoskeag Manufacturing company at Manchester for several years past, has resigned his position, on account of ill health, and removed to Hampton.

It should not be supposed that this city is the only place from which young men have within a year departed in large numbers for the west, for there has been a general movement in that direction among the young men all over New England; the Maine papers, in particular, report a very heavy emigration of the bone and muscle of the state toward the setting sun.

The eighth annual session of the Rockingham County Sunday School Association is to be held in the North church in this city on Wednesday, May 16th.

The Portsmouth *Journal* says: "Rev. Thomas F. Davies, D. D., of Philadelphia, a former rector of St. John's church in this city, who left some weeks ago on a European trip for the benefit of his health, is on his return home, in no wise benefitted by the change, we understand. The doctor is suffering from Bright's disease, and his condition is such that considerable doubt is felt as to his recovery."

The schooner Sarah Louise, now employed in carrying sand for the city of Boston, has in her company three York men, viz., John Torguson, (master,) Charles Stover and Alvin D. Tuttle.

Mrs. Gunnison of Kittery Point has rented her house for the summer to a Mrs. Snow of Jamaica Plain, Mass.

Congressman-elect Thomas B. Reed, of the first district of Maine, was in town on Friday.

Augustus Stevenson of Kittery has given public notice that he will petition the legislature of New Hampshire at its next session, for a charter for a steam ferry for the conveyance of passengers, freight and teams across the river between Portsmouth and Newcastle in this state, and Kittery.

It is reported that the receiving ship Constitution will be put in commission in about two weeks, with Commander Francis J. Higginson as commander; she will have one or two other line officers attached, several warrant officers, and a small crew.

Work will shortly be commenced at repairing the Marion, now at this navy yard.

PURE BLOOD

IS THE ABSOLUTE NECESSITY OF HEALTH.

HOOD'S SARSAPARILLA

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in a whole neighborhood have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. HOOD'S SARSAPARILLA purifies the blood. HOOD'S SARSAPARILLA cures dyspepsia. HOOD'S SARSAPARILLA cures biliousness. A peculiar point in HOOD'S SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

SCROFULA.

135 HOWARD STREET,
LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,

(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, May 3d, Mayor Treat in the chair:

The records of the last meeting were read and approved.

The annual appropriation bill was received from the Common Council in the same shape in which it was introduced in the council, and was referred to the committee on bills on their second reading.

Aldermen Martin, Stavers, and Green of ward four, were appointed a committee to investigate the electric lighting system, and report to the board as to the advisability of its adoption by the city.

A hearing was had on the petition to regulate the sale of goods on the streets by peddlers, and a number of business men were present and gave their views. The petition, and the ordinance based thereon passed by the council, were referred to the city solicitor.

There was a lively tilt among the aldermen concerning some matter connected with the street commissioner's department, at the end of which an adjournment was taken for one week.

NOT DROWNED.

It having been stated in the papers that James Sylvester of Kittery, a diver employed on government harbor improvements, left Newburyport for this port on the 28th ult. in a small boat, and having failed to arrive up to the evening of Wednesday, the 2d inst., was supposed to have been lost on Newburyport bar, the *Herald* of that city, under date of the 3d inst., says:

With so large a force of men as at present at work near the mouth of the river a boat could hardly swamp on the bar in the day time without being seen. Furthermore Mr. Sylvester's sloop has been at her moorings this week, and better still Mr. Sylvester was Wednesday engaged at his work, so we are informed by employes of Mr. Shaw in the steamboat and jetty business.

The alarm as to Mr. Sylvester's safety originated with his nearest friends in Kittery, who expected him home on the evening of the 28th ult., and failed to get any answer to repeated messages sent him by wire.

MARK DENNETT.

Mark Dennett of Kittery, whose decease on the 30th of April has been announced, was born Aug. 28th, 1786, and was consequently in his 97th year at the time of his death, which was caused by pneumonia; he had been sick, but had apparently got better, and just a week before his death went out to do some light work, and suffered a fatal relapse.

For many years in the earlier part of his life he was quite prominently identified with the interests of the town. In 1811 he was elected a selectman; serving nine consecutive years, and subsequently he filled the same position eight years more. From 1814 to 1819 he represented Kittery in the Massachusetts legislature, riding from Kittery to Boston on horseback at the commencement of each term, and back again at the close. He was a member of the convention to form the constitution of Maine, which was separated from Massachusetts and became a state in 1820, and it is alleged that he was the last survivor of that body. He was the first representative of Kittery in the first legislature of Maine, having been elected in 1820 by a majority of one vote, the opposition candidate casting his ballot (the last one thrown) for Mr. Dennett, breaking a tie. He was also at one time collector of customs at York; was justice of the peace, chairman of the school committee, and for forty years or more a school teacher.

It having been publicly stated a few years since that he was the first person to teach a grammar school in the town, Mr. Dennett wrote as follows;

I was not teacher of the first grammar school in Kittery. The town record has the following;

"May 18, 1761. Voted that one grammar school and one writing school be kept for three years successively in this town."

At a later date the Massachusetts law required every town containing a given number of inhabitants to keep a grammar school, and Kittery was subject to that law. A few natives of Kittery in the last century became college graduates, but they did not study English grammar; they applied Latin-grammar rules to the English language. Rev. Mr. Litchfield, who was a college graduate, informed me that he never studied English grammar.

So low was the standard of education in Kittery in the last century, that none thought of studying grammar in the town school. From the best information I could obtain, I could never learn that any one ever studied English grammar in the town school of Kittery prior to A. D. 1800, when in March, I began its study, and in September commenced the Latin grammar.

On Jan. 1, 1805, I commenced teaching the grammar school. At the first I had not a single pupil to study English grammar, but by encouraging some of the best scholars I soon had a class in it, and afterward commonly had a class at every term for about forty years.

In politics he was a democrat. His first vote for president was cast for Jefferson; and it is said he never missed voting after coming of age. He remembered the administrations of all the presidents, having been eleven years old when Washington's second term ended.

He was for seventy-five years a member of the Christian church of Kittery, and was the second person baptized in Spruce creek, the novelty of the ceremony drawing crowds of people from the surrounding country.

His funeral took place on the 3d inst., the public schools being closed as a mark of respect to one of the pioneer educators of the town; Elders Beck, Wilson and Payne took part in the services, which were largely attended.

He left three children, a son and two daughters, viz.: Alexander, who lives on the home place in Kittery, and is trial justice; Julia, wife of Joseph Langton of Kittery; and Alice, wife of Elder Burnham of Lowell, Mass.

POLICE COURT--BATCHELDER, J.

FRIDAY, May 4th.

John Crowley, drunk, fine $20, costs $6.90; jail in default of payment.

John Elliott, drunk, fined $10, costs $6.90; jail.

Luke Quinlan, Jr., drunk, allowed to go on probation.

GOSSIPS SAY

That the Reform club people have been considering the propriety of giving up the organization, owing to the smallness of their number.

That the starting of another daily paper in Portsmouth is being seriously considered, and that if the scheme is carried out the new candidate for public favor will be conducted by a well-known editor, and issued in the afternoon.

That the democratic aldermen made an unmanly attempt last Thursday evening to pass a rule preventing the employment of a colored boy on the streets, which failed through the united opposition of the republicans present.

That the colored boy referred to is the oldest of a family of five children, and the chief support of the family.

That several cottages will be built in the vicinity of Pocahontas point before the season closes.

That two carloads of plank for the city arrived from Epping on Friday.

That the elms and maples about the city blossomed out six days later this year than last.

That a flock of about a hundred crow-blackbirds have been occupying some of the trees on Sagamore road below the cemetery for the past ten days, making the woods resound with their constant chatter.

THE RETURN OF THE SONS.

The general committee held their regular meeting on the evening of the 4th inst., in the common council room, Col. Sise in the chair. Chairmen Samuel Dodge, of the committee on music, and Arthur W. Walker, of the regatta committee, reported progress. Alderman Stavers was chosen chairman of the committee on finance; and the meeting adjourned to Wednesday evening, the 9th inst.

Dr. John W. Parsons has been chosen chief marshal for Memorial day.

The receipts of internal revenue in this district last month were $35,005.56, against $32,140.96 in April, 1882.

Mr. Plumer D. Norton advertises for sale his pleasure boat—well known to all river rangers as a good one.

The British schooners Mary E., Ocean Gem and Cordelia Vogler arrived at this port on the 4th inst. from Bridgewater, N. S., with ties to the Eastern railroad.

Mr. Samuel Ray, who was landlord of the old Bell tavern in this place many years ago, is now in the city on a visit to friends here.

A salmon weighing twenty-one pounds was captured in the Harding weir at the mouth of the harbor on Friday morning last.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or children imparted by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 130 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE: OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. Their worthy what ever than the married or single, either require or wish to know but what is fully explained.—(London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick with liver, or kidney or liver troubles, or dyspepsia, while it is the truth, more frequently than not, the heart. The renowned Dr. Cheshire, of Philadelphia, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about twenty-ounces, and yet in 24 hours twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This known as Dr. Graves' Heart Regulator and can be obtained at our druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' Pamphlet and testimonial treatise. (1)

HEART TROUBLES

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND.

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of humor from the Blood, and give tone and strength to the system, of man, woman or child. Infer on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Patrick J. Sheridan and John Walsh, indicted for murder by the grand jury in Dublin, Ireland, were seen in New York on the 4th inst., and said they had no fear of arrest even.

Dr. E. F. Fuller, Keokuk, Iowa, says: "I have used Brown's Iron Bitters in my own family with excellent results.

The indictment for murder of Sheridan and Walsh by the Dublin grand jury, will reopen the question of extradition. It has been understood that the charge was conspiracy, which is not extraditable under our treaty. If England can prove murder, she can have the men; otherwise probably not. Walsh has already been in the custody of the French police on England's requisition, but the evidence was not considered sufficient. There does not appear to be any stronger ground for a case against Sheridan than against Walsh.

Mr. William Knights, Great Falls, N. H., says he received decided benefit from using Brown's Iron Bitters.

The Bad and Worthless

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. WHEAT BITTERS. THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat Germ, most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the tissues which bear the strain of every day work and thought, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by formulas (too but by solution and are richest in the Phosphates, while the starch and impurities are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Wheatine is doubly effective when used with food, so as to nourish while it corrects.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

A cargo of "cheap" tea which arrived at New York last week from a port in Canada has been condemned by the customs examiners as being adulterated, and ordered to be re-exported, under the new law.

One Experience from Many.

I have been sick and miserable so long and caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, "Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.

The Special Senses have been termed the "Five Gateways of Knowledge," from the fact that they receive and transmit to the brain impressions regarding surrounding objects thru' their nerves. The nose, or organ of smell, is a double-chambered cavity, lined with a mucous membrane, over which is spread numerous nerve filaments, branches of the olfactory nerves, for the reception of odoriferous impressions. Catarrh soon destroys the sense of smell, causes inflammation of the membrane, rapidly becomes offensive and culminates by becoming chronic. Ely's Cream Balm cures catarrh, no matter how long it has existed. It is not a liquid or snuff. 50 cents.

Mary McGowan, a young and handsome member of a wealthy and respected family of Chicago, attempted suicide Wednesday night, May 2d, in the office of Charles Williams, a lawyer and politician of some note. It is said that Williams has been on intimate terms with her. Her life was saved with great difficulty.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan A. Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"It's a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan A. Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcloths, Scotch plaids and broaded ties.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of heal h. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good, until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I took it as a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my sure source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the kidneys and gives a clear, healthy, regulating tone to the system, strengthens and purifying the whole system."

He Had Two Balls In His Stomach,

He put them there because it was the fashion at his boarding-house. They were codfish balls. But the boarders found that putting too many codfish balls in their stomachs produced dyspepsia, especially when washed down with salt mackerel and tough steak. Had they not found Perry Davis's Pain killer cured dyspepsia, their boarding house fare would have killed them.

At North Haverhill, on the 25th ult., Mrs. Asa Bacon, nearly eighty years old, committed suicide by drowning in a small stream near her home.

Of Unvarying Excellence

Is the "G. O. Taylor Old Bourbon," bottled by Chester H. Graves & Sons. It is pleasant to speak of an article which has maintained so high a reputation for many years. Your Druggist or Grocer will supply you.

Rosa Avery, aged thirteen years, daughter of Jasper Avery of Plymouth, stuck a glove needle into her left side on Saturday morning, April 21st, and died on Sunday morning.

"Get up like a man, and take care of yourself." Get a bottle of Wheat Bitters, it will make a new man of you, no matter what your trouble may be. No such remedy was ever before offered to the public. $1.

Charles Berry of Madbury dug up a root which he supposed to be horse-radish. He and his wife ate of it at dinner, and were severely, though not fatally poisoned.

Rev. E. A. Spring, Coryeton, Iowa, says: "I used Brown's Iron Bitters for general ill-health and found it to be of great help to me."

Wm. Hurd of Dover has built a small house on wheels, in which he has all the arrangements for making various kinds of candy. The whole weighs 1340 pounds. He intends to travel with it for purposes of trade.

He was "Penny wise and pound foolish"—the man who got a cough, neglected it and was laid up for months, when he might have been speedily cured by using a bottle of Adamson's Botanic Cough Balsam.

Eight houses on Lebanon street, Hanover, with their outbuildings, were burned on the 5th inst.; loss estimated at $30,000. Prof. H. E. Parker was struck by a falling chimney, and injured so that it was supposed he could not recover.

We do not as a rule allow ourselves to use our editorial columns to speak of any remedy we advertise, but we feel warranted in saying a word of Hood's Sarsaparilla. Sarsaparilla has been known as a remedial agent for centuries, and is recognized by all schools of practice as a valuable blood purifier. It is put up in forms of almost infinite variety, but Messrs. Hood & Co. (Lowell, Mass.), who are thoroughly reliable pharmacists, have hit upon a remedy of unusual value. Certainly they have vouchers of cures which we know to be most extraordinary.

News and Notes.

About three o'clock last Friday morning the passenger depot at Natick, Mass., was broken into, and the ticket office entered and the safe blown up, demolishing everything in it and knocking several panes of glass from the front windows of the depot; the station agent says there is nothing missing. Two watchmen near by heard the explosion, and laid in wait for the robbers. In a short time one of the burglars returned, when both officers fired a shot at him, but he got away.

Henry Farrington of Boston, a seaman on board the ship Adam M. Simpson, was arrested on the 3d inst. for knocking overboard the second mate of the vessel as she was going down the Delaware river that day, the officer being drowned.

The Connecticut legislature adjurned *sine die* last week.

At Oswego, N. Y., Joshua Gifford, seventy-seven years old, has been found guilty of murdering his wife, and sentenced to be hung June 22d.

Dr. Holmes Offley Paulding, assistant surgeon, U. S. A., died at Fort Sidney, Neb., on Tuesday, May 1st. He was a son of Commander Leonard Paulding, U. S. N., a great-grandson of Paulding, one of the three captors of Andre, and a grand-nephew of Admiral Hiram Paulding, U. S. N. He was born in Washington, was about thirty-two years of age, and leaves a wife and two children.

Several private post-offices in New York were raided by the United States marshals last week, and the business is to be broken up in all the places where it exists. Letters were taken for city delivery at a cost of one cent each, thereby defrauding the government of the regular postage.

The Lowell, Mass., aldermen last Friday afternoon granted about 275 liquor licenses and reduced the fees to $200 for first class, $125 for second, third and fourth classes, and $50 for fourth class to druggists.

Daniel Cronan of Lawrence, Mass., a weaver, last Thursday night stabbed a boy named Hill with a pocket knife, inflicting a serious injury on the neck. Cronan was arrested and held to await the result of the injuries.

Ex-President Hayes has agreed to pay one-fourth the cost of a new Methodist church at Fremont, Ohio. He further has declared that he is willing to assume the church debt for five years without interest.

Ninety-three years ago the first Catholic church was built in New York city, St. Peter's in Barclay street. Now, not counting chapels, New York has 190 churches.

Elder Stratton, a Baptist preacher who recently died in Cincinnati, had married almost two thousand couples. He went to that city when it was a village of three hundred persons.

Mrs. Myra Clark Gaines, who has just obtained judgment against the city of New Orleans for nearly $2,000,000, is seventy-eight years old, and has been nearly all her life contesting for her rights.

Work has been begun on the Eads ship railway.

The Knights of Pythias of Kennebunk had a celebration on the 4th inst., which was attended by a large number of members of the order from other places, the delegations from Saco and Biddeford being accompanied by a band. The festivities consisted of a parade and clambake, with a band concert and ball in the evening.

Alexander Cameron, who was run over by the cars at the Exchange street depot of the Maine Central railroad in Bangor on Tuesday morning, May 1st, died Thursday from his injuries.

Leading a Funeral Procession.

A family friend tells a good story of the irrepressible youngest son of Attorney-General Sherman of Massachusetts. A very prominent democrat died in Lawrence, and being also a Mason in good standing, he had a public funeral into which the Masonic element largely entered, including the brass band to head the long procession; but they did not lead it, for in the van of all was "Rollo," aged four years, bearing on high a large republican campaign flag, as big as he could carry, with the names of "Garfield and Arthur" in immense letters inscribed upon it. He travelled in front of the procession the entire length of the city until it reached the church, when some emissary from his family, who had been informed of his evolutions, carried him home.

A Happy Man.

Michael Connolly Receives the $25,000 Drawn in The Louisiana State Lottery.

"What makes you feel so happy? inquired a *Press* reporter of Connolly, a well-known sporting gentleman, as they met near the American house this forenoon. Connolly's face was radiant with smiles.

"This was enough to make most anybody happy," replied Mr. Connolly, as he handed the reporter a letter from Hon. Samuel O. Gleason, cashier of the Manufacturers' National bank, conveying the information that the ticket held by Connolly, and which drew the $25,000 prize in the Louisiana State Lottery, had been cashed in New Orleans. "But that is not the best of it," continued Mr. Connolly, "I got my money yesterday, and it is now placed to my credit in the bank."

"You are, indeed, fortunate," the reporter remarked.

"Yes, it was a very lucky stroke," replied Connolly, "but at the same time it is one that is liable to happen to anybody who buys one of the Louisiana State Lottery Co.'s tickets. You fellows (meaning newspaper men) had an idea that it was all an advertisement for the business, but you see it was something entirely different. I would like one of those advertisements about once a year, and would pay big money for it."

"If it is not an impertinent question," said the reporter, "what do you propose to do with the money?"

"I have not made up my mind yet," replied Mr. Connolly, "but I shall either invest it in government bonds or in good mortgages."

"Have you invested much money in the purchase of lottery tickets?" the *Press* man inquired.

"Well, no. I can't say that I have," Mr. Connolly answered. "I occasionally purchased a ticket and shall continue doing so. I know the Louisiana State Lottery is a squarely conducted concern, and if I hold a winning ticket I know it will be reported and that I will get the money."

Then handing the reporter a fragrant Havana, Mr. Connolly went his way rejoicing.

Cashier Gleason subsequently told a *Press* reporter that Mr. Connolly had been paid the $25,000 less $62.50 expenses.—*Troy (N. Y.) Press, April 28.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodfjan8d

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE—

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated, that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood. For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration, and uterine disease and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness,** and **General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

Vegetine

IS THE BEST

SPRING MEDICINE.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of Hood's Sarsaparilla upon all humors and low conditions of the blood are seen by the cures effected. It the best BLOOD MEDICINE. Such has been the success of this article of home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes the blood, fires and enriches, and renovates, thereby restoring, purifying the whole system. Hood's Sarsaparilla purifies the blood. Hood's Sarsaparilla promotes digestion. Hood's Sarsaparilla cures biliousness. A peculiar point in Hood's Sarsaparilla is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

MEMORIAL EXERCISES.

Mr. Editor: Will you permit a war vet. to suggest that at the evening exercises on Memorial day it would be a gratification to the boys in blue if some army or navy veteran should be invited to preside in Music hall. Why cannot the gallant Gen. Marston, who led the famous Second N. H. Vols. from Portsmouth to the field, be invited to serve on that occasion? In case he is engaged elsewhere, we have Col. Wentworth in Kittery, Col. Young in Dover, Capt. Geo. W. Towle in Newcastle, Capt. John H. Hutchinson, Capt. Jos. Haven Thacher, whom the boys always respected and appreciated, and Capt. Wm. Pitt Moses, a man whom every soldier knows rendered great service. Indeed sir, the roll is long, and there is no need of being beholden to civilians to come to the front on that occasion, whether in or out of office. Let us have a man who "has seen service," is the wish of more than one

PRIVATE SOLDIER.

CHANGE OF BUOY.

The lighthouse board give notice that on or about the 1st of June next a bell buoy will be moored near Kitts rock, at the entrance to this harbor, relieving the whistling buoy, which will be removed. A year or two ago an automatic buoy which was moored off Newport, R. I., was removed in consequence of the remonstrances of the summer residents against its remaining, they being very much disturbed by its almost constant noise; the reason for removing the "Jersey bull," with whose bellowing we have become so familiar, is not stated, but the bell buoy is probably equally as serviceable for the summer months.

GOSSIPS SAY

That the steamer Swan, the north millpond agitator, has been put out of commission and out of the pond.

That a larger steamer, the Gypsy, is to take her place, and will pulverize the bottom of the pond in her stead.

That there is no public watering place in the central part of the city where a thirsty animal can get a drink, the pump on High street, and the drinking fountains, being dry enough to serve as powder magazines.

That there are several public places where human beings can get a drink, but they are not watering places.

That some of the planks laid by the city in the sidewalk of the north millbridge, near its westerly end, inside of two weeks, were not worth the cost of laying, being half rotten and full of holes and dangerous to public travel, and should be taken up and replaced by good sound stock.

That the memorial day committee on evening exercises have selected Mr. John H. Hutchinson for president of the evening.

FREIGHTS.

Among the charters for this port recently reported are a schooner from Port Johnson with coal at $1.20 a ton; a schooner of 222 tons from Elizabethport with coal at $1.25, and one at $1.30; from Perth Amboy, schooners with coal at $1.35 per ton; one schooner from Hoboken, coal at $1.15, to discharge at Dover (towage and discharging paid by consignee.)

The roller-skating bon-bon party at Franklin hall this evening is expected to be the best affair of the kind this season.

Alderman Caswell squarely denies that in bringing before the board at its last meeting the matter of hiring boys under the street department, he was aiming in particular at a colored boy, or at any other boy, personally; his object was solely to protect the city's interests; if boys can properly perform the duties of positions under the city government it is proper that they should be hired, but at boys' wages, that the city may reap the benefit; the paying of men's wages to boys is what he objects to, for if the work can be properly done by them men's pay is more than the work is worth, and if they cannot do it properly they should not be employed at all.

Dr. O. C. Gage of New York, who has for months past advertised himself in Portsmouth and other cities of this state as "The man so celebrated for his wonderful cures in New Hampshire," was arrested in Dover on Saturday on complaint of W. W. Webber, a medical student, on a charge of practising medicine without having obtained a license from some medical society organized under the laws of the state. The hearing was postponed for two weeks, Dr. Gage giving bonds for his appearance.

The Chase house, at the corner of Court and Washington streets, which was presented to the trustees of the Children's Home, is undergoing extensive repairs preparatory to its being occupied by the inmates of the Home.

Reports from the surrounding country are to the effect that rain, and plenty of it, is very badly needed.

Mr. George H. Dame, machinist on the U. S. S. Nipsic, left this city on Friday last for New York to join his vessel.

There are all kinds of rumors concerning the application for an injunction against the lease of the Eastern railroad to the Boston & Maine road. Indeed, if all the rumors, conjectures, opinions and statements that daily are heard should be published, it would so confound even the parties interested that it would be difficult for them to decide where they were likely to land. One of the Boston papers would have us believe that the whole matter pivoted upon the attitude of Frank Jones upon the question. If that is the case, all that can be asserted is that Mr. Jones will act as he believes is for the interest of Portsmouth, regardless of everything else in the contest.

The attorney general of the United States has given an opinion that the appointment of assistant engineers in the revenue marine service is vested in the president and not in the secretary of the treasury, and that such appointments are subject to confirmation by the senate. This decision has the effect of placing assistant engineers in the revenue service upon the same footing as commissioned officers in that service. In accordance with this opinion, the president has appointed Frank B. Randall of this city a first assistant engineer.

The several committees of the G. A. R. on Memorial day observances will meet at the common council room on Tuesday evening, May 8th, with the citizens' committee. PER ORDER COMMANDER.

The Boston & Albany railroad managers are to run a train to New York in six and a half hours. This train leaves Boston at nine o'clock A. M., reaching New York at 3:18 P. M. It would be of especial convenience to persons on the line of the Eastern railroad if this train had its time of departure a little later; as it is, it starts just five minutes before an express train from Dover, Portsmouth, and stations east of Ipswich reaches Boston. But this is a display of the usual wisdom of the Albany road. What is needed is a means of reaching the New York roads from the Eastern and the Boston & Maine by a spur going from Somerville to some station on the Albany beyond Boston, which would permit close connections with trains to New York, so that no time need be wasted as now in Boston. That might make Boston a way station as to through travel, as is the case with New York, Philadelphia, Baltimore and Chicago. In might be a source of humility to the residents of Beacon hill and the proprietors of the Herdics, but it would be of vast convenience and appreciable comfort to the many who journey east of the seat of the Tewksbury investigation.

Capt. Joseph Haley, of the schooner Storm King, will go to the Appledore house on the 1st of June.

Mr. Elvin Newton went to "Lunging" island, Isles of Shoals, last week, for the summer, and will conduct the fishing, fish buying and fish curing business at that island this year, as for several years past.

Three Indian women, one of them about eighty years old, have lived all winter in the woods at Newmarket junction, in a canvas tent boarded up on one side; persons residing near have aided them with food. A few days since a man and two children arrived, and the basket-making industry will now flourish. One of the children will attend school at the village.

The house and barn of Mrs. Robert Francis, in Durham, were burned on the night of the 4th inst., with their contents, including one cow. Loss over $1000; no insurance.

Hon. William G. Perry, of Manchester, the present owner of the Ballard place in Hampton, has made several improvements to the house, which is on the old stage road, near the Eastern railroad station, and is one of the best locations between Newburyport and Portsmouth. Mr. Perry has shown good taste in adding a piazza to the northerly side of the house, and the people of Hampton congratulate themselves upon the addition of a gentleman like the senator to their population.

The mansion house of the late John L. Lawrence, at Kittery Point, is advertised to let for the season, or for a term of years.

A sack of stockings, lost from a wagon on Saturday last, somewhere between Water street and the town of York, is advertised in another column.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 20th, 1883:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of *Ice* brought and placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrows, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be proceeded against in consonance with section 6, chapter 17 of the Ordinances.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt the boldness of these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cts. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. Ther possibly what seems to be the marvels of antiquity either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Authority.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully and justly styled the "Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headache, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of *either sex* this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinham's Liver Pills," says the writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

The Laconia Senatorial District.

Discussing the question of filling the vacancy in the state senate caused by the death of the candidate chosen at the last election, the *Monitor* says:

The death of Daniel S. Dinsmore, republican senator-elect from the Laconia district, leaves Jonathan M. Taylor (democrat) and David Shaw (republican) the constitutional candidates, one of whom will be chosen by the legislature on joint ballot to fill the vacancy. An examination of the record shows that at the last election the towns comprising that senatorial district gave Samuel W. Hale (republican candidate for governor) 1,784 votes; M. V. B. Edgerly (democrat,) 2,106; with 29 scattering; while for senator, Daniel S. Dinsmore (republican) had 2,338; Jonathan M. Taylor (democrat,) 1,549; David Shaw (republican,) 4; and 4 scattering. From the above figures it appears that in a district which gave the democratic candidate for governor a plurality of 312 votes, the democratic candidate for state senator was literally buried up, his republican opponent being elected by a plurality of 789!

We revert to this subject for the reason that we have heard it intimated that some republicans will advocate the election of Mr. Taylor by the legislature, on the ground that he received more votes than Mr. Shaw, but before giving their influence or votes in that direction all such should reflect that Mr. Taylor was overwhelmingly repudiated by the district, nearly 600 democrats having voted against him, and hence cannot be regarded as a proper person to thrust upon the people, by whom he was once so signifi-cantly rejected. It is true that Mr. Shaw received but a few votes, but it is also true that his political convictions are in accord with those of the gentleman who was elected, but who has since died, consequently Mr. Shaw's election by the legislature would be practically carrying out the wishes of the voters as expressed at the ballot-box. It must also be borne in mind that the state constitution provides that in the event of death or resignation of a senator, the two next highest candidates are constitutionally eligible, and the vacancy must be filled by the election of one of them. Thus it appears that Mr. Shaw is as properly a candidate as Mr. Taylor, and the only question for the republican members of the legislature to decide, is whether they will take a democrat who was repudiated by his district, or a republican who represents the political views and principles of the gentleman whose death created the necessity for action on the part of the legislature. To our mind the duty of the legislature is plain, and we trust to see Mr. Shaw made senator by republican votes.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with cautiously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. "Threw away her Supporter."

Dr. Pierce:—A neighbor of ours was suffering from "female weakness" which the doctors told her could not be cured without a supporter. After considerable persuasion my wife induced her to try your "Favorite Prescription." After using one bottle she threw away her supporter and did a large washing, which she had not done in two years before.

One Experience from Many.

I have been sick and miserable so long and caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, "Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.

Chief Wade, of the Massachusetts state police, was twice shot on Monday while in his office in Boston, by a crank named Richard Brennan. One bullet inflicted a slight wound on the right shoulder, and the other made a serious wound in the left arm.

Dr. C. W. Benson's Celery and Chamomile Pills, are prepared expressly to cure and will cure headache of all kinds, neuralgia, nervousness and dyspepsia. Proved and endorsed by physicians.

The nerves of the human body have been called so many strings, in the make up of that mighty mechanism. Excessive tension or relaxation of these cords is always followed by ill effects. Dr. Graves' Heart Regulator cures all forms of nervous prostration, sleeplessness, and heart disease in every stage.

The prohibition law went into effect in Anniston, Ala., last Saturday night, and a large crowd of whites and blacks celebrated the event by a drunken riot in the Dead Line saloon. Joseph Caloway was killed, and about twenty other persons badly wounded.

Think, ladies! You can permanently beautify your complexion with Glenn's Sulphur Soap.

Hill's Hair and Whisker Dye, 50 cts.

The weak, worn and dyspeptic should take Colden's Liquid Beef Tonic. *No other.*

In Bridgeport, Conn., May 6th, a negro named Aaron Nichols had his throat cut by his son-in-law, William A. Stevens. Nichols was quite drunk, and turned his wife out of doors; she sought shelter with her daughter, Mrs. Stevens, and Nichols resented this, resulting in his death.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Advices from Tombstone, Arizona, report an engagement in the Sierra Madre range early last week between the Mexican Gen. Torres and a band of renegade Indians, in which twenty-seven bucks were killed and thirty-six captured. Another account says the soldiers were commanded by Col. Parks, and it is thought the hostiles have been driven out of their haunts by Gen. Crook.

A Druggist Sa s.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did not help them. They cured me of those terrible sick headaches when every other remedy failed.

Thomas Thorpe, who was temporarily in charge of a lifting machine, valued at $75, belonging to James Russell, on Friday last, in Boston, stole the machine and left by boat for Bangor, Me. He was arrested on his arrival at the latter place, and was returned to Boston on Saturday. The property was recovered. Russell is a crippled veteran of the war.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

Accounts have been received from Tabreez, Persia, reporting that the city has been visited by an earthquake which destroyed a great many houses and caused the death of a large number of persons.

A sick officer out at Fort Scott,

In Gettysburg, Pa., on the 5th inst., the jury in the case of John Coyle, Jr., on trial for the murder of Miss Emily Myers in York county in 1881, returned a verdict of guilty of murder in the first degree.

Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong? If you continue feeling miserable and good for nothing you have only yourself to blame for Brown's Iron Bitters will surely cure you. Iron and cinchona are its principal ingredients. It is a certain cure for dyspepsia, indigestion, malaria, weakness, kidney, lung and heart affections. Try it if you desire to be healthy, robust and strong, and experience its remarkable curative qualities.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of heal h. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, for should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the liver, organs in a clear manner, regulating their action, strengthening and purifying the whole system."

He Had Two Balls In His Stomach,

He put them there because it was the fashion at his boarding-house. They were codfish balls. But the boarders found that putting too many codfish balls in their stomachs produced dyspepsia, especially when washed down with salt mackerel and tough steak. Had they not found Perry Davis's Pain killer cured dyspepsia, their boarding house fare would have killed them.

Rev. Josiah Henson, the Uncle Tom of Mrs. Harriet Beecher Stowe's "Uncle Tom's Cabin," died at Dresden, Ont., Saturday, May 5th.

Rev. E. A. Spring, Corycton, Iowa, says: "I used Brown's Iron Bitters for general ill-health and found it to be of great help to me."

The English people are disturbed and chagrined by the royal announcement that the queen will go to Balmoral in June, and personally dedicate the cairn she had ordered to be erected there in the grounds of the castle in memory of John Brown.

We do not as a rule allow ourselves to use our editorial columns to speak of any remedy we advertise, but we feel warranted in saying a word of Hood's Sarsaparilla. Sarsaparilla has been known as a remedial agent for centuries, and is recognized by all schools of practice as a valuable blood purifier. It is put up in forms of almost infinite variety, but Messrs. Hood & Co. (Lowell, Mass.), who are thoroughly reliable pharmacists, have hit upon a remedy of unusual value. Certainly they have vouchers of cures which we know to be most extraordinary.

Portsmouth Chronicle.

TUESDAY, MAY 8, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

One Reason Why.

It is stated that some of the Boston jobbers of dry goods have recently repeated the complaint of some of their customers, or rather their excuse for not paying their bills, that excursion trains to Boston had so reduced the amount of their sales that they were in danger of being obliged to go out of business. The matter was thoroughly canvassed by the mercantile agencies, and it was found that the greatest patronage extended to Jordan, Marsh & Co. on cheap-railroad-train days came from places where local dealers fail to advertise their goods.

The reports of the standing and credit of country merchants, we are told by a salesman for a New York house, is based upon many features besides mere ability to pay for goods. It is founded on habits, character and snap, whether the man keeps up with the times, and always whether he advertises liberally or hoards his old stock.

The Boston offices report that from places where local dealers sell as cheap as the Boston stores can afford, and at the same time properly inform their customers as to wares and prices, there is no complaint. A local dealer in a city on the line of the Eastern railroad on looking over Jordan, Marsh & Co.'s advertisement recently, asserted that he sold some of the same goods at the same rate as advertised in Boston. "True for you," said a bystander; "but how are folks to know it? You have never advertised the fact." The merchant pondered these things in his heart.

The Carlton Murder.

A few days after the murder of Mrs. Carlton at Watertown, Mass., it was stated that a man was seen upon a train on the Maine Central railroad acting in a suspicious manner. He said that he had been working near Boston, that he had been in trouble with his landlady and had assaulted her, and that the officers were after him. He took the next express for St. John, and was recognized on the train as Roger Amero, a French Canadian, from Digby, Nova Scotia. He left the train at Bangor, but was subsequently seen on the steamer from St. John to Digby. This, with several other circumstances, led the detectives in charge of the case to cause his arrest last week, and he is now held in Digby until his whereabouts at the time of the murder can be ascertained. The detectives think they have got a strong case, but some persons doubt it.

—They tell of a boy in the south whose feet are so hot that they will heat a bucket of water in ten minutes. He is probably a son of the man who can make a tub of water boil by merely inserting his nose in it. Both cases are remarkable.

—"Say, Mrs. Bunson," said a little girl to a lady visitor, "do you belong to a brass band?" "No, my dear." "I thought you did." "Why did you, my child?" "Because, mamma said you was always blowing your horn, and I thought you must belong to the band."

The lobster smack Addie & Hattie arrived from the eastward on Saturday with about 5000 lobsters.

The steamer Three Brothers on Monday last towed to Exeter the gondola Alice, Capt. Fernald, with a cargo of coal for the Exeter Manufacturing Co.

The lobster business in "Bridgetown," Kittery, has commenced in earnest; the principal firms engaged in it are Blake & Blake, Whitham & Torpin, Amee & Blake, and Amee & Co. It is said that the lobster buoys are so numerous that were they a little larger one could walk on them from Kittery Point to Brave Boat harbor, but we do not believe this.

Mr. George Patch, owner of the Centennial house and grounds at Sea point, Gerrish's island, Kittery, last summer put up a notice bidding the public welcome to the point. Now he has two notices up, each of them large enough for the bulls-eye of a Creedmoor target, visible with the naked eye 1000 yards, forbidding anyone from setting foot on the point. He says a man may as well be out of the world as out of the fashion.

A very fine sheep belonging to Mrs. Mary Ann Hill of Kittery was killed by a dog on the night of the 1st inst.

Secretary Chandler arrived at Concord on Sunday from Washington, being called home by dangerous illness of his mother.

Let It Alone.

"No, liquor won't hurt you, if you let it alone," said one man, with a sneer, to another who was making a strong fight to have it kept out of town by law. "You needn't meddle with it. If others take it, that is their lookout."

"But liquor does hurt thousands who let it alone, who hate it utterly, and never set foot in a saloon."

"I should like your evidence," said the other, a little puzzled.

"Just step around the corner into Mrs. Watson's house—a pretty little house, but it will not be hers much longer. The rumseller has it in his grip; I hear she must move out this week. Watson is working on his new veranda, which is to run around three sides of the tavern, to pay up another liquor bill, while his wife and children are starving. They never touch liquor, but it has hurt them. I can pick out twenty families in this place where it has done its mischief, more or less, and it is so the world over. Every man that drinks involves others with him. Those that let it alone have to suffer. Probably five sufferers to each drunkard would be stating it very low. Now, I mean to work hard, and fight hard, if need be, for whose who have no helper; and if the law can be made to help them, well and good."

Our boys are to be our future lawmakers. Let them be well established in temperance principles. Let them look on a liquor license just as they would on a license to commit any sort of crime. All these, and far more, are included in every permit to sell rum.—*The Presbyterian.*

A Death Blow.

"I cannot agree with my neighbor," said a citizen, as he consulted a lawyer the other day.

"Build a fence fourteen feet high between you," promptly returned the lawyer.

"Yes, but it would shut out all my light."

"Can't you raise your roof so as to make his chimneys smoke?"

"I'm afraid my foundations wouldn't stand it."

"Keep your piano going."

"I do, but he has an organ."

"Set the police after him for his ashheaps."

"I have too many of my own."

"Let's see—let's see!" mused the puzzled lawyer. "Say, suggest to some of his friends to get up a surprise party on him!"

"By George, I'll do it! That's just the checker! I'll have the thing fixed this very week! Here's your $5, and I'm much obliged besides. Revenge is mine at last!"

—A lecturer, discoursing on the subject of "Health," inquired: "What use can a man make of his time while waiting for a doctor?" Before he could begin his answer to his own inquiry, some one in the audience cried out: "He can make his will."

—Mrs. Daly of Jersey City, getting tired of being kicked around the floor by her husband, gave him a tap on the head with a poker, covered him with blood, and showed him the usual state of the case. If a mouse hadn't come out to look at the rumpus, and scared her off, she probably would have killed him.

PURE BLOOD IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of Hood's Sarsaparilla upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's Sarsaparilla purifies the blood. Hood's Sarsaparilla cures dyspepsia. Hood's Sarsaparilla cures biliousness. A peculiar point in Hood's Sarsaparilla is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. Allen has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. Allen's World's Hair Restorer.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. Allen's World's Hair Restorer. It is not a dye.

THE EASTERN R. R. IN N. H. LEASE.

The Eastern railroad in New Hampshire will, it is said, oppose the lease. Why? Simply because they are not satisfied with their own deliberately made, signed, sealed and delivered contract with the Eastern in Massachusetts. They agreed upon four or 4 1-2 per cent for a long term of years, and now they want to jump out of that contract because they think they ought to have 1 1-2 or two per cent more than agreed. What kind of a way is this to do business? Those men ought to be ashamed of themselves, acting in this boyish way.—*Foster's Democrat.*

The conundrum proposed by the conservator of public morals and champion of business integrity up the river, might be answered and the rebuke perhaps deserved if the announcement was not moderated or qualified by the proviso "It is said." Who says so? Certainly no one who attended the meeting held last week. The principal speaker was Hon. Francis Thompson of Boston, and neither he, nor Treasurer Abbott nor Col. Hackett in their remarks hinted even that the Eastern in New Hampshire would oppose the lease.

It was suggested, that as the subject of the lease had an important relation to the interest of the property, a vote should be passed giving the directors some power to act in relation thereto; but the attitude of the corporation upon the subject was not ascertained either by vote or even expression of opinion of its leading shareholders.

Now a word as to the figures. When the Eastern in N. H. found some years since that it had a valuable property, free from debt, which the Eastern R. R. Co. used to a great advantage, and was paid no rental, it was deemed expedient to take proper steps to have some recompense for the use of their road. The managers of the Eastern, and its attorneys, said that all the interest the Eastern could pay on its bonds was 4 1-2 per cent, and that the rental of this piece of road should be at that rate, with a longer road than the Portsmouth & Dover, and with far less capital stock, while the latter and the Wolfeboro' were to be paid six per cent. It was suggested that when the E. R. R. could and should pay six per cent interest on its bonds, this rental also ought and would be increased to equal six per cent on the capital. The Eastern in N. H. is 15.84 miles in length, with no expensive bridge, and has a capital of $492,000. The Portsmouth & Dover is 10.88 miles long, with a capital of $769,000. The Eastern pays a rental of $22,500 for the use of the Eastern R. R. in N. H., with its splendid local traffic and its opportunity to connect with the P. S. & P. and P., G. F. & C. railroads—indeed with its entire means of outlet and supply for business east of the Massachusetts state line. The rent paid for the Portsmouth & Dover is $46,140, and for the Wolfeboro' $23,130, annually. The men who consented to the figures of the lease of the Eastern in N. H. were new holders of the shares of the company; perhaps they had purchased a part of their interest at figures depressed by the low price of the Eastern. It was a question whether to take the price the Eastern offered, to run the road independently, or to seek a connection with the Boston & Maine road by building a line from Seabrook to the B. & M track, and a new lease. But the Fabyan policy prevailed, induced by the promise that when better days should come the rent should be advanced.

If the Eastern in N. H. is to become a part of a great whole; if when one line is to be operated under one management, between Bangor and Boston, the Eastern in N. H. is needed as an integral part of the make up; if the proposed lessees think that in duty and honor the Eastern in N. H. is paid far less for its rental than the property is worth; if a large price is now offered for the stock in the belief that it has a high value for several reasons,—is there anything which should prevent the stockholders from receiving all that the lines or their proposed assigns are willing to pay in the premises? If so, let us hear from our friend Foster the whys and wherefores in detail.

POLICE COURT--BATCHELDER, J.

MONDAY, May 7th.

Albert W. Ham was brought before the court for drunkenness, and was sent to the county farm for ninety days, costs being taxed at $6.90.

CIRCUIT COURT OF THE UNITED STATES.

May Term—Lowell J.

The May term of the Circuit Court of the United States begins its session in this city to-day.

Grand jurors have been summoned as follows: William Ayer, Hampstead; Clarence E. Cilley, Kingston; Ira Holmes, Antrim; John C. Dodge, Barrington; Chas. A. Vose, Henry W. Spaulding, Francestown; Addison C. Ware, Hancock; Charles F. Peavey, Greenfield; Henry L. Woodward, Haverhill; Nathaniel S. Calley, Holderness; Chas. M. McCoy, Littleton; Alson S. Little, Lisbon; D. F. Hall, Geo. M. Stevens, Rumney; Roger N. Lambert, Ezekiel Martin, Lyme; Asa S. Rhoades, James M. Seaward, Orford; Henry C. Dodge, Mont Vernon; Henry L. Dodge, Webster.

APPROVES THE IDEA.

Mr. Editor: Will you allow me the privilege of the columns of your paper to thank Alderman Caswell for his efforts to put a stop to the practice of allowing boys to drive teams, employed to haul gravel for the city in small carts. Good sized carts driven by men capable of shovelling the load can be found, whenever wanted. This practice has long been allowed, and it is time it was stopped; and I am glad Alderman Caswell has the stamina to attempt to put an end to this wrong. If he had been chosen mayor it would seem that he would not have been run by the street committee's chairman, but would have had some mind of his own.

A DEMOCRATIC TAX-PAYER.

GOSSIPS SAY

That the procession Memorial day this year will not enter the cemetery, as has been the custom heretofore, owing to the overrunning of the lots by the people crowding to witness the ceremonies, occasioning great injury thereby.

That the procession will form *en masse* at the junction of South and Sagamore roads, and details to decorate the graves will be sent from that point.

That a handsome sloop yacht from the eastward arrived in this harbor Sunday evening, and anchored behind Clark's island.

That Mr. James Miller's new boat, the "Success," made a trial trip on the 6th inst., several gentlemen of this city being on board as invited guests, the boat behaving admirably in light and heavy winds, and being pronounced a "Success" in every particular.

That the sunset on Sunday last was the most magnificent for many months.

LOOKS LIKE BUSINESS.

Work was commenced last week on the York harbor landing of the Portsmouth & York Beach Steamboat Co.'s boat; it is to be located on the ocean side of the Marshall house property, thus obviating the necessity of the steamer entering the harbor, and will be built on the same plan as the one at Concordville—a truss pier extending out to where the water is of sufficient depth, and connected by a brow with a floating stage.

The stages intended for use at the two landings were towed to Kittery on the 7th inst. by the tug Clara Batemen, and hauled out on the marine railway to be calked.

THE N. H. S. P. C. A.

Thomas E. O. Marvin, president, and Dr. James R. May, secretary of the New Hampshire Society for the Prevention of Cruelty to Animals, visited the High school Monday forenoon and invited the students to compete for two gold medals, offered by Miss E. H. Pearson and Miss Hope Goodwin, for the best two essays, one by a young lady and the other by a young gentleman student, on the subject of "Kindness to Animals." The prizes will be awarded to the fortunate essayists on the annual commencement day of the school in July.—*Times.*

Judge Lowell, of the Circuit court of the United States, arrived on Monday evening, and has rooms at the Rockingham.

Frank Mayo will play "Davy Crockett" at Music hall on Saturday evening next.

The building known as the Pound tavern, formerly kept by Asa Watson, has been raised and is being extensively repaired, as has been done to the house next east of this building. These houses are owned by Mr. James Douglass. Moses Yeaton, Esq., is doing the carpenter work.

The Boston *Post* of the 7th, in an article on yachts and yachting, says: "The keel sloop yacht 'Grace M.,' that was launched from Hutchings & Pryor's wharf, is now at Charlestown. She is having some alterations in her rig, her mast has been given more rake aft, and she will have two jibs, cutter style. She is enrolled in the Bunker Hill Yacht Club. F. L. Felton has bought of Hutchings & Pryor the steamer built by them last fall. She will be called 'Nerrita,' and will be enrolled in the Hull Yacht club. Her dimensions are 40ft. 8in. over all; on water line, 36ft.; draught, 4ft.; beam, 9ft." The gentlemen named are both well known here, Mr. Hutchings being a native of Kittery, and Mr. Pryor a former resident of this city.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.3 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 20th, 1882:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of *d bris* placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be proceeded against in consonance with section 6, chapter 17 of the Ordinances.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

156th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25, by mail, postpaid, on receipt of price. Illustrated sample six cts. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

It is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents have yet to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, so highly are she the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil, as some have ignorantly investigated it and are satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says "It works like a charm, and gives much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by the use of this old Female Medicine, and under all circumstances, acts in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her Lynn in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says the writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others

Quite a sensation occurred in Montreal, last Saturday, by Premier Mousseau of the Quebec cabinet having to resign his seat for the county of Jacques Cartier, for bribery and corruption of voters at his last election. The affair has caused great political scandal, although it is far from being a novelty there.

A despatch from Victoria, B. C., with news in relation to the burning of the steamer Grappler, increases the extent of the calamity. At least seventy lives were lost. Only two bodies have been recovered. The survivors give harrowing accounts of the disaster.

Miss May L. Self and her sister, Mrs. Fannie J. Waters, formerly of Boston, were driving through Central park, New York, Friday, when the horse became frightened and ran away. Miss Self threw herself from the coach, struck on her head and broke her neck. She died in a few minutes. Mrs. Waters was not injured.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

George A. Crowley tried the experiment of blowing out the gas in his room at the Hampden house, Boston, Friday night. He was unconscious when discovered, but came to soon after. He thought it worked like a candle."

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

In a quarrel over some trivial matter, at Long Island City, Saturday night, Patrick Flynn, aged sixty years, killed his son William, aged thirty-two, with an axe.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

Moody and Sankey arrived in New York by the steamer Alaska, last Sunday, from Europe. Sunday night Mr. Sankey sang in the Cooper union temperance meeting. The evangelists state that they have come home for brief rest, and will return to their labors in October next.

Unable To Tell.

Yes, that was so. For years I suffered severely with scrofula; sores broke out all over my body and I am unable to tell one half I suffered. I was not able to obtain relief until I used Sulphur Bitters, which completely cured me.—C. B. Dale, 17 Allston street, Boston.

A despatch from Hermosillo, Mex., says: "An engagement took place Friday at Suequaec canon, 163 miles southeast of here, between the Apaches and the federal troops, resulting in the defeat of the Indians, who sustained a loss of twelve killed and wounded. Three of the troops were killed, and five wounded. The fight lasted an hour and forty minutes.

Compare the dose and quantity of Hood's Sarsaparilla and you have conclusive proof of its superior strength and cheapness. Try it.

In Millbury, Mass., last Saturday, Frank Mann killed Mrs. Mary E. Moore and then himself. He was a widower with one child, and had been paying attentions to the woman, who was seeking a divorce from her husband. They quarrelled Friday, which led to the shooting.

House Cleaning is Easily, Quickly

and well done by using Fyle's Pearline; absolutely harmless to hands or fabric. Beware of imitations.

The United States steamer Enterprise was at Cape Town, South Africa, April 2d, and was to leave in a few days for the island of Madagascar.

—"My hands were covered with little dry scabs. They have disappeared and I'm better than I have been for 20 years, from using Dr. Benson's Skin Cure." A. M. Noble, Selma, N. C., July 3, '82.

The United States ships Kearsarge and Yantic arrived in Hampton roads on the 5th inst., from a cruise. The Vandalia dropped down to the roads from Norfolk, Va., in the afternoon.

Mr. C. W. Sturtevant, Hillsboro, N. H., says: "I received great benefit from using Brown's Iron Bitters as a tonic and for lack of iron in the blood.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many unprincipled nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

WHEAT BITTERS. THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerve are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by *fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These salts in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousands of cheap alcoholic bitters which are sold as cure-alls. Medicinally effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

A GOOD INVESTMENT.—One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

The shoe manufacturing business of Dover is to receive a fresh start, C. W. Clement having agreed to transfer his business to that city. The former Burt & Strong factory was bought by the Dover board of trade for $6,700, and $2,500 raised as a gift to any one who would come to Dover and run the shop under certain conditions, which conditions Mr. Clement has accepted. The *Democrat* says the guarantee is absolute that the pay roll of the business shall not be less than $2500 per week for five years, and expresses a confident hope that this movement will "open the way for the occupancy of the other vacant shops and factories."

One Experience from Many.

I have been sick and miserable so long and caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, "Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.

Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong? If you continue feeling miserable and good for nothing you have only yourself to blame for Brown's Iron Bitters will surely cure you. Iron and cinchona are its principal ingredients. It is a certain cure for dyspepsia, indigestion, malaria, weakness, kidney, lung and heart affections. Try it if you desire to be healthy, robust and strong, and experience. Its remarkable curative qualities.

—"A horse at Craigville took fright at a colored man playing a fiddle, and ran away and smashed a lamp-post." The animal evidently had a good ear for music, but why he didn't run away and smash the fiddler is the strangest part of the incident. The lamp-post was innocent.

"When a thing is once begun, it is almost half finished." If you, reader, have dyspepsia, constipation, biliousness, or any disorder arising from impure blood, begin taking Wheat Bitters. Your cure will be half finished, likely completed, by the first bottle.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotive of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, in interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plasters is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in more easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's Capcine ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Dyspepsia and Indigestion**, and all diseases that arise from impure blood, **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers and Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead and Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa**, arising from internal ulceration, and uterine diseases and **General Debility**, VEGETINE acts directly upon the causes of the complaint. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations, and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness, and General Prostration of the Nervous System**, no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the liver, stomach, bowels, and kidneys, regulating their action, strengthening and purifying the whole system."

He Had Two Balls in His Stomach,

He put them there because it was the fashion at his boarding-house. They were codfish balls. But the boarders found that putting too many codfish balls in their stomachs produced dyspepsia, especially when washed down with salt mackerel and tough steak. Had they not found Perry Davis's Pain killer cured dyspepsia, their boarding house fare would have killed them.

Miss Emily Clark, a dressmaker of Dover, was knocked downed and run over on the street, Monday, by a private team. She was very seriously if not fatally injured.

We do not as a rule allow ourselves to use our editorial columns to speak of any remedy we advertise, but we feel warranted in saying a word of Hood's Sarsaparilla. Sarsaparilla has been known as a remedial agent for centuries, and is recognized by all schools of practice as a valuable blood purifier. It is put up in forms of almost infinite variety, but Messrs. Hood & Co. (Lowell, Mass.), who are thoroughly reliable pharmacists, have hit upon a remedy of unusual value. Certainly they have vouchers of cures which we know to be most extraordinary.

The Carlton Murder.

The evidence against Amero is such that he will undoubtedly be extradited.

The man who recognized him on the Maine Central train was Mr. Frank W. Everett of Plympton, N. S., who spoke to him, but he refused to acknowledge his name, insisting that he was "Frank Bliss." When the train reached St. John, Amero disappeared, and Mr. Everett next saw him on the steamer from St. John for Digby, which is near the town of Plympton, where Mr. Everett resides. When the steamer neared the landing at Digby, and while yet several yards away, Amero sprang ashore and ran up the wharf; and a day or two later Amero's father called on Mr. Everett, told him that young Amero had not yet got home, and asked if he was not mistaken in thinking he had met him on the train and steamer; on Mr. Everett insisting that the man he saw was young Amero, the old man went away.

The day the steamer arrived at Digby, March 22d, (the murder was committed Sunday evening, March 18th,) Amero called on William Mumford, a farmer of Digby, and said he had run away from Massachusetts on account of having feloniously assaulted the wife of a man for whom he had worked, and the police were after him; and he was afraid that if he was caught he would be hung.

The evidence of Everett and Mumford is to the effect that Amero seemed terribly frightened about something. Amero's father says the same thing, and that it was at his son's entreaty that he called on Mr. Everett and reported that his son had not got home; the son took to the woods after getting home, with his father, and stayed there three days and three nights. The old man Amero was in Boston a day or two ago, being cook of a coasting vessel, and made an affidavit to the effect that his son hid his coat and vest, and washed his trousers and had them concealed in the woods. A significant extract from the affidavit is this:

He (Roger) said the place where he had the trouble with the woman was just back of Boston, and it was in a house about eight o'clock in the evening. I had heard that a woman had been murdered near Boston with a brick. I told Roger of it. He said that he never had a brick in his hand. I thought from Roger's actions and from what he had said that he had killed the woman whom I heard had been killed with a brick near Boston; after we came back from the woods and I had heard about the murder of a woman named Carlton, I told him I was afraid that he had something to do with the murder of this woman named Carlton; I spoke to him two or three times about the murder; he said that he never had a brick in his hand; this was all he said in answer to my questions about it.

Amero was at work, shortly before the murder, for Arthur Johnson of South Lincoln, Mass., and left there early in the week preceding the crime, leaving his trunk, which was delivered up on his order some time in April, to a man sent on from Digby by Amero. Neither Mr. Johnson nor his wife ever had any trouble with the man. The trunk was seized when Amero was arrested, and in it were found envelopes corresponding exactly with the one found beside the murdered woman; no such envelopes could be found in any store in Watertown or Boston, by the strictest search.

When Amero was arrested he was told he was wanted for a highway robbery committed near Boston; but a younger brother instantly asked the officers "Is it for murder?" and repeated the question several times. The prisoner, too, while on the way to the town of Digby, repeatedly asked "Am I arrested for murder?" and great drops of sweat fell from his forehead to the buffalo robe. In trying to explain where he was from the time he left Mr. Johnson's till he was seen on the train by Mr. Everett, (he now owns up that Mr. Everett did talk to him on the train and the steamer,) he told a long story about a visit to Gloucester, and being confined in a barn there by his cousins, which story is flatly denied by his cousins and others.

A photograph of Amero was taken at Digby after his arrest, and forwarded to Boston. This photograph, put in a package with nine others, was instantly picked out of the package by Detective McElhany as that of the man he talked with on the track of the Fitchburg railroad on the night of the murder. Mrs. Stowe and her daughter, of Mount Auburn station, were also separately shown the photographs, without either being aware that the other had seen or was to see them, and each without hesitation picked out Amero's picture as being that of the man who called at the station to purchase a ticket shortly after the murder—and this notwithstanding that his moustache, which he formerly wore, is now shaved off. The photograph has also been recognized by several persons as that of a man who was seen hanging around Casey's saloon on Cambridge street, Boston, where Mrs. Carlton's husband was bartender, three or four days previous to the murder.

Detective Wood, Mr. McElhaney and Mrs. Stowe left Boston for Digby on the 8th inst., to be present at Amero's examination on the 9th.

The Middlesex grand jury was in session on the 7th, hearing evidence in the case. The testimony of Amero's father was taken, and he was committed to jail for detention as a most important witness.

AROUND HOME.

The schooners Emma C. Cotton and Jane, from Port Johnson, the former with 568 tons and the latter with 212 tons of coal, and the Maria Theresa, from Boston with salt, arrived at this port last Tuesday forenoon, all to E. F. Sise & Co. A dozen or more vessels in all arrived on Tuesday, including two British schooners from the provinces, with ties to the Eastern railroad, two "bricks" from Boston, bound up river for cargoes, and three coal vessels from Hoboken, bound to Dover to discharge. The schooner Seth W. Smith, from Weehawken with 354 tons of coal to E. F. Sise & Co., arrived in the afternoon.

The brick schooner Emily A. Staples went up the river on Monday to load, and the Ocean Eagle went up Tuesday forenoon; the Satellite went up Tuesday afternoon, to load at Eliot.

The schooner Martie A. Holmes, with 888 tons of coal, and the Raymond T. Manill, with 779 tons, both from Philadelphia, arrived on Tuesday to J. Albert Walker.

A man said to belong in Boston fell overboard from one of the north end wharves on Tuesday afternoon, and was fished out by Melvin Gould and Edwin Heugh, employed on the steamer City of Portsmouth, near by.

At the Ocean Wave hotel, Rye beach, a large windmill has been erected for pumping water to supply the house.

Mr. John Conlon is having a cellar dug on a vacant lot of the "burned district" on Penhallow street, and will erect a stable thereon.

Three Nova Scotia schooners were discharging railroad ties at the Eastern railroad wharf on Noble's island, Tuesday.

Mrs. Temperance Spinney, of Hancock street, whose 92d birthday anniversary will occur on Friday next, the 11th inst., has forty-five grandchildren and great-grandchildren living. The old lady is still quite smart around the house, and bids fair to see other birthdays yet.

Tenney recently completed, from a miniature painted by Malbourne, one of the best-reputed portrait painters of Europe in the early part of this century, a life size picture of Gov. Cleborne of Louisiana, one of the earlier governors of that state. Mr. Tenney, while accurately preserving the likeness, succeeded in giving to the enlarged portrait a much more animated and life-like expression. The present owner of the miniature, Gen. Wm. C. C. Cleborne of New Orleans, is a grandson of the governor. Medical Inspector C. J. Cleborne, U. S. N., now attached to this navy yard, is a relative of the Louisana Clebornes, and on being requested to select an artist who would do justice to the work at once named Mr. Tenny, the result of course fully justifying the choice. The picture, which was highly commended by all the connoisseurs who saw it, has been sent to Louisiana.

Capt. W. F. Nason of Eliot came down from that town on Tuesday of this week with a raft of logs belonging to John H. Mathes, to be sawed at Mason's mill; he brought down a raft each day of last week, all bound for the same destination. There is a big lot of logs now in the vicinity of the mill, waiting to be cut up.

The bill in equity brought by Willard P. Phillips, one of the trustees of the Eastern railroad company, for an injunction to prevent the consolidation of the Eastern and Boston & Maine railroads, came up before Judge Holmes in the supreme court in Boston on Tuesday, on an order of notice to respondents to show cause why an injuction should not issue. By agreement of parties the matter was postponed until the 29th inst., when the pleadings will be completed and the case heard upon its merits.

At a meeting of the Rye Beach railroad corporation, held Monday, Emmons B. Philbrick, Frank A. Philbrick and David Jenness of Rye, Frank Jones of Portsmouth, and Albert Batchelder of North Hampton, were chosen a board of directors; G. H. Jenness of Rye was elected clerk. The directors subsequently elected Hon. Emmons B. Philbrick as president of the board.

The Story Without an End.

Again, its great monetary value seems almost monotonous. The 150th Grand Monthly Drawing of The Louisiana State Lottery at New Orleans, on April 16th, has this record: Ticket No. 52,867 drew the first grand prize of $75,000, of which Henry M. Kiessling, of No. 188 Dearborn st., Chicago, Ills., and A. Gartzler Tricot, Vermilionville, La., held each one-fifth. Ticket No. 72,092 won the capital of $25,000—collected in one whole lump by The Manufacturers' National Bank of Troy, for M. Connolly, of Troy, N. Y. Ticket No. 39,989 won the third capital, $10,000, and was sold in fifths—one to Edwin T. Eisenberg, Jr., (collected through The Central National Bank of Philadelphia;) another to H. H. Harper, of St. George's, Colleton Co., S. C.; another to Wm. H. Hampton, of Tracy City, Franklin Co., Tenn.; another to R. F. Kruger, No. 241 Fourth st., Milwaukee, Wis. The two fourth capital prizes of $5,000 each were sold to holders of tickets No. 38,507 and 26,502—two-fifths were sold to James R. Day, Malta Bend, Saline Co., Mo., and to parties in Fort Wayne, Ind., New Haven, Conn. For further information apply to M. A. Dauphin, New Orleans, La., before the next drawing on June 12th, when the grand capital prize will be $150,000.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of Hood's SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article in home practice that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes the blood, and enriches thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

CIRCUIT COURT OF THE UNITED STATES.

May Term—Lowell J.

TUESDAY, May 8th.

There was a large attendance of the bar at the opening of the court this morning, and the grand jury reported as follows: William Ayer, Hampstead; Clarence E. Cilley, Kingston; Ira Holmes, Antrim; John C. Dodge, Barrington; Chas. A. Vose, Henry W. Spaulding, Francestown; Addison C. Ware, Hancock; Charles F. Peavey, Greenfield; Henry L. Woodward, Haverhill; Nathaniel S. Calley, Holderness; Chas. M. McCoy, Littleton; Alson S. Little, Lisbon; D. F. Hall, Geo. M. Stevens, Rumney; Roger N. Lambert, Ezekiel Martin, Lyme; Asa S. Rhoades, James M. Learned, Orford; Henry C. Dodge, Mont Vernon; Henry L. Dodge, Webster. Charles F. Peavey, of Greenfield, was appointed foreman of the grand jury.

The call of the docket shew that there were no cases ready for trial. The Knibb's patent cause being not in condition for trial, by reason of the illness of Mr. J. C. Caverly of Dover, the trial was postponed to Friday, the 5th day of June, at eleven o'clock in the forenoon.

Geo. K. Kenrfiston of Strafford, arraigned at the October term on a charge of making false writings to enable him to obtain a pension, when he pleaded not guilty, retracted his former plea, and pleaded *nolo contendere*. He was sentenced to imprisonment in the jail at Concord for the term of ten months.

Frank H. Mason, indicted for selling liquor without paying the United States tax, was arraigned, pleaded not guilty, and was recognized for his appearance at the October term.

Arthur G. Whittemore, Esq., was on motion of Hon. James W. Emery admitted to practice as an attorney.

The court on Wednesday will take a recess until June 5th, when jury trials will be in order.

POLICE COURT--BATCHELDER, J.

TUESDAY, May 8th.

Dennis Harrington, for drunkenness, was fined $3, costs $6.90. He appealed, and gave bonds in the sum of $100 to prosecute the appeal.

MEMORIAL DAY.

The citizens' and G. A. R. committees met together in the common council room on Tuesday evening. The committees reported progress, and it was announced that the programme of evening exercises was nearly completed. Dr. John W. Parsons was chosen treasurer. A communication in the CHRONICLE of the 7th inst., relative to the choice of chairman for the evening exercises, was sharply criticised, members of the G. A. R. saying that the post wholly disapproved of it, so far as they were aware. Adjourned for one week.

JULY 4, 1883.

Special Notice. The general committee for the Reunion of the Sons this coming 4th of July will meet in the common council room this (Wednesday) evening at 7:30 o'clock; and they would request *all* citizens, whether in favor of or opposed to the reunion, to attend said meeting, and there freely express their opinions for or against it.

GOSSIPS SAY

That Editor Foster of the Dover *Democrat* was in this city on Tuesday.

That Mr. George A. Mudge and family have moved to Marston's island for the summer.

That the Cavalry "marched" to Dover on Tuesday, most of them in buggies.

That Dover is making frantic efforts to revive her shoe industry, and with good apparent prospect of success.

That thermometers stood at eighty-two degrees above zero in the shade at two o'clock on Tuesday afternoon, at various points throughout the city.

That several boys were in swimming near Mason's mill on the 8th inst, but reclothed themselves in short order when discovered by Asst. Marshal Cole.

SOME GUESSING AT RAILROAD SCHEMES.

The Concord correspondent of the Boston *Traveller* says a strong movement will be made at the coming session of the legislature for the passage of a general railroad law, similar to the one now existing in Massachusetts, and adds: "The Boston & Maine, Eastern and other connecting New Hampshire roads terminating in Boston, will not oppose this movement; and your correspondent has every reason to believe will actively favor it, and abandon all efforts for special legislation pertaining to consolidation. * * There is a hitch in the terms of the proposed consolidation of the central railroad lines in New Hampshire, and the prospect for their union is not very flattering, to say the least."

The Boston *Journal* fails to see how, even if the movement to prevent leasing of the Eastern to the Boston & Maine through an injunction is a successful one, as appears likely to be the result, that it can be injurious to either the stock or the bonds of the former road. From October to April the net earnings of the Eastern have increased more than $200,000 over the corresponding six months of the former years, and for the year the road will probably earn more than six per cent upon its stock, even after meeting its increased interest account. It is not surprising, therefore, that some of the large stockholders who voted for the lease are now desirous of seeing the lease defeated.

LETTER FROM THE SHOALS.

SMUTTYNOSE ISLAND, April 30th.

A skip of ten miles seaward, and our surroundings have undergone a radical change. From the quiet stroll around the quiet city, gathering food for the "gossips" or itemizing some local event, we find that in our present retreat the force of habit predominates, and we naturally look around to catch some passing object that may be of some interest to the reader. The first thing that attracted our attention on landing was to see the soil looking so bright with verdure, especially after leaving cultivated fields and meadows, which showed but slight indication of springing grass.

Smuttynose island has many attractions for the visitor, which we shall enumerate on some future day. It is said to take its name from the dark green—nearly black—rock weed which covers the eastern point, that projects far out into the sea. All of the houses on the island are occupied, and the spring fishing business has really commenced. Mr. Lemuel B. Caswell arrived with his help on Thursday, and on Saturday bought his first lot of fish.

The few fishermen who came here early in the spring did a wise thing, for instead of spending several weeks sailing east and west for bait, they have procured it by gathering mussels which are found in large quantities around the rocks, and have averaged making from forty to sixty dollars a month. The lobster business has been good, considering the cold and heavy weather which has prevailed this spring.

To get up at the break of day, jump into a dory and row for miles around the islands, often encountering the chance of upsetting when hauling the lobster pots, is no easy work; yet those who engage in this business are more hearty and robust than those who follow pursuits involving but little labor. Those who are at present engaged in it are, on Duck island, Mr. James Haley, with one hundred pots; on Star island, Mr. John Hall, (who has two assistants living on Smuttynose, Mr. Charles W. Robinson and Mr. J. Handy Robinson,) one hundred and twenty pots; Mr. Frank Hidden, fifty pots; on Appledore, Mr. Ingerbreton and Nelson, with one hundred pots; and on Cedar island Mr. Joseph Caswell, with fifty pots. In connection with this they trawl for fish during the day, and derive a fair income from it.

The herring have not struck in in large quantities, a few barrels only having been obtained in this vicinity. Last week on the Jeffreys they were seen in numbers, but kept outside and went westward.

The Appledore house is being painted a light green tint. The smoking room has been taken into the office, and an addition has been extended from the main building for a smoking room. Electric bells have recently been put in throughout the house, also connecting with the cottages. A new and very pretty cottage planned by Mr. Cedric Laighton was built last winter for Mr. Waters of Cincinnati. We should not forget the sketches and paintings by Mrs. Celia Thaxter which adorn the panels of the desk in the office, including views of Appledore, Star and White islands and a group of the islands, with an ink sketch of a yacht under full sail, and paintings of a pond lily in bloom and a cluster of wild roses. The rooms at Appledore are nearly all engaged, and everything points to a good season.

The Ocean house on Star island, being nearly new, will need but few changes. Mr. Jeremiah Stanton will be the manager this season; he is well known in this vicinity, having had charge of the Farragut house at Rye beach previous to its destruction by fire. He was on the island last week to complete arrangements for the opening.

The hotel on Smuttynose island, though not pretentious in appearance, has strong claims to favor as a summer resort. To persons wishing a quiet retreat at moderate cost, it affords all the requisites—good rooms and good beds, an abundant table, and all arranged in home-like style, with unlimited opportunity for sea-gazing, boating and fishing. G.

The steamer "City of Portsmouth" is being extensively improved; the promenade deck is being lengthened, the two lower cabins upholstered afresh, the upper cabin new seated and upholstered, new closets and wash rooms put in, new steering gear fitted, the boat painted from stem to stern, inside and out, and everything else needful done to put the steamer in the best possible condition. The work is being done by local mechanics, under the direction of Mr. R. B. Beaumont.

[*For other local matter see second page.*]

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom are awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. Their combining what ever that the married or single either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can give much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who showed (like human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purpose. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special complaints, and the name of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her Lynn, Mass., address.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity."

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidney, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

The dead body of Alden S. Page was found May 5th at the bottom of a 15-feet embankment in Providence, R. I. He probably drove off during the night, as his horse was found dead near by.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

On Sunday, May 6th, as Hosea Bartlett and wife of Lunenburg, Vt., were driving to church, Mrs. Bartlett was struck in the temple by a ball from a rifle which a boy was shooting in a field adjoining. The ball did not penetrate the skull, and was removed. The injury may not prove fatal.

The Special Senses have been termed the "Five Gateways of Knowledge," from the fact that they receive and transmit to the brain impressions regarding surrounding objects thro' their nerves. The nose, or organ of smell, is a double-chambered cavity, lined with a mucous membrane, over which is spread numerous nerve filaments, branches of the olfactory nerves, for the reception of odoriferous impressions. Catarrh soon destroys the sense of smell, causes inflammation of the membrane, rapidly becomes offensive and culminates by becoming chronic. Ely's Cream Balm cures catarrh, no matter how long it has existed. It is not a liquid or snuff. 50 cents.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it has been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

Ladies, who are subject to Headaches, should use SULPHUR BITTERS.

Mothers, who have sickly children, should give them SULPHUR BITTERS.

Sufferers, who have tried everything else without avail, should use SULPHUR BITTERS.

Dyspeptics, who are troubled with Sour Stomach, Wind on the Stomach, Palpitation of the Heart, Nervous Headache, Costiveness, Dizziness, Jaundice, Loss of Appetite, Nervous Prostration, Cold Feet, Cold Hands, Cold Sweats, Dry Cough, Night Sweats, Pain in the Side, Back and Limbs, Sudden Flushes of Heat, Burning in the Flesh, Dry Skin, Eruptions, Pimples, Blotches, Boils, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, Sore Nipples, Sore Breasts, Sore Legs, Sore Feet, Sore Throat, Sore Lungs, Sore Back, Sore Limbs, Sore Bones, Sore Joints, Sore Nose, Sore Mouth, Sore Lips, Sore Tongue, Sore Gums

He Had Two Balls in His Stomach,

He put them there because it was the fashion at his boarding-house. They were codfish balls. But the boarders found that putting too many codfish b.l's in their stomachs produced dyspepsia, especially when washed down with salt mackerel and tough steak. Had they not found Perry Davis's Pain killer cured dyspepsia, their boarding house fare would have killed them.

Miss Emily Clark of Dover, who was knocked down on the evening of the 7th inst. by a team, died the next day. The team was being driven to a fire, close behind a fire engine, and contained one of the board of engineers.

Of Unvarying Excellence

Is the "G. O. Taylor Old Bourbon," bottled by Chester H. Graves & Sons. It is pleasant to speak of an article which has maintained so high a reputation for many years. Your Druggist or Grocer will supply you.

Michael Winn was found guilty of manslaughter in the first degree by the jury at Nashua, on the 7th inst., for killing his wife, and was sentenced to twenty years in state prison.

Rev. E. A. Spring, Corycton, Iowa, says: "I used Brown's Iron Bitters for general ill-health and found it to be of great help to me."

The New York *Sun* says: The anxiety of the supreme court to get as far away from Washington as possible during the summer recess is noteworthy Chief Justice Waite and Justice Gray will go to Montana; Justice Miller to Puget sound; Justice Field to Japan. The other justices do not seem to have found out yet how far they can journey, but it would hardly be strange to find them trying to reach Patagonia or Bombay.

We do not as a rule allow ourselves to use our editorial columns to speak of any remedy we advertise, but we feel warranted in saying a word of Hood's Sarsaparilla. Sarsaparilla has been known as a remedial agent for centuries, and is recognized by all schools of practice as a valuable blood purifier. It is put up in forms of almost infinite variety, but Messrs. Hood & Co. (Lowell, Mass.), who are thoroughly reliable pharmacists, have hit upon a remedy of unusual value. Certainly they have vouchers of cures which we know to be most extraordinary.

Civil Service Reform.

If there is any particular subject upon which the great mass of both democrats and republicans are in accord, it is the present civil service plan. Certain men who are not willing to take their chances in obtaining office by aiding one or the other of the political organizations, have appealed to certain well-bred gentlemen to aid them in giving respectability to official service by making it permanent, and have even succeeded in convincing Congress that the experiment should be tried.

Of course, every one of these men knows that without the incentive of the expectation of office and the incidents thereto, all elections must be without interest, and the control of city, state and general government would at once pass into the hands of irresponsible and designing men. But the reformers wished to make a test. The hobby must be tried, and the folly of the thing be seen, as well as predicted.

Mr. Eaton, the father of the project, has at length had the gratification of seeing a respectable and honest man placed in an important position, with a good salary, but without the modicum of *savoir faire* which is requisite to possess for the sustaining of one in a position of this nature. In fine, Mr. Eaton will not convince the country that any such machine as he has invented was ever needed, will ever work smoothly or satisfactorily, or will be endorsed by the people.

The rules established by the commission do not stand the test of criticism. The appointment of Mr. Keim as Chief Examiner shows either a concession to political influence, while the whole object of the law under which the board acts was to avoid this, or else the utter incapacity of the board to make the new-fangled machine work. This seems but the beginning of a series of failures; and one can imagine that in the event of a democratic president being chosen next year,—which would be the certain result if the republicans had any faith that the principle of perpetuity in office was to be a seriously-considered plank in their next platform, instead of a mere platitude,—how speedily the whole of this clumsy and inoperative fabric would be tumbled overboard!

The Carlton Murder.

The grand jury of Middlesex county, Mass., on the 8th inst. found a true bill against Roger Amero for the murder of Mr. [illegible] Carlton of Watertown.

[illegible] nd guilty of [illegible] rk murders, at his third trial in Dublin on the 9th inst., and was sentenced to be hung.

There is a big scare in Halifax, N. S. owing to information that the Irish "invincibles" intend to blow up and destroy the whole place, harbor and all, on the day of the execution in Dublin, Ireland, of Joe Brady, one of the Phenix park assassins.

A report was current in Washington on the 8th inst. that the nomination of Mr. Keim as chief examiner of the civil service commission was to be withdrawn, and that the name of Mr. Charles Lyman, chief clerk of the treasury, had been agreed upon to be sent to the president with the recommendation of the commission that he be appointed chief examiner instead of Keim.

How much pleasanter this world would be to live in were it as easy to go to bed at night as to remain there in the morning, and as easy to get up in the morning as it is to talk of getting up when you go to bed.

Judge Copeland, who investigated the case of Mrs. Henry S. Wilder of Mount Tom, Mass., who was killed on the Connecticut River road by a passenger train running into a freight, finds the accident was caused by disobedience of the rules of the road by the conductor and engineer of the freight train. These men were discharged some days ago.

Walter Brooks, a colored barber at Lawrence, Mass., has been held in $2,000 for assaulting John Fuller, a white shoemaker, with a razor. Fuller's injuries are considered serious.

John Greene, a prosperous farmer of South county, R. I., and a rugged man of temperate habits, is now in the Rhode Island hospital under treatment for blindness. A few nights ago he went to bed as well as usual. In the morning, when he was called, he was surprised to find nothing but darkness when he raised his eyelids. At first Mr. Greene thought he had slept too soundly, and began to bathe his eyes. This was of no avail, and it was soon found that during the night he had totally lost his sight. The physicians cannot account for this, there being no apparent cause.

George Bark, the murderer of Mrs. Eve Finster, his paramour, was sentenced by the court at Buffalo, N. Y., May 8th, to twenty years at Auburn prison.

The city council of Chicago, Ill., on the 7th inst. passed an ordinance granting the District Telegraph company the privilege of erecting iron poles on which to string cable wires in that city.

A Cincinnati despatch says that Bair, the driver of the famous trotting mare Maud S., started with her for Hartford, Conn., on the 7th inst. He says that $100,000 has been refused for her. Bair has made a match to drive Aldine with a running mate in 2:06.

Applicants for office are not to be left to undergo the terrors of the civil service examining-board without a "coach." A sign has already been hung out in a central locality in Washington, headed, "Civil Service Institute," at which place it is said that candidates for appointment will be crammed to pass the examination.

West Hartford, Conn., is in a high state of excitement over a heinous outrage committed there early in the morning on the eighth inst. At one o'clock the house of a Mrs. Barnes, a highly respected lady living two miles west of the post office, was entered by two burglars. After ransacking the house, one of the burglars with a drawn pistol stood on the stairs and kept Mrs. Barnes and a crippled granddaughter on the second floor, while the other burglar feloniously assaulted another granddaughter on the lower floor, the girl being left in a critical condition.

The Douglass (Me.) mine is running through its furnaces thirty-five tons of ore a day, producing at least one ton of ingot copper (worth $300) from this amount. This copper is worth at least sixteen cents a pound in the market, whereas the Arizona article only brings fourteen cents.

AROUND HOME.

Mr. George Patch of Kittery says the story of his having put signs warning people off his premises at Sea point, Gerrish's island, is not true. So far from wishing to keep people away, he doesn't care how many visit the point—the more the merrier.

While a gang of painters were at work on the Chase house in Kittery a day or two since, a piece of wood four inches square and five feet long fell from an attic window, and struck endwise on the back of Mr. Fred D. Moore's head, knocking him down, but not inflicting any permanent injuries.

The new Catholic church built at Biddeford by the French Canadians of that place was dedicated on the 9th inst. It is one of the largest churches in the diocese. Rev. Father Murtha preached the dedicatory sermon.

At a meeting of the members of the Eliot & Kittery Mutual Fire Insurance company, held in Kittery on the 8th inst., the following-named persons were elected directors:—Warrington Paul, John Wentworth and Joseph Langton, of Kittery; Timothy Dame and John D. Frost, of Eliot; Joseph H. Moody and Josiah D. Bragdon, of York. At a subsequent meeting of the directors Warrington Paul was elected president, Samuel Clark of Eliot treasurer, and Alexander Junkins of Eliot secretary.

At the Pepperell house, Kittery Point, a number of rooms have already been engaged by boarders who are to arriv June 1st, by which time it is expected the extension at the south end of the building will be finished. By the enlargement of the house a new dining room thirty-four by thirty-seven feet, and nineteen new sleeping rooms, have been added; the frame was finished by the Kennebec Framing Co. of Fairfield, Me., and came all ready matched, being delivered at the depot in Portsmouth for $500. The carpenter work is by William Locke, the plastering by Henry J. Walker, and the chimney-building and other brick work by Edward Junkins, all residents of the Foreside; the painting is by George Gunnison of Kittery Point.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitiators the blood, and renovates thereby restoring the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

123 HOWARD STREET, LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,
(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned the title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

Case Thurston of Dover, Cocheco Savings Bank plaintiff in interest, against Union Ins. Co. of Philadelphia, Merchants Ins. Co. of New York, and Metropole Ins. Co. of Paris, was argued upon questions of law raised in the report of the referee as to what were included as fixtures, etc. Wiggin and Frink for plff.; Batchelder and Faulkner for deft.

Foster & Woodman vs. Brown Lumber Co., was referred to Lewis W. Clark and James A. Weston.

The New Hampshire Lumber Co. cases, twelve in number, were each continued to the October term, pending the surveys of the tracts of land in dispute.

Peter J. Horne vs. Boston & Maine railroad. Motion to remand action to state court. Briefs to be furnished in thirty days. Marston & Eastman for plff.; Copeland for deft.

On the motion of defendant's counsel, in Norton vs. Dover, a bond in the sum of $500 as security for costs was ordered to be filed by the plaintiff by the 28th inst., the plaintiff to pay taxable costs of witnesses who have attended, or who are on the way to attend the court and cannot be countermanded.

POLICE COURT--BATCHELDER, J.

WEDNESDAY, May 9th.

George L. Perkins, a young man who has for some time been employed by Mr. Andrews, the fish peddler, was before the court on a charge of breaking and entering Mr. Andrews' place of business, and stealing money therefrom. Perkins was caught in Dover on the morning of the 9th, having walked from this city, and was brought back on the train. He acknowledged taking $44, of which $43.-18 was given up by him. He was held in $500 for trial at the October term of the Supreme court.

MAY TRAINING.

Tuesday, the 8th inst., was the day of "May Training," and the Strafford Guards of Dover, Capt. Demeritt, the Bell Rifles of Exeter, Capt. Cooper, and the Great Falls Light Infantry, Capt. Willey, met in Dover at an early hour in the forenoon, and under command of Lieut. Col. Lane of Manchester marched to the city farm, where the forenoon was spent in target shooting until about noon, when line was again formed and the three companies marched back to Pleasant street, where the Portsmouth Cavalry, Capt. Coffin, were met and escorted to Central square. Here the companies were photographed by Fred H. Foss, after which all the military and the honorary members of the Strafford Guards filed into the city hall, and to the number of 250 or 300 sat down to an excellent dinner.

Capt. Demeritt called the assembly to order, and extended a hearty welcome to the visitors; and Rev. Dr. Quint offered prayer. After due attention to the eatables Col. Charles H. Tufts was introduced as toast master, and sentiments and responses were in order for a brief period, Lieut. John S. Perry of the cavalry responding to the toast of "Old Strawberry Bank."

At the conclusion of the exercises in the hall the military reformed and marched to the Ricker field, where there was a battalion drill and review, Capt. Coffin riding on the staff with Lieut. Col. Lane. A march through the principal streets followed, and a dress parade in front of the city hall wound up the day. In the evening there was a grand ball, and that, like all other events of the day, was carried out in the most successful and gratifying manner.

The Cavalry made a highly creditable show, with forty-one men; and the members speak in the highest terms of their treatment by the Dover company and citizens

DAVY CROCKETT.

This play, which will be presented at Music hall on Saturday evening, is a most pleasing one, having but little of the "border drama" style about it, and the Davy Crockett of Frank Mayo is one of the best pieces of character acting we ever saw. Tickets now on sale at Goodrich's.

GOSSIPS SAY

That Hon. Frank Jones is having rows of maple trees set out on each side of the road leading to the Wentworth, from Sagamore road to Little harbor bridge, a distance of over a mile.

That Storer Post, G. A. R., of this city, will have four companies in line Memorial day, officered as follows: 1st Company, O. M. Knight Capt., W. H. Lovell 1st Lieut.; 2d Co., Wm. Y. Evans Capt., J. A. Rand 1st Lieut.; 3d Co., C. H. Bessellevre Capt., Wm. H. Smith 1st Lieut.; 4th Co., Abel Jackson Capt., B. Stowe Laskey 1st Lieut.; Marcus M. Collis, Major Com. Battalion; George E. Hodgdon, Adjt.

That work will be resumed on the north millbridge this morning.

That the Newcastle bridges will be open for travel next Monday, the 14th inst.

That Hon. F. Jones lost by the drought last season over a hundred Norway spruces, intended to ornament the grounds around the Wentworth and his suburban residence; and that Mayor Treat lost nearly fifty of the same kind of trees from the same cause.

That Mr. John H. Gardner, the well known fiddler, contemplates removing to Florida, fiddle and all.

That a new clothing store is shortly to be opened, on the premises formerly occupied by Mr. Dearborn as a hat store.

That as soon as the schooner on the stocks at Freeman's point is completed, Mr. Fernald will commence the building of another for local owners.

That the north pond was utilized as a millpond on the 9th inst. for the first time in several weeks, Hon. Moses H. Goodrich's bark mill being at work that day.

That the query "Who built the grapevine bridge over the Chickahominy in McClellan's campaign during the war?" asked by a Philadelphia paper, is answered by members of the 5th New Hampshire regiment, which regiment alone built that bridge,—which a hundred diaries of the 1st Minnesota regiment cannot gainsay.

That Boston papers pronounce Miss Norah Bartlett's rendering of "Grace Harkaway" in "London Assurance" at the Boston Museum on the evening of the 7th inst. to be "one of her best efforts."

That Mr. Frank Coleman, formerly an engineer on the Eastern railroad, is going on the schooner Alice Montgomery.

That the "Democratic tax-payer" who believes that any other man of his party could have been elected mayor of this city last year in the place of Mayor Treat, should be placed in a show window that people might see the curiosity.

That the brakemen and baggage masters on the Eastern railroad are demanding more pay.

The schooner Z. S. Wallingford, belonging to the Dover Navigation Co., was run into on the 3d inst. off Chincoteague by the schooner Norman, and had her main channels carried away, rail and bulwarks smashed, and a hole stove in the port quarter. The Norman lost her jibboom, bowsprit and foretopmast, and was otherwise damaged.

In the Albama claims court in Washington, on the 8th inst., judgements were announced in favor of the following claimants: Mark H. Wentworth, administrator, $886; Mark H. Wentworth, $193; Maria L. Jones, administratrix, $193; William H. Rollins, trustee, $352.

It is stated that a gentleman who came to this city from a distant point to testify in the Knibbs' patent valve suits as an "expert," is retained at an expense of $75 per day; and that, as his home is so far away that it would take him about all the time between now and the 5th of June to go there and return, he will stop here until the Circuit court again comes in.

The brick schooner Triton, Freeman master, from Boston for Eliot, returned to Boston on the 8th inst. with the loss of her foremast.

There will be a special meeting of the Woman's Temperance League at Temperance hall this (Thursday) afternoon at three o'clock.

A beautiful picture of the fine Newfoundland dog "Dick," owned by C. M. Gignoux, Esq. was placed on exhibition in the window of Goodrich's Congress block bookstore on the 9th inst. It was painted by Mr. U. D. Tenny, and of course is a work of art.

Capt. R. H. Seaward, of the schooner Cocheco, arrived in town on the 9th inst. from Lynn, where the vessel is now lying.

A gentleman from this city on a tour through the western states writes home from Vincennes, Ind., as follows: "I had occasion to visit St. Paul, Minn., the other day, and you can judge of my surprise when in the first person I saw I recognized our young friend Amazeen. It is an actual fact that he had his hands in his pockets, and was whistling 'Home, sweet home.' From him I learned that many of the Portsmouth emigrants are disgusted with the west, and that there will soon be a grand hegira home."

The brick schooners D. K. Ham and G. W. Raitt went up the river in tow, and another schooner sailed up, on Wednesday.

A schooner load of ties has been discharged at the Eastern railroad wharf each day this week.

Mr. S. Cottle, employed on the Portsmouth bridge, put on a diving suit for the first time on the 8th inst., and went to the bottom of the river. He brought up several carpenter's tools, mauls and bars, the articles appearing little the worse for their immersion.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 26th, 1883:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of *d bris* placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be proceeded against in consonance with section 6, chapter 17 of the Ordinances.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this statement should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

HEART DISEASES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Mistress Editor:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is enabled to keep up her daily assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and cures much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole action is to do good to others."

Squashes for Hogs.

A New York farmer has found that an acre of the Hubbard squash will fatten more hogs than any corn which could be raised on the same ground, and the squashes will keep through the winter. He plants twenty feet a part each way, which is thick enough, and little cultivation is required. The crop is easily gathered, no digging being required. The plants are rampant growers, and are out of the way of the bugs in a week, early in the season. The squashes are cracked and passed through a root cutter, and the seeds are sold to dealers in Boston. From six to eight tons have been obtained from an acre, estimated by the wagon load. Where he could sell only a part he fed his cows with the rest and sold the seeds, and found this more profitable than to sell the squashes in market.—*Country Gentleman.*

Near the city of Syracuse, Sicily, is a grave with a tablet bearing the following inscription: "In memory of William R. Nicholson, a midshipman in the navy of the United States, who was cut off from society in the bloom of his youth and health on the 18th day of September, A. D. 1804, aged eighteen years." The midshipman's love for a Sicilian aroused the jealousy of her Syracusan sweetheart, a duel ensued, and the memorial records the result.

Five hundred cows collected in this state were recently sent to Colorado.

Unable To Tell.

Yes, that was so. For years I suffered severely with scrofula; sores broke out all over my body and I am unable to tell one half I suffered. I was not able to obtain relief until I used Sulphur Bitters, which completely cured me.—C. B. Dale, 17 Allston street, Boston.

The long lace mitts in red, blue and cream shades, as well as black, will be worn in midsummer, and there are little thread gloves of white, ecru and slate shades.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

Polonaises are just as fashionable as basques, and no stout lady need fear that she will be "out of the world" with this best of garments for those that have a thick covering for their framework.

If you fail to receive benefit from other preparations, try Hood's Sarsaparilla: it's the strongest, the purest, the best, the cheapest.

A pretty spring dress for a girl of five years is of blue or brown casimere, cut princess, trimmed with two depths of plaitings. A wide satin sash is laced above the plaitings, confined in front with a buckle and tied in a bow in the back. Cuffs and collars of batiste embroidery.

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidneys, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

"But Yet a Woman:" A novel, by Arthur Sherburne Hardy. Boston; Houghton, Mifflin & Co. Sold by Mercer Goodrich.

This is a French novel by an American writer, a gentleman of some ability; but we prefer to read French novels written by Frenchmen, if we must read them at all.

—"My hands were covered with little dry scabs. They have disappeared and I'm better than I have been for 20 years, from using Dr. Benson's Skin Cure." A. M. Noble, Selma, N. C., July 3, '82.

—"Never marry for wealth," says a contemporary, "but remember that it is just as easy to love a girl who has a brick house with a Mansard roof and silver plated door bell, as one who hasn't anything but an auburn head and an amiable disposition."

Mr. C. W. Sturtevant, Hillsboro, N. H., says: "I received great benefit from using Brown's Iron Bitters as a tonic and for lack of iron in the blood."

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their worthless stuff, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

In the supreme court at Providence, R. I., on the 9th inst., several cases against the A. & W. Sprague Manufacturing company, on trust and mortgage notes, were tried. Gov. Butler appeared for the defence. The court overruled his objections, and the jury gave verdicts for the plaintiffs, in one case $109,156, and in another for $60.03.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

Dwight C. Thurber, superintendent for the Powers Paper company at Springfield, Mass., was shot on the 9th inst., by his wife, but not fatally wounded. The couple had not lived together since March, as Thurber considered the woman faithless. After pleading to be taken back she shot him when off his guard, in the back of his head.

One Experience from Many.

I have been sick and miserable so long and caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, "Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.

At a fire in New Haven, Conn., on the night of the 9th inst., a brick wall fell, burying seven men, of whom two were fatally hurt and the others severely injured.

"When a thing is once begun, it is almost half finished." If you, reader, have dyspepsia, constipation, biliousness, or any disorder arising from impure blood, begin taking Wheat Bitters. Your cure will be half finished, likely completed, by the first bottle.

A tornado prevailed in the Lehigh and Wyoming valleys of Pennsylvania on the 8th inst., doing great damage. Telegraph poles and trees were blown down in immense numbers, and cars were blown from the rails. The rainfall was very heavy.

The Special Senses have been termed the "Five Gateways of Knowledge," from the fact that they receive and transmit to the brain impressions regarding surrounding objects thro' their nerves. The nose, or organ of smell, is a double-chambered cavity, lined with a mucous membrane, over which is spread numerous nerve filaments, branches of the olfactory nerves, for the reception of odoriferous impressions. Catarrh soon destroys the sense of smell, causes inflammation of the membrane, rapidly becomes offensive and culminates by becoming chronic. Ely's Cream Balm cures catarrh, no matter how long it has existed. It is not a liquid or snuff. 50 cents.

"Threw away her Supporter."

Dr. Pierce:—A neighbor of ours was suffering from "female weakness" which the doctors told her could not be cured without a supporter. After considerable persuasion my wife induced her to try your "Favorite Prescription." After using one bottle she threw away her supporter and did a large washing, which she had not done in two years before. JAMES MILLER.

At Palmyra, Michigan, Lyman Haviland and wife left four children alone in the house. Alice, the eldest, aged thirteen, fell asleep while reading a newspaper, which caught fire in some way and set the house and her clothes in a blaze. She ran out doors, but was burned to death. The boy of nine years rescued the babe, and the fourth child escaped. The father on his return, not knowing the fate of the children, rushed into the blazing house and was seriously burned.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcloths, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of heal h. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I knew it's a good medicine. It has completely cured me of stomach disorders and indigestion. It comes to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a natural manner, regulating their action, strengthen ng and purifying the whole system."

He Had Two Balls In His Stomach,

He put them there because it was the fashion at his boarding-house. They were codfish balls. But the boarders found that putting too many codfish balls in their stomachs produced dyspepsia, especially when washed down with salt mackerel and tough steak. Had they got found Perry Davis's Pain killer cured dyspepsia, their boarding house fare would have killed them.

Miss Annie Loraine White, of Lynn, Mass., was criminally assaulted in her home on Tuesday afternoon, the 8th inst., by an unknown man, supposed to be a tramp, and so much injured that fatal results are apprehended. A girl named Quimby, twelve years of age, was assaulted in the grounds near Judge Newhall's summer residence in Lynn on the 9th, presumably by the same man.

Denver, Col., was visited by a destructive hail storm on the 8th inst. A despatch says: "The damage done by the hail storm will probably aggregate $750,000. Hardly a residence or public building in this city escaped injury. Vegetable and flower gardens in the city and vicinity are complete wrecks. Young fruit trees suffered terribly, every variety of fruit being killed. The loss to ranchmen in the immediate vicinity of Denver is very heavy."

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

A despatch of the 9th inst. from Norfolk, Va., says: "Last evening, as the U. S. S. Alliance was coming up Hampton roads from outside the capes, without a licensed pilot on board, as is now the custom on naval vessels, she collided with the British bark Arkshaw, from Iquique for New York, which was lying at anchor about two miles from Thimble light. The bark had her bowsprit and forward rigging carried away. The Alliance was not injured."

Rev. E. A. Spring, Corycton, Iowa, says: "I used Brown's Iron Bitters for general ill-health and found it to be of great help to me."

Dodge City, Kansas, is reported to have had an exciting experience recently. According to one account the gamblers and liquor dealers, backed up by the mayor, who is a liquor dealer, have been making things hot for all who dared to vote against free rum at the late election; another story is that a vigilance committee has cleared out some of the worst gamblers in the place; all accounts agree that there has been a good deal of lawless work going on.

We do not as a rule allow ourselves to use our editorial columns to speak of any remedy we advertise, but we feel warranted in saying a word of Hood's Sarsaparilla. Sarsaparilla has been known as a remedial agent for centuries, and is recognized by all schools of practice as a valuable blood purifier. It is put up in forms of almost infinite variety, but Messrs. Hood & Co. (Lowell, Mass.), who are thoroughly reliable pharmacists, have hit upon a remedy of unusual value. Certainly they have vouchers of cures which we know to be most extraordinary.

The Weather Bureau.

A Washington correspondent writes as follows:

Secretary Lincoln seems intent upon bringing the weather bureau to a stricter account than has ever before been attempted. Up to this year the appropriation, amounting to more than a million dollars, has all been disbursed by the bureau officers, with no outside auditing. This looseness has never been explained, and now Mr. Lincoln directs that hereafter the expenditures of the weather bureau shall largely be transferred to other branches of the war department. Only $310,500 is left for General Hazen, while $235,100 goes to the paymaster-general's office, $164,779 to the subsistence department, $193,749 to the quartermaster general and $5700 to the surgeon general. Secretary Lincoln some time ago asked the president to order a court of inquiry to investigate numerous charges against General Hazen. General Sherman used his influence against it, and a great deal of political pressure was exerted for the same purpose. Mr. Lincoln considers that the reputation of the army is at stake, and to his friends makes no secret of his chagrin that the president has not adopted his suggestion. He is taking pains to curtail the financial operations of the bureau, and will lend his aid to the really serious effort which will be made next winter to have the weather bureau transferred to the interior department, leaving the signal corps in the army, where it properly belongs.

AROUND HOME.

The difference between a real work of art, as painted by Tenney, and the crude productions which pass for works of art with some people, will be readily appreciated on an inspection of the portraits of Mr. Gignoux's big dog "Dick," in the window of the Congress block bookstore. Mr. Tenney may be able to paint an inferior portrait, but we have never seen or heard of one of his painting.

One of Hampton's old people died on the 8th inst.,—Mrs. Joseph Neal, aged a few months more than ninety-one years. She had been an invalid and confined to her bed about ten years.

Mr. Richard May, who recently went from this city to Newburyport, and is now employed in the office of the daily *Germ*, has been elected financial secretary of United Lodge of Good Templars, of that city.

Mr. Editor; It is understood that the selectmen of ward two decline to issue their warrant for a town meeting to fill up the vacancy in the representation to the legislature. So in the important session to be held this summer this city is to lose one member of the house of representatives, and a proportional part of its influence and votes. The consolidation of the railroads, and the Lake Shore road, matters in which we have a direct interest, are to be acted upon. A senator, and perhaps two senators, are to be elected. But for some mysterious reason the people of the second ward cannot have the privilege of filling their representation. The highest rights of freemen are to vote and be represented. It would seem that the selectmen would have taken notice of the vacancy and ordered an election long ago. They neglected so to do of their own accord, and now decline to do so when a petition is presented to them. I am at a loss to understand why this important duty is neglected, and the people contemptuously denied their rights. B.

William H. Rollins, Esq., started on Thursday for an extended western trip.

The following was published in Concord on the evening of May 9th: "Notice is hereby given that application will be made to the legislature of New Hampshire in June next to unite in one corporation the Concord railroad corporation, the Northern railroad, the Boston, Concord & Montreal railroad, the Manchester & Lawrence railroad, and the Concord & Claremont railroad, and their branches." The notice is signed: J. T. Vose, president of the Concord railroad; Henry C. Sherburne, president of the Northern railroad; B. F. Martin, president of the Manchester & Lawrence railroad; J. T. Vose, president of the Boston, Concord & Montreal railroad; Henry C. Sherburne, president of the Concord & Claremont railroad.

Mr. Charles B. Goodwin, formerly of this city, and last year landlord of a hotel at Downer's Landing, Mass., will run two large hotels at Bethlehem this season.

The body of an unknown man, about twenty-five years old, was found in a shed on Island wharf at Saco on the morning of May 9th, with two pistol shots in the forehead. When the body was rolled over a revolver of thirty-two one-hundredths calibre, two chambers being empty, fell out of his pocket.

Our consular representative at Brussels has learned and transmits to the department of state at Washington the information that "There is in the manufacture of most American beer glasses and water goblets, for this and other continental markets, an error made, which will continue to prevent their sale unless corrected. The people of Europe generally are not great water drinkers, and find our water goblets altogether too large; but, on the other hand, they are great beer drinkers, and complain that our beer glasses are much too small; and I am assured by a number of parties who have unsuccessfully attempted to introduce these articles into general use here that, but for these defects, they would doubtless have succeeded." We fear the consular knowledge is at fault in this respect. The men who contrive to sell a good deal of froth with a small amount of beer, in order to obtain all possible profit from a barrel of the article, are not anxious that the glasses by which their fluid is measured shall be increased in size. Perhaps it was from the consumer, and not the seller, that our diplomatic agent at the city of fine lace acquired his information.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. coth,jan9,84

PURE BLOOD

IS THE ABSOLUTE NECESSITY OF HEALTH.

HOOD'S SARSAPARILLA

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) provE it the best BLOOD MEDICINE. Such has been the success of this article at home, that nearly every family throughout the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. HOOD'S SARSAPARILLA purifies the blood. HOOD'S SARSAPARILLA cures dyspepsia. HOOD'S SARSAPARILLA cures biliousness. A peculiar point in HOOD'S SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

SCROFULA.

135 HOWARD STREET, LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours, C. C. PICKERING.

(Coburn Shuttle Co.)

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, May 10th, Mayor Treat in the chair:

Present the full board.

The records of the last meeting were read and approved.

Bill of $476.20, as the city's share in the "pool" expenses of contesting the Norton suits up to the present, (additional to bill before approved,) was received.

Invitation from Memorial day committee, for city government to take part in the exercises of the day, was accepted.

Petition of E. H. Winchester and others, for widening of part of Middle street near Middle road, at not to exceed $500, was referred.

City marshal's quarterly report was reported from committee, and accepted.

Forest J. Trafton, inspector of petroleum, submitted the following as his report of kerosene inspection for the year ending April 30th, 1883:

I have inspected from May 1st, 1882, to May 1st, 1883, 1906 bbls., an increase of seventeen over last year. Of these, 1815 bbls. were approved and ninety-one bbls. rejected, (an increase of fifteen barrels rejected over last year,) the latter being found from five to ten degrees below the lawful standard, a record being kept of all sent back.

Most of this dangerous oil was rejected six months ago, and for the last six months there has been an increase in the city of water-white high-test oil, which the public are finding out is the cheapest, best, and safest to use; being taken from the heart of the crude oil, it has less naphtha, which makes it safe; less paraffine or heavy oil, which makes the cheap oil heavy, and decreases its illuminating power when the oil is low in the lamp; it also is well refined, all sulphuric acid being washed from it, which in cheap oils crusts the wick; also the water is carefully separated from the oil, which in cheap oil is found very often, which makes the oil "spit," and the consumer thinks the dealer has watered it.

A good way to tell high-test oil is to put a gill of oil into a clear white tumbler, which will show the good oil white as water, while the cheap oil will show a yellow cast, and by looking at the oil on top, under certain conditions of light, the cheap oil will show a blue cast; it also has a rank smell compared with the high-test oil.

The price of good oil is so low now that the poorer classes of people can use it; and undoubtedly in a few years the low grade oil will go out of the market, as I am told by oil refiners that there is a great demand for high-test oils.

Bills for April, amounting to $2198.97, were ordered paid; also monthly payroll of police, including eighteen nights for Officer Abbott while ill with sickness contracted in the line of his duty.

Bill of John K. A. Hanson, $1.50 for posting and distributing copies of a recent ordinance, and bill of Reuben Rand, $37.50 for carpenter work, were ordered paid.

Bills of Charles E. Page, for bounty on thirteen crows, (no heads having been received with the bill;) of Sylvester Gilbert, $2, for two hens killed by dogs; and for inquest on John Erb, ordered by mayor and aldermen Aug. 9th, 1881, $69.97, were referred.

The appropriation and deficiency bill for the current year was passed as drafted, appropriating $142,043.13.

Supt. D. J. Hearn, of the Mutual Union Telegraph Co., telegraphed asking on what terms the company can have their present office in the city building, after July 1st. In view of the fact that the city proposes fitting up offices for the tax collector and other officers in the room lately vacated by Mr. Ham, the matter was referred to the committee on city lands and buildings, to confer with Mr. Hearn.

The fire department committee was authorized to contract for a new hook and ladder truck, at a cost not to exceed the appropriation.

Adjourned for two weeks.

PORTSMOUTH SHOE CO.

The annual meeting of the stockholders of this corporation was held at the counting room of the company on Thursday evening. Wm. W. Whitcomb presiding. The clerk being absent, Wm. H. Hackett was chosen clerk *pro tempore*.

The report of the auditors, showing that the accounts had been correctly kept and properly vouched, was presented and accepted.

The following-named gentlemen were then chosen directors: Wm. W. Whitcomb, Frank Jones, Ezra H. Winchester, William Ward, and Charles A. Sinclair. William H. Hackett was chosen clerk, and the meeting adjourned.

At the meeting of the directors, held subsequent to the annual meeting of the shareholders, Wm. W. Whitcomb was re-elected president, and Charles H. Mendum treasurer.

GOSSIPS SAY

That our people are subscribing liberally to the Memorial day fund.

That the three gentlemen who took a horseback ride to Newington on Thursday morning managed to get a few May flowers, and also a wet skin apiece.

That a school of porpoises was sporting in the lower harbor on the afternoon of the 9th inst.

That a car load of merchandise shipped by rail from Cincinnati, Ohio, to this city, in February last, only reached here this week, having been blockaded at some point on the Grand Trunk railroad.

That Messrs. William Ward and Samuel Gerrish leave the city this morning on a brief trip to Washington, D. C.

That orders have been received at the navy yard to make out a new pay schedule for the months of May and June on the eight-hour basis, pro rata with the amount paid when ten hours constituted a day's work.

A TRIP OF INSPECTION ON THE RIVER.

By invitation of Hon. Frank Jones, several gentlemen met Col. Charles E. Blunt of the Corps of Engineers, United States army, at the Rockingham house on Thursday, and were entertained at lunch. Among the party were Ex-Senator Rollins; Col. Chas. H. Sawyer, Chas. H. Trickey and Frank I. Christie of Dover; Collector Howard, J. Albert Walker and Col. Hackett of this city.

Afterward the party embarked upon the steam tug Ann and proceeded to Newcastle, where John Amazeen, pilot, was taken on board, and Little harbor visited. The steamer went up to the Wentworth wharf, and thence started for an inspection of the Piscataqua, stopping off "Frank's fort."

Mr. Jones when in Congress maintained that instead of having the public money wasted in profitless outlays on small, and perhaps unknown streams, it would be a service to the dwellers upon the Piscataqua and its tributaries if a dam could be constructed, with a gateway or sluice, which would hold the waters of Great bay, and thereby reduce the force of the current of the river between Dover point and the mouth of the harbor. This would give vessels bound to Exeter, Newmarket, Dover and other places above the dam, a good depth of water at all times, and so diminish the force of the current in our harbor as to greatly facilitate the movements of vessels at different stages of tide, and would in its effect be of much benefit. When off Frank's fort soundings were taken, and Col. Blunt shew the gentlemen where he regarded the most feasible spot for the proposed improvement. This of course will be a costly job, but it would be a triumph in engineering skill which would be of inestimable advantage to our river navigation.

The Portsmouth gentlemen were landed at Dover point and returned home by rail, while the remainder of the party, including Col. Blunt, went to Dover in the Ann. The colonel returned to Portland in the evening from Dover.

Col. Blunt is a native of Portsmouth. He is a son of the late John Blunt, and a nephew of the late Geo. M. Marsh.

THE RETURN OF THE SONS.

At the meeting in the common council room, on the evening of the 9th inst., to discuss the advisability of having a reunion of the "sons and daughters" on the coming 4th of July, after considerable talk an adjournment was taken to the evening of the 16th inst., the finance committee desiring until that time to make their report.

A VAGUE CHARGE.

Gov. Butler proclaims that he has discovered that one or two of the insurance companies of Massachusetts are not in a safe and proper condition, and have not been for some time. As the governor uses the plural verb we are led to infer that there are two such companies; but whether fire or marine or life the governor does not deign to designate. Such loose statements by one in authority do much to weaken the confidence among the insured outside of Massachusetts.

We are informed that each of the Massachusetts insurance companies represented in this city is especially strong. This remark applies to the Springfield Fire & Marine of Springfield, and the New England Life Ins. Co., both of which are represented by Messrs. Morse & Ilsley. It is but an act of justice, alike to the sound insurance companies of Massachusetts and to the insured, that the governor should be more specific when he talks about the condition of companies in the commonwealth, as every policyholder who is not especially informed in regard to the condition of the company by which he is insured is likely to become alarmed at the governor's vague statement.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 26th, 1883:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of *d bris* placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be proceeded against in consonance with section 6, chapter IV of the ordinances.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

26th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extensive work on Physiology ever published. Thousands will avow that the marvelous disclosures alone require or which to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or, the Author would be glad to have those who may be consulted on all diseases requiring skill and experience. Address

THE ART DISEASES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Boston, Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents have kindly call her. She is zealously devoted to her work, which is the outcome of a life-study, and is oblged to keep six lady assistants to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It work like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It possesses every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required in regard to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint *of either sex* this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says the writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity."

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Says a New York writer: The liquor interest controls the New York city democracy absolutely, and as such has a great voice in the determination of questions at the state legislature. It is getting much worse in the west, however, and on its growing arrogance republicans may depend largely for eventual success. It is bound to bring over all respectable people from the "unterrified side." Even democrats are getting tired of it. Said an Ohio man to me the other day, "it is impossible for a democrat in our state to get on a ticket if he has incurred the hostility of that 'interest.' In Indiana it is the same, and in Illinois much worse. In the latter state, however, the whisky dealers will sign their own death warrant, as they are determined to force the nomination of Carter Harrison for governor, on the democratic ticket."

"Get up like a man, and take care of yourself." Get a bottle of Wheat Bitters. It will make a new man of you, no matter what your trouble may be. No such remedy was ever before offered to the public. $1.

Four posts of the Grand Army of the Republic have been organized in this state in the last two months—one at Epsom, one at Monroe, one at Sandwich and one at East Northwood.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

Mrs. Soule, widow of the late Dr. Gideon L. Soule, for fifty years principal of Phillips academy at Exeter, died on the 9th inst., at the age of eighty-eight years.

The citizens of Lisbon, at a recent special town meeting, voted to exempt from taxation for a term of ten years a new summer hotel to be erected by J. H. Atwood and others, though there is no state law warranting such exemption.

are never *imitated or counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to serve sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These take in themselves a basis, to which is added the best and most approved medicinal qualities, to render it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

The report of a fight between Mexicans and Indians in the Sierra Madres is confirmed. The fight occurred on April 25th, near the Chihuahua mine, Col. Garcia in command. The Indians had notice of the troops' approach, and prepared for a desperate struggle. After three hours hard fighting the Indians were dislodged, leaving eleven bucks dead on the field. They carried away many of the wounded. The Mexicans sustained a loss of five killed and nine wounded. A large amount of stock was recaptured. It is believed that 200 Indians were engaged.

One Experience from Many.

I have been sick and miserable so long and caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, "Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.

John Hamen of Fall River, Mass., committed suicide at New Bedford on the 9th inst.

Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong? If you continue feeling miserable and good for-nothing you have only yourself to blame for Brown's Iron Bitters will make you sure you. Iron and cinchona are its principal ingredients. It is a certain cure for dyspepsia, indigestion, malaria, weakness, kidney, lung and heart affections. Try it if you desire to be healthy, robust and strong, and experience its remarkable curative qualities.

Woman and her Diseases

is the title of a large illustrated treatise, by Dr. R. V. Pierce, Buffalo, N. Y., sent to any address for three stamps. It teaches successful self-treatment.

A bank at Vassar, Mich., was burglarized on the night of May 9th. One safe was blown open, and $4000 in specie taken, but another safe, containing $6000 in currency, was not robbed, the thieves being frightened away.

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidney, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

Lawyer Carroll of New York, counsel for Walsh and Sheridan, on the 10th inst. expressed the opinion that the men named, and also Tynan, whom Carroll asserts to be in this country, would shortly be arrested on extradition papers sent from England.

Unabl To Tell.

Yes, that was so. For years I suffered severely with scrofula; sores broke out all over my body and I was unable to tell one half I suffered. I was not able to obtain relief until I used Sulphur Bitters, which completely cured me.—C. B. Dale, 17 Allston street, Boston.

The body of John Downs, a coachman of Hartford, Conn., was found in the sluiceway of a mill on the 10th inst. He disappeared Nov. 3d, and foul play is suspected.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

A gentleman from Salt Lake says that the Edmunds anti-polygamy law is generally regarded as a failure there, and will not do much toward the extinction of polygamy.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Ex-Speaker John Egan of the New Jersey legislature has been lodged in the jail at Newark, N. J., having been arrested on an indictment of the grand jury charging him with an attempt to bribe Assemblyman Armitage during the session of the legislature.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, just as machines which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the fact that it succeeds, or rather far cures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are provided in name and style.

Beware of swindles. The genuine have the word CAPCINE CUT in the center. Price 25 cents. Seabury & Johnson, Chemists, New York. feb21,was&tsep28

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected herbs, too it and bottle, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syhhilitic Diseases, Canker, Tetanuses at the Stomach,** and all diseases that arise from impure blood, **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness,** and **General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

IS THE BEST

SPRING MEDICINE.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows that an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcloths, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it is a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

He Had Two Balls In His Stomach,

He put them there because it was the fashion at his boarding-house. They were codfish balls. But the boarders found that putting too many codfish balls in their stomachs produced dyspepsia, especially when washed down with salt mackerel and tough steak. Had they not found Perry Davis's Pain killer cured dyspepsia, their boarding house fare would have killed them.

The admirers of Gov. Butler of Massachusetts had a decided set-back when the governor gave an unmistakable squeal as Frank Sanborn had him by the ear, recently.

mellowed by age and guaranteed pure—is the "G. O. Taylor Old Bourbon." See that it has the signature of Chester H. Graves & Sons over the cork. Buy it of your druggist or Grocer.

A heavy freight train over the Cheshire railroad, Wednesday night, the 9th inst., derailed nine cars at Cold River station, badly smashing the cars and freight, causing quite an amount of damage and obstructing the track about ten hours.

"I need thee every hour," is what a physician writes who is administering Adamson's Cough Balsam as the best remedy for the coughs of his patients.

In the police court at Dover, Owen Rogers was arraigned on Thursday for assault on his wife by shooting her in the right foot with a revolver. He was held in $500 bonds for his appearance at the September term of the supreme court.

Rev. E. A. Spring, Corycton, Iowa, says: "I used Brown's Iron Bitters for general ill-health and found it to be of great help to me."

A call will be issued in a few days for a state prohibitory convention to meet in Concord, probably May 23—24, to take action to further the holding of a constitutional convention to submit to the people a prohibitory amendment to the constitution.

We do not as a rule allow ourselves to use our editorial columns to speak of any remedy we advertise, but we feel warranted in saying a word of Hood's Sarsaparilla. Sarsaparilla has been known as a remedial agent for centuries, and is recognized by all schools of practice as a valuable blood purifier. It is put up in forms of almost infinite variety, but Messrs. Hood & Co. (Lowell, Mass.), who are thoroughly reliable pharmacists, have hit upon a remedy of unusual value. Certainly they have vouchers of cures which we know to be most extraordinary.

"Foreign Lager."

Most of the so-called foreign lager sold in this country is said to be made here. The demand is of comparatively recent growth. A shrewd importer, noting the success which attended the importation of English ales for draught consumption, saw a chance for German beer. He imported a few barrels. They sold for three times the price per glass of native beer. He sent for a large cargo, and the importation became a regular thing. Large brewers control the bottling trade When they found foreign beer competing with their own, they demanded the right to import foreign beer and supply it to the bottler. The bottler, in debt and under contract to them, could not refuse this. Then the American manufacture of "foreign" lager beer began. This manufacture is one of the most closely guarded secrets of the brewing business. The compounding and coloring of the beer are in the hands of the proprietors and a few confidential employees.—*New York paper.*

The facts are that the revenue from the manufacture of ale and lager in England and other foreign countries has largely diminished. We recently saw an elaborate article in the *Tribune* arguing that, because the revenue from the manufacture of ale in England had decreased a quarter of a million of dollars from the amount paid during a previous year, Englishmen were growing temperate in the use of malt liquors.

Now it is not because European countries produce less in quantity of malt liquors or even wines that we can infer that there are less of these fluids consumed in such countries. The United States with its immense product of grain and hops is largely supplying European countries with ale and lager, and will continue so to do. It is here that the material for these articles is found in abundance, and the "closely guarded secret" may be known to none outside of the business.

We cannot say how it may be in New York, but the lager manufactured in Portsmouth is second to none produced in the country, and one reason of this is the especial purity of the water used in brewing, which, compared with that taken from polluted and turbid streams in some cities, is as the driven snow to a filthy ash-heap. Decayed vegetable matter like that found in the waters at Boston, for example, may give a flavor peculiar to itself for some kind of brewing, but the chemists pronounce the Portsmouth lager the purest of any made in the United States, and physicians who are informed in this respect always advise their patients for whom they may prescribe a tonic of this kind, to obtain the Portsmouth brew, if possible.

The Carlton Murder.

Rogers Amero was put on examination at Digby, N. S., on Wednesday, the 9th inst., charged with the murder of Mrs. Etta G. Carlton at Watertown, Mass. Michael McElhaney, track-walker of the Fitchburg railroad, positively identified Amero as the man he saw and talked with on Sunday afternoon, March 18th, the day of the murder. A number of affidavits were presented, and the prisoner was identified by Miss Stowe as the man to whom she sold a ticket at the Mount Auburn station shortly after the murder.

The examination was continued on Thursday, but was not concluded; the testimony was considered conclusive of the prisoner's guilt. The strongest evidence was that given by an uncle of Amero, who stated that he talked with him in presence of three other men, when Amero told him that he got acquainted with Carleton at his saloon the week before the murder; that he did chores for him for three or four days, and that he went to his (Carlton's) house at Watertown to do an odd job; Carlton, he said, did not live happily or agree with his wife, and while he was there Carlton told him he wished his wife was dead, and that some one would kill her. But Amero denied that he did the killing. [Mr. Carlton denies the whole of this story—says he never had any such man as Amero in his employ and does not know him.]

THE EIGHT-HOUR MUDDLE.

In obedience to the orders of the navy department the following officers at the Boston navy yard met on Wednesday, the 9th inst., as a commission to fix the rate of wages on the yard under the latest interpretation of the eight hour law: Capt. Edward P. Lull, Capt. Robert L. Phythian, Commander Charles V. Gridley, Chief Engineer Edward D. Robie, Naval Constructor Thomas E. Webb, and Civil Engineer U. S. G. White. It is stated that the commission makes no change in wages in its report on account of the eight hours of labor, instead of ten as formerly, on the ground that the government is paying less for work in the different trades than is given outside the yard,—enough less to make up the difference in the two hours of labor.

A similar commission selected for the Portsmouth yard is as follows: Capt. A. E. K. Benham, Chief Engineer B. F. Garvin, Commander A. R. Yates, Commander B. J. Cromwell, Naval Constructor George R. Boush.

The New Hampshire club dinner may be well enough as a means of bringing together gentlemen from our state who like to go to Boston and see each other once a month, but when one of the governor's staff loses an overcoat, and an Ex-United States senator is detained in town over night because the hat returned to him is a size or two too small for his head, and members get belated and have to remain till the next morning in order to hear the after dinner speeches, the problem becomes one of no little interest to the domestic tranquility of the New Hampshire home.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the south and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. BLOOD

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE *Admiration* OF THE *WORLD.*

Mrs. S. A. Allen's WORLD'S *Hair Restorer* IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; she hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimonty of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

DAVY CROCKETT.

At Music hall, this evening, Mr. Frank Mayo and his company will present the charming drama entitled Davy Crockett, with Mr. Mayo as the unpolished but brave and gentle frontiersman. Mr. Mayo has not been here for seven or eight years, his last performance in this city having been given in the old Temple; and there have been few if any better pieces of character acting, or more pleasing dramas, presented here since.

The play is truly "an idyl of the backwoods," and is entirely devoid of the wholesale slaughter and burning of gunpowder which distinguish the ordinary "border drama;" the sentiment is pure and wholesome, and all who attend this evening will enjoy the performance from beginning to end. Tickets at Goodrich's.

PUBLIC LIBRARY.

The public library is open on Monday, Tuesday, Friday and Saturday evenings from seven to nine o'clock, and on Saturday afternoons from four to six o'clock, for the convenience of patrons. Persons desiring the privileges of the library, who are unknown to the librarian or his assistants, are required to give their residence, and be recognized before cards can be issued to them. Books are allowed out only two weeks, and only one volume at a time to the same person.

WHERE DO THE DOLLARS GO?

One of the banks in this city, within five years past, paid out over its counters one hundred and thirty-four thousand dollars of silver dollars, while comparatively none have come in. Some of this is passed in trade, some paid to the various relief societies, but the great bulk seems to have become hoarded, by persons who perhaps fear that savings banks may not be safe, or that national bank bills may be destroyed by fire. Others still may have placed their pile, with sums withdrawn from savings banks or other certain and safe places of deposit, to invest in the many wild-cat mining concerns which are ever ready to receive the funds of the unwary and save the further trouble of any subsequent investments. At all events, there must be stowed away no small amount of silver dollars, or else their need in circulation is so great that but few find their way into the coffers of the banks.

GOSSIPS SAY

That nearly fifty Portsmouth people will witness the opening of the Brooklyn and New York bridge on the 24th inst.

That Mr. Henry L. Harlow of this city made his appearance on the street this week on a handsome and costly tricicle.

That the bobolinks have arrived, and are merrily singing in the outskirts of the city.

That about twenty members of Storer Post, G. A. R., will visit the Grand Army post in Dover next Tuesday evening, going in one of Beacham's big teams, and that comrades desiring to go are requested to leave their names with M. M. Collis at the 99-cent store.

That Israel Marden is soon to take charge of the Seamen's Home on State street.

OLD BOOKS.

Among the many valuable books in the library of the Portsmouth Athenæum is a rare copy of the works of Tibullus, Catullus and Propertius—Roman writers. The book was printed in Venice in 1491, and the typographical work would be a credit to a printing office to-day. The impression is very clear, and the notes are in slightly smaller type than the text.

Another very old book is "Gregoria Moralia," printed in ancient black-letter style, dated 1495.

The Athenæum has also a copy of the very rare work "De Imitatione Christi" of Joannis Gersovis, printed in 1551.

Two hundred emigrants passed through this city by rail on Friday, going west.

Mr. Morris Tobin has succeeded Mr. Henry Wallace as captain of the bank watch. The new building for the accommodation of the watch, in the rear of the Rockingham bank, is about ready for occupation; its steep roof is covered with tin of a fancy pattern, which must make a splendid sound when drummed on by a hail-storm.

The sloop employed in the removal of Gangway rock hauled in to the navy yard, Friday forenoon, to get two 2000-pound anchors for additional moorings.

The propeller of the steamer Mystic got loose on the shaft, Friday, compelling her to haul off temporarily to have it secured.

The schooners Ocean Eagle, Perkins master, and Emily A. Staples, Coleman master, brick laden, came down the river on the 10th inst., and went below. The schooner Sharon, Donnell master, from York with a cargo of fire-wood for the brick yards up the river, passed up the same day.

It is announced that "Mr. Ed. Sands, travelling agent of the Eastern railroad, is to marry Miss T. L. Burr of New York in the Church of the Heavenly Rest, Fifth avenue, New York, May 30th."

Workmen are widening the gauge of the Bucksport branch of the Maine Central railroad. Six new passenger cars for the Maine Central road have just been shipped from the Wason car shops.

The Manchester *Union* avers that the Boston *Traveller's* last batch of interviews with New Hampshire men on politics and railroad matters were unreliable. It says the interviewer "must have been in a particularly ecstatic mood when he said the opinion prevailed that the railroads would have everything their own way."

Daniel Tibbetts, aged about sixty years, fell dead in the street at Biddeford on the 8th inst., probably from heart disease.

"A prominent citizen," just leaving his house for up town, was reminded by his housekeeper that she was out of potatoes. He would send some, of course, but he was absent-minded and forgot it. Being something of a gardener, and going in for all the new varieties of fruits and vegetables, he had sent to Boston the previous day by express for a few new magnum bonum potatoes, for seed. The expressman got about a quart, for which he paid $2.00—at the rate of $60 a bushel,—and carried them to the house in the forenoon, and duly delivered them. The housekeeper thought there was a small pattern, but as there was enough for one dinner, into the pot they went. The expressman called at the store and got his pay, which reminded P. C. that he must order some potatoes sent 'round. But it was too late, for when he got home his precious fancy seedlings were on the table all cooked—and then—but we drop the curtain—*Newburyport Germ.*

The annual meeting of the American Bible society was held in New York on the 10th inst. The receipts of the year were $598,641.91, and the expenditures $599,206.89. For foreign work during the coming year $164,986.85 was appropriated. Last year nearly 200,000,000 copies of the Bible in all languages were printed, including 307 for the blind.

A New Syndicate--The Topeka, Salina and Western Railroad.

The efforts of Mr. C. G. Patterson of this city to secure means for the completion of the Topeka, Salina and Western railroad of Kansas, which he has contracted to build, have proved successful, and a syndicate of New York and Boston gentlemen, eleven in number, of high character and business prominence, has been formed, and is represented in New York by Post, Martin & Co., and in Boston by Tower, Giddings & Co. The money, the amount of which is not stated, has all been paid in, and is sufficient to provide for the superstructure of the road, which runs from Topeka west to Delhi, a distance of 180 miles. It also provides for the interest on all sold bonds up to and including July 1, 1884, so that the first coupon to be provided for by the road will be the one due in Jan. 1, 1885. One thousand dollars in cash per mile is also provided for equipment to go on the road during construction. Bonds to the extent of $400,000, and $500,000 in stock, will remain in the treasury when the road is completed, and will doubtless be used for additional equipment and improvement. This insures the completion of this road within the date of the original contract, namely, July 1, 1884. It is to be built in the most substantial manner, and laid with 56-pound steel rails. The maximum grade is 66 feet, which occurs between Council Grove and Salina. The purchase of material has already begun; the force will be increased at once, and track-laying on the 45 miles of road already graded will begin as soon as the rails can be delivered from St. Louis. The bonds are now offered for sale. For every $850 and interest, $500 in stock and a $1000 bond will be given. Mr. Charles G. Patterson, the contractor, will give full and explicit information about the road, and invites a careful examination of the merits of the bonds as a safe and profitable investment.—*Boston Journal.*

Seven hundred barrels of live lobsters were sent from Vinalhaven, Me., to Boston, by express, between Jan. 26th and April 20th of this year.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. They mistake who think that the married or single either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

HEART DISEASES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Honest Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is sealously devoted to her work, which is the outcome of a lifestudy, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimony will offer.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity."

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. Mrs. A. M. D.

The brewers and maisters of Detroit are making elabdrate preparations to entertain their brethren at their twenty-third national convention in that city, on May 16th, 17th and 18th. Not less than $10,000 will be expended for their care, comfort and diversion. A reception, a concert, a drive around the city and a sumptuous banquet are the social features of the programme. The most interesting topic of discussion will be the temperance movement, and the conclusions of the convention on that subject may be of no slight political importance.

Lady Beautifiers.—Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes with all the cosmetics of Frane, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

Passed Asst. Surgeon T. M. Ashton has reported his return home, having been detached from the Palos on the Asiatic station.

A Druggist Says.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did not help them. They cured me of those terrible sick headaches when every other remedy failed.

are never *imitated or counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

Memorial Day.

General Orders, No. 10.

HEADQUARTERS
GRAND ARMY OF THE REPUBLIC,
OMAHA, NEB., April 14, 1883.

1. In compliance with the Rules and Regulations of the Grand Army of the Republic, Wednesday, May 30th, will be observed as Memorial Day.

The National Encampment adopted a resolution at its session at Baltimore declaring that this holy day should be called Memorial and not Decoration Day.

2. I earnestly request all ministers and priests of every denomination to deliver appropriate sermons or lectures, calling attention to the duties of the day—the sacrifices made and the lessons taught—on Sunday, May 27th. I hereby command Posts of the Grand Army of the Republic to attend said services, in uniform. In cities and villages where it will be practicable, I recommend union services.

3. I recommend that the Grand Army take especial steps to secure the presence and aid of the children and youth of the country in the ceremony of strewing flowers, and otherwise honoring the dead, and to that end I hope that all public and private schools, colleges and academies will be closed.

4. Let the band of Fraternity and Charity be extended to the widows and orphans of our dead heroes. Seek them out; distinguish them from all others, and teach them that on this day the Grand Army mourns with them the loss of the precious ones whom they gave to save the nation.

5. I recommend that the loyal women of the nation be invited to aid in this work. They will toil with willing hands and grateful hearts. Though others may have forgotten the dead, the women have never ceased to remember them and treasure in their pure hearts their heroic services.

6. The marvellous growth of the order throughout the country will be a new incentive to us to see that no grave is neglected. I trust every spot where a soldier lies buried will be strewn with the sweet flowers of Spring time, and urge the Posts of the Grand Army to take immediate steps to remove every soldier's remains from the Potter's field or pauper's burying ground and reinter them in Grand Army grounds. We cannot perform this ceremony in a proper manner unless we have done our duty to the living and the dead.

7. "With Malice towards none and Charity for all," let us unite in this sacred duty. Let the choicest, fairest and most fragrant flowers be culled, and the soft white hands of the loyal women of the land entwine the wreath and fashion the cross and crown, dropping here and there, like the dew, a tear for the dead. Let the choicest gardens be desolated that the memory of the Union soldier may not wither. We will lift once more the curtain that hides the dark past, and see our fallen martyrs die for liberty. They gave their lives a cheerful sacrifice. They died in the hospital on beds of pain before the flag was torn with shot and shell; on the battlefield in the fierce maddening charge; on the picket line under the leafy trees close to the babbling brook; in the prison-pen where no pitying voice was heard, and no hand reached out to save; in the swamps, returning from a fate worse than death; and some went down in the mighty deep where the wild waves lash ceaselessly over their bones. Many sleep in graves marked unknown, but the loving hearts and eager hands of a grateful people will cast flowers upon the soft green sward that covers their dust. Let the gates of all the cemeteries in the land open wide and their guardians render all the aid in their power in this noble work.

Comrades, a few short years fleeting swiftly by, and our children will be called upon to perform this duty. Let us so live that the lessons of Memorial day will be imprinted upon their hearts, and they will willingly take up the work where our palsied hands have left it, and perpetuate for all time to come the touching ceremony we have inaugurated.

By command of
PAUL VANDERVOORT,
Commander-in-Chief,
F. E. BROWN, Adjutant-General.

Head Quarters Department of New Hampshire, Grand Army of the Republic.

GENERAL ORDERS, NO. 4.

Fisherville, N. H., May 7, 1883.

1. In accordance with the Rules and Regulations of the Grand Army of the Republic, Wednesday, May 30, will be observed as Memorial Day.

It is expected that the Posts in the Department will comply with the recommendations embodied in General Orders, No. 10, National Head-quarters.

2. The clergy throughout the State are invited to hold a Memorial Service on Sunday, May 27. During the War efficient service was rendered the cause of national liberty by the loyal clergy of the land, and though we are now at peace it is believed that the day may be profitably spent in reviewing the lessons taught by the struggle and the sacrifices made to perpetuate the Union established by our fathers. In cities and towns where such services are held, Posts will attend in uniform.

3. COMRADES: As we fall into line to pay our annual tribute of love to those of our number who rest among their kindred, in the shadows of our granite hills, our thoughts will turn to the time when those over whose ashes we shall scatter the fresh spring flowers stood shoulder to shoulder with us, sharing our trials and dangers and inciting us to renewed exertion by their splendid devotion to our common country. Memory will fill the gaps which our line will show, and their familiar forms be with us as of yore. We may not hear their voices cheering our troubled hearts in times of trial, but we shall have to comfort us their noble example which speaks louder than words and the remembrance of which will serve to keep us steadfast in the path of duty.

It is well that from the rush and turmoil of our busy life we rest one day in the contemplation of the lofty patriotism, the heroic deeds, the unfaltering courage which marked the lives of our departed comrades, and the responsibilities devolving on us because of their devotion to our flag and country should sink deep into our hearts, chastened and softened by the tender memories of the day.

4. By vote of the Department Encampment the Memorial Day Report is dispensed with. Post Commanders will make every exertion to complete their record of graves as recommended by the Department Chaplain in his annual report.

5. In towns which are not visited by Posts of the G. A. R., it is hoped that the citizens will take action toward the proper observance of the day and that no veteran's grave shall lack the tribute of a grateful people.

By command of
JOHN C. LINEHAN,
Department Commander.

The best tonic medicine—one that is not composed mostly of alcohol or whiskey—is Brown's Iron Bitters. It is palatinted to be non-intoxicating and will absolutely kill all desire for whiskey and other intoxicants. It has been thoroughly tested and proven itself in every instance a never failing cure for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumptive disease, liver complaints, kidney troubles, etc.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Latest---As to Mary's Lamb.

Mary had a little lamb
its fleece was black as ink,
And Mary had dyspepia so
She couldn't sleep a wink.
She suffered both by night and day,
With pains and aches, until her
Kind friends suggested she should take
P. Davis's Pain Killer.
It quickly turned dyspepsia out
And made her good as new,
And just the way that Mary did,
Should all dyspeptics do.

"Thurlow Weed's Autobiography" is announced for early publication, by subscription, by Houghton, Mifflin & Co., of Boston. This can hardly fail to be a work of permanent value and of engrossing interest. Mr. Weed knew everybody worth knowing; he was a man of remarkable personal fascination, even for those whom in politics he opposed most energetically; he was the trusted adviser of presidents and governors; and his career was peculiarly American. From the autobiographical papers which he published from time to time we infer that his "Autobiography" will be strikingly rich in anecdotes and reminiscences of the growth of the country and of its public men. It must be every way an attractive work, and one for which agents will find ready purchasers.

From Ponkapog to Pesth: by Thomas Bailey Aldrich. Boston; Houghton, Mifflin & Co.; price $1.25. Sold by Mercer Goodrich.

Very many persons who have heard recently for the first time, through the pages of the *Atlantic Monthly*, of Ponkapog, have more or less information as to the Hungarian city of Pesth. But it is of neither extreme of his tour that the editor of the *Atlantic* informs us. It is of what he saw between these points that his book treats. It is of Naples and Rome, of travel and entertainment, with which he regales his reader. The book is written in Mr. Aldrich's attractively happy vein. It abounds in good things, bright ideas, and cleverly wrought description of men, places and things. In short, it is enjoyable throughout as much from prologue to page 267, as from Ponkapog to Pesth. Every one who has visited London will recognize the faithful pen portrait of Smith, and we read this chapter in Mr. Aldrich's book with renewed appreciation, for it is one of the gifted author's best sketches.

A team driven by a young man named Elmer Huse was capsized Saturday afternoon when turning from Wibird place into Union street, Huse and two women being thrown out; one of the latter was considerably injured, being caught under the carriage, which was badly damaged. The horse's bridle was seized by Mr. Willis E. Pinder before the animal had a chance to run, or the accident might have been worse

The *Times* of Saturday says that "in view of the evidently increasing favor with which a fireman's muster in our city has been received," it was decided at an informal conference of citizens on Friday to invite the foremen of the several engine companies to meet on Monday evening to discuss the matter. It also says that no doubt now exists that the silver-plate enterprise will be secured for Portsmouth.

Steamer "City of Portsmouth" has hauled up to the wharf near the foot of Deer street—which by the way ought to be designated "Steamboat wharf," or at least be named so that the people could know what wharf is meant when it is referred to. Capt. Beaumont went to York on Saturday to take soundings of the harbor near the Marshall house, and on other business connected with the steamer's landings at York.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodfjan9,84

In the pockets of the unknown man who was found dead in a shed at Saco on Wednesday morning, the 9th inst., were two letters in which he explained that he was out of work, in poor health, and had nothing to make life of value; but they contained no clue to his identity. Some boys saw the body lying where it was found, on the evening previous, but supposed the man was drunk. It was thought the deceased was Charles Smith, a native of Saco, but absent for the past eight years.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. BLOOD

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article put home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

135 HOWARD STREET,
LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,
(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

CATARRH A POSITIVE CURE IS ELY'S CREAM BALM FOR Catarrh & Hay Fever. Agreeable to Use UNEQUALED FOR COLDS IN THE HEAD Headache & Deafness, or any kind of mucous membranal irritations, inflamed and rough surfaces. A preparation of undoubted merit. Applied by the little finger into the nostrils. It will be absorbed, effectually cleansing the nasal passages of catarrhal virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. Will deliver by mail 60c a package—postage stamps. Sold by wholesale and retail druggists. THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WARD TWO VACANCY.

Ed. Chronicle: According to a statement in your paper of the eleventh inst., the selectmen of ward two refuse to call a meeting of the voters in the ward to choose a representative to fill a vacancy existing in that ward. What can be the reason for such a refusal? No one seems to know. One would suppose that they were, when requested respectfully to call such a meeting, either bound to do so or give a good reason for refusing. It seems the selectmen of that ward do not do either. The constitution of the state provides for the filling such vacancy in the same manner as the biennial elections are made. It is the duty of the selectmen to call a meeting biennially to elect representatives; why is it not equally their duty to call a meeting to fill a vacancy? But this matter can, with a little trouble, be made certain. If ten or more voters in the ward apply in writing to the selectmen to warn a meeting for the purpose of choosing a representative to fill such vacancy, the selectmen are bound to call a meeting or be subject to a penalty for neglecting so to do.

Many and very important questions are to come before the legislature in June next, some of which may be of considerable consequence to this city, and hence the importance that the city should be fully represented. Do not let it be said that our citizens are so indifferent and dead to everything that they will not take the trouble to have a meeting warned to fill this vacancy. If they are in such a soporific state, they do not deserve to have any legislation favorable to them, or to any enterprise they may rouse themselves up to start. Let an application to the selectmen be at once prepared, requesting them to warn a meeting of the voters to meet and fill the vacancy: there can be no doubt but that more than ten voters will readily sign it, and then the citizens of the ward ought to feel interested enough to attend the meeting and elect a good independent man to fill the vacancy.

E.

GOSSIPS SAY

That Plymouth, N. H., has its Langdon Park association as well as Portsmouth, and has also a Langdon park—better than Portsmouth's.

That the practice of mischievous boys in disfiguring fences with chalk, charcoal and crayon scratches, should be stopped, even if some boy has to be made an example of.

That a large flock of "yellow legs," sandbirds nearly the size of pigeons, were seen on the shores of the north millpond on Saturday last.

That two neat little fish markets have been opened in Newcastle to accommodate the demand which will be occasioned by the influx of summer boarders.

That in consequence of the establishing of the above-mentioned institutions, down-river fishing-parties will not return "skunked" hereafter, if they have the wherewithal in their pockets.

That a fine string of fifteen trout was brought in from York on the 11th inst. by an angler from this city.

That the affairs of the Portsmouth Shoe factory are in a more prosperous condition than ever before.

That stained glass sidelights are quite the thing for doorways in fashionable residences nowadays.

That Capt. Wm. O. Sides has sold his handsome driving horse to Mr. Amazeen, the stable keeper.

That Mr. Robert A. Stott, baggage-master on the Portsmouth & Dover railroad, having last week been made one of the railroad police, was presented by a number of his friends in this city with a suitable badge, said badge being three feet in diameter and made of the very best tin plate, and bearing in immense gilt letters the legend "Police E. R. R."

That if "Bob" ever charges on a delinquent passenger under cover of that badge, the fellow will immediately tender the payment of four or five fares, on condition of being allowed to live a little longer.

I. O. O. F.

The members of Piscataqua Lodge, No. 6, I. O. O. F., are requested to meet at Odd Fellows' hall on Monday at half-past one o'clock P. M., to attend the funeral of our deceased Bro. Alfred T. Joy. Members of sister lodges invited. Funeral from Court St. Church.

W. W. COTTON, Sec'y.

Commencing this week, the express freight train on the Concord & Portsmouth railroad will leave Manchester for this city at four o'clock A. M., and will leave Portsmouth for Manchester at 10:30 A. M., reaching that city at 1:30 P. M., giving quite a little time in Manchester before the afternoon passenger train starts for Portsmouth. One of these days perhaps the persons in charge of the Concord railroad may see that a mid-day train between Manchester and Portsmouth would not only be a great accommodation but would eventually prove remunerative to the railway; but perhaps a new generation must first be born. The idea of a town as large as Manchester being so poorly accommodated in the matter of train service is something which will make the inhabitants of the French capital of our state be induced to oppose consolidation of the lines up and down the Merrimack river.

Mr. George A. Moore, for several years past a baggage master on the Concord & Portsmouth railroad, was married to Miss Minnie E. Betton, daughter of Solon M. Betton, at the residence of the bride's parents on South street, Concord, on the evening of the 10th inst., Rev. L. G. Barrett of the Baptist church, Concord, officiating.

Freeman Peverly, whose obsequies occurred on Saturday, was well known as a manufacturer of birch, spruce and root beers, at his home on Water street, just beyond its junction with Newcastle street. He was one of the "old set," being in his 78th year at the time of his death; he went to California in the barque Martha, in '49, and before that went on a mahogany-cutting expedition to the bay of Honduras. He was a pleasant, companionable man and worthy citizen, and the flag was half-masted on the pole at Liberty bridge on Saturday, as a mark of respect to his memory. He leaves a widow, a son and two daughters.

A small audience attended the performance of Davy Crockett at Music hall on Saturday evening, but those who did attend were much pleased, though the play was "cut" somewhat. Saturday is a poor show night here, and probably many persons were kept away by the erroneous supposition that Davy Crockett is a play after the Buffalo Bill style.

Charles H. Mendum has for some time been engaged in laying a drain from his store on Congress street, up High street, to meet the sewer just beyond the corner of Ladd street; and Frank Jones is having a new drain laid direct from the billiard-hall entrance of the Rockingham house, on Warren street, to the corner of Chestnut street, which will give a fall of five feet, and much improve the drainage of the house. In both instances the hard blue ledge upon which this city was founded has had to be penetrated and removed by blasting. As we hear the muffled report of the blast on Warren street coming to our ears like a subdued perfunctory salute to some official entitled by the regulations to receive an incense of condemned powder at the navy yard, we are startled at the prospect of a local item, only to be reminded that it is the peaceful operations of the Sanitary Commission that we hear.

The schooners D. K. Ham, Capt. Garland, and G. W. Raitt, Capt. Coleman, with bricks for Boston, came down the river on Saturday; the schooner Sharon, Capt. Donnell, which went up the river on Thursday with a load of firewood, also came down on Saturday, Eght, and bound to York for another cargo of wood. The schooners Hattie Lewis, Capt. Brewster, and Triton, Capt. Freeman, arrived on Saturday from Boston, and proceeded up river to load. The schooner Satellite, Capt. Aderton, which went up on Thursday, came down on Sunday with a load for Boston, and sailed. Nearly all the large number of coasting vessels reported in the lower harbor on Thursday and Friday, got out of that on Saturday or early Sunday morning.

At the Concord railroad wharves on Saturday were three three-masted schooners, one with coal for Manchester, and one with gas coal for Concord. The new schooner Charles C. Dame, of Newburyport, was waiting her turn to discharge on Monday, her cargo being destined for Franklin. The C. C. D. brings 909 tons, and is one of the finest vessels of her class afloat; she cost five thousand dollars more than did the Annie F. Conlon of this port, which carries about the same cargo. The cabin of the C. C. Dame is roomy, with very high ceiling, and has every convenience. The cost of a vessel like her is about what our merchants and ship-owners paid for good-sized ships in former days. The freights are carried more speedily than were those of the merchant ships in times past. These very large schooners are well adapted to bringing coal to this port; here is plenty of water at all stages of tide, and with no danger of the vessel taking the ground while being discharged, no draw bridges by which crafts with great breadth of beam are apt to be chafed as well as delayed; but with good berths, quick despatch, and but a short distance from the ocean to the wharves, the masters regard this port as one of the best points of discharge for coal carriers.

The steamer Mystic was beached near her landing in Kittery on Friday, had her propellor secured, and was running her regular trips on Saturday.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. These who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single either require or wish to know but what is fully explained.—(London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures gray-ness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheadle, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves's celebrated physician has prepared a specific for all heart trouble and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

The Special Senses have been termed the "Five Gateways of Knowledge," from the fact that they receive and transmit to the brain impressions regarding surrounding objects thro' their nerves. The nose, or organ of smell, is a double-chambered cavity, lined with a mucous membrane, over which is spread numerous nerve filaments, branches of the olfactory nerves, for the reception of odoriferous impressions. Catarrh soon destroys the sense of smell, causes inflammation of the membrane, rapidly becomes offensive and culminates by becoming chronic. Ely's Cream Balm cures catarrh, no matter how long it has existed It is not a liquid or snuff. 50 cents.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

A despatch of May 10th from Halifax, N. S., is as follows: "Herbert W. Eaton, who some time ago shot and killed Mr. Kelly, his partner, and also wounded his own brother at Calais, Me., left Truro this afternoon for that place accompanied by City Marshal Smith of Calais, who had been with him during his illness, resulting from an attempt upon his own life by shooting while in a train. Mr. Eaton has almost completely recovered, but still suffers from the wound in his head and the unextracted bullet. He goes back voluntarily."

Joseph Mullett, who was indicted on May 2d for complicity in the attempt on the life of Juror Denis Field, was on the 10th placed on trial at Dublin, Ireland. He refused to plead to the indictment, giving as his reason that the comments of the English press had served to prejudice his case, and that he was already condemned, before trial; he also refused the assistance of counsel assigned to him by the court. The jury returned a verdict of guilty, and he was sentenced to penal servitude for life.

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

6 PER CENT GOLD BONDS

—OF THE—

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $46 000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650,00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1,000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcloths, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Latest---As to Mary's Lamb.

Mary had a little lamb
Its fleece was black as ink,
And Mary had dyspepsia so
She couldn't sleep a wink.
She suffered both by night and day,
With pains and aches, until her
Kind friends suggested she should take
P. Davis's Pain Killer.
It quickly turned dyspepsia out
And made her good as new,
And just the way that Mary did,
Should all dyspeptics do.

At a meeting of the directors of the New Hampshire State Agricultural society, held May 9th, a commission consisting of Hon. Warren Brown, Col. George W. Riddle and Hon. D. H. Goodell, was appointed to arrange with the directors of the New England society for holding the combined exhibitions of both societies at Manchester the coming autumn. Very liberal inducements have been offered by the state society, and there is little doubt but that both fairs will be held in this state.

Mr. A. D. Spalter, South Groton, N. H. says: I am entirely free from the effects of dyspepsia, since using Brown's Iron Bitters.

The Governor's Pass.

There is an unkind rumor to the purport that that excellent man, the governor of Massachusetts, while journeying between Boston and Providence in the service of Ex-Gov. Sprague of Rhode Island, so far forgot the details of his journey as to omit to purchase a ticket, and an innocent wink by the off eye was understood by the conductor to mean that he had a pass which he had left in one of the drawers of the bureau of charities, or some such place in the state house.

But this is a season of investigations, and some one investigated the governor's right to deadhead over the best line of rail leaving Boston, and it turned out that there was no pass in the hands of Benjamin.

Another version of the story is that when the counsel for the Washington Market Co. was at the navy department recently, Mr. Chandler shew him his passes for the Florida excursion, and told the governor that it was beneath the dignity of a public functionary to ride free over a railroad unless he had a pass, and as the dignity of office is just now asserting itself largely in the person of the Lowell candidate for the presidency, he owned up that he ought to have, and indeed had, a pass. He tried to make a conductor believe this recently, but investigation shew that the governor had overshot the mark. He paid his fare and was quite mad at being discovered in such an error, as he is commonly thought to be accurate in such matters.

"Poems by John Albee." New York: G. P. Putnam's Sons. Portsmouth; sold by Mercer Goodrich; pp. 212; price $1.50.

There are poets, and persons who write what they assert and perhaps believe to be poetry; and since now, as in the times of the ancient preacher, "of making many books there is no end," there is sometimes a way in which the publishers punish the reviewers by inflicting on them the perusal of works claiming to be poems. But this assertion cannot apply to the poet of the Jaffrey House, whose song comes to us like the spring notes of the birds, fresh, sweet and enjoyable. To many of our readers the poems of Mr. Albee are by no means unfamiliar.

The legend of Saint Aspenquid of Agamenticus is reprinted in this collection, as also the legends of Waltbach tower and "Bos'n Hill," at Newcastle. The entire collection is enjoyable. The reader does not skip about in search of something which attracts, but finds it on every page, and again returns to it with renewed zest. Were there nothing in this collection more touchingly beautiful than "Ralph's Love Story," that alone would suffice to stamp the volume as well worth a place amid the publications of our most celebrated poets. Those who are "Rich in those things that without cost are rich," Can afford to give to the world of their abundance, and the author who pens his lines beneath the roof where Cranfield lived two centuries ago, has gratified us beyond measure in giving us this most attractive and appreciable volume of his poems.

An American edition of that thrilling and extraordinary book, "Underground Russia: Revolutionary Profiles and Sketches from Life," the publication of which created so much excitement in England, will be issued immediately by Messrs. Charles Scribner's Sons. The author, who signs himself "Stepniak," the former editor of "Land and Liberty," is known as one of the leaders among the revolutionists. His story reads like wildest fiction, though so good an authority as Peter Larroff vouches for the writer as competent to set forth a true account of this great movement in Russia.

AROUND HOME.

A committee of the Roundabout Club of Melrose, Mass., visited this city on Saturday last, and inspected various places in and about the city with a view to arranging for the annual field day excursion of the club on June 17th. It is probable that the report of the committee will be adopted, and that the excursion will include a trip to this city and rambles about the place, a sail down and about the harbor in a steamer, the serving of the annual dinner at the Pepperell house, Kittery Point, and visits to the old mansions of Kittery and Newcastle in the afternoon. As usual, the club will be accompanied by invited guests.

The floating stages for the York beach steamboat landings, having been thoroughly repaired, came off the marine railway at Kittery on Monday. The work has been done by Mr. Warren Keen, who is also making a new tide-breaker for one of the drill-platforms belonging to Mr. Andrews, the government contractor.

A writer says that in years past many of the horses found in the stables of some of the beach houses at York have been bought from the horse-railroad companies in Boston. They are purchased some weeks before the season opens, and allowed to have a good rest, with good feeding and care, so that by the time the summer boarders begin to arrive they—the horses—are fat and sleek, and just right to let to the average summer boarder, being able to do a very fair day's travel, and also being very tame, and not given to running away or otherwise over-exerting themselves without cause. One boarding-house keeper last spring bought four of these railroad horses at $84 for the lot, and they answered his purpose just as well as though they had cost him $200 apiece.

On Thursday of last week Benjamin Dubois of Manchester, a train man on the Portsmouth & Concord road, fell from a train into a culvert, a distance of twenty-five feet, and landed on a rough pile of stones at the bottm. He was senseless for a long time, until a freight train came along; then by some sort of signal he halted it, as it was going very slow. Some of the men got down into the culvert, picked him up and took him to Manchester, where medical aid was had, and although he was found to be severely bruised and wrenched, no bones were broken, and he will recover.

The Eastern Maine railway, between Bangor and Bucksport, recently leased by the Maine Central railroad company, and now known as the Bucksport branch, was on Sunday widened to the standard gauge. A large crew of men were employed, and very quick work was done under the supervision of General Manager Tucker.

Naval Affairs.

It is stated that Commander Kellogg has applied to be relieved of the command of the Tallapoosa, he having been in charge of her over two years.

Lieut. Comdr. Albert S. Snow has been detached from the Boston navy yard, and placed on waiting orders.

Hon. Wm. E. Chandler has given to the *Traveller* his views of the evil results of consolidation; but he admits that his views on the question are entitled to no more consideration than those of many others.

A Strange and Startling Dream!!

Is There a Spirit World?

A remarkable dream or preternatural visitation recently occurred in Louisville, Ky.: Mr. V. E. Morers, a gentleman well and favorably known about town, on retiring for the night, feeling unwell and nervous was very restless in his sleep, but seemed to himself to be wide awake and in full control of his senses. A vision appeared in his dream showing him a large flaming number, commanding him to obtain it from the lottery and then vanished. The dream was so startling as to fully awaken him, and although one who never believed in lotteries or upheld them, yet try as he would he could not shake off the vision or forget the numbers which seemed to be burned in his brain. Finally he called at the office of the Consumowealth Distribution Co., and paying $1, asked for a ticket with the numbers of his dream on it. Fortunately the number was unsold and his ticket given him. The drawing was soon to come off and so nervous and excited had he become that, although against his principles, he determined to witness it, and strangely enough, he saw his number drawn from the wheel and the handsome prize of $5,000 was his. Was this dream by a coincidence? Who can tell? Next drawing takes place in Louisville, Ky., May 26th; 1,559 prizes, amounting to $112,400. Whole Tickets only $2. Address R. M. Boardman, Louisville, Ky.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 26th, 1883:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of *debris* placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be prosecuted according to ordinance with section 5, chapter 17 of the Ordinances.

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood has proven by the cures effected, provo it the best BLOOD PURIFICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes the blood, fires and enriches, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

135 HOWARD STREET, LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,
(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT--BATCHELDER, J.

MONDAY, May 14th.

Edward Clark, for drunkenness, was fined $8, costs $6.90. In default of payment he will board for the summer at the county farm.

William Morton was before the court on a charge of having been drunk; he signed the total abstinence pledge, and was allowed to go on probation.

THE SCHOOLS.

Mr. Editor: I notice that one of the sub-committees of the board of instruction invites friendly criticism to be made by taxpayers. The committee expend $839 for the care of rooms, most of which I infer is for salaried janitors. Now why not make it the duty of these janitors,—or if it is their duty, see that it is performed,— to have the steps and sidewalks in front of the school buildings swept occasionally, that school premises may compare with private residences as to cleanliness before their doors. The chairman and secretary receive liberal salaries, and the janitors good pay also. Do they do their whole duty?

Again, as to the cost of fuel. How are we to know whether wood or coal is more expensive? The cost of heating and care of each school room should be separately stated in the reports. It would seem that there should be some information in the published reports as to the cost of fuel, other than the amounts paid to the several dealers; the prices and everything that is of consequence, is omitted. Why not either say fuel $2028.-76, contingent $301.65, or else inform us for what the sums were paid, and perhaps omit certain other matters of less interest to the TAXPAYER.

GOSSIPS SAY

That a number of young ladies of this city took a sail seaward on Saturday, in the yacht of a gentleman of Kittery.

That the temperance meeting at Rev. Mr. Goss' church last Sunday evening filled the building to overflowing.

That a roller-skating carnival in Trefethen's hall at Kittery will be held some evening this week.

That owing to delay in procuring planks, Major Urch did not finish repairing the Newcastle bridges on Saturday last, and therefore they were not opened to the public on Monday, as had been intended.

That the owners of the Harding weir at the mouth of this harbor will put up on White island a small building for the purpose of storing boats and gear belonging to the company.

That Capt. Nat. Shackford of Lake Village, a "Son of Portsmouth," is visiting friends in this city.

That tourists pronounce the large elm tree on the Amazeen place, near the lower wharf in Newcastle, the most beautiful and symmetrical tree in New England.

That Hon. James W. Emery would in certain exigencies develope considerable strength as a candidate for United States senator, and that his election would be creditable to the state.

That a number of the largest tobacco manufacturers in the country have recommended Israel Kimball, chief of the tobacco division of the internal revenue department, to succeed Gen. Raum as commissioner of internal revenue.

That Dr. F. E. Potter of this city was registered in Washington on the 14th inst.

BURGLARY.

The grocery store of Mr. John L. Randall was entered by a thief or thieves on the night of the 3d inst., and small change and goods to the amount of $60 stolen. When the store was opened on the following morning the back door was found open, the front door being closed and locked; but it is not believed the back door was opened from the outside, the supposition being that the front door lock (an old-style affair, since then supplemented by a Yale lock,) was picked and the back door afterward opened as a "blind," or else that some one was concealed in the store at closing time.

INSTALLATION.

The following-named ladies and gentlemen were installed as officers of Morrill Lodge, No. 165, I. O. G. T., of North Kittery, Saturday evening, May 12th, by Rev. S. Littlefield, lodge deputy, assisted by District Templar Frank C. Eaton:

W. C. T., Isaac H. Lambert;
W. V. T., Lizzie J. Thomas;
W. S., Clarence Chick;
W. A. S., Mary L. Lambert;
W. F. S., Robert Amee;
W. T., O. E. Littlefield;
W. C., Annie M. Gerry;
W. M., Albert Cottle;
W. D. M., Hattie Keen;
W. R. S., Mrs. Alice Littlefield;
W. L. S., Hattie Cottle;
W. I. G., Sarah Welch;
W. O. G., Henry Blaney.

The lodge is announced to be in a healthy and growing condition.

Divers were on Monday examining the piles of the Noble's island bridge.

Officer Long on Sunday night found a seaman drunk on Market street, and took him on board the schooner Annie L. Mulford, to whose crew he belongs; the man was inclined to come on shore again, but had sense enough to understand the officer's threat to lock him up if he did, and apparently concluded to stay on board. Some time later the man tumbled overboard, and was rescued with much difficulty by Mr. Webster, watchman on the Concord railroad wharf; he was insensible when taken from the water, and was only revived after a quarter of an hour's constant work.

There will be a Ladies' Union prayer meeting this (Tuesday) afternoon at three o'clock in the Hanover street chapel; all interested in the cause are cordially invited. Mrs. H. L. Hastings, of Boston, is expected to be present and conduct the meeting.

Members of the G. A. R. intending to go to Dover this evening will be at Grand Army hall at 5:15 o'clock sharp, in full uniform.

Miss Salome Young tripped over a mat at the old ladies' home on Deer street, Monday morning, and her right elbow was dislocated by the fall. Doctors Folsom and Parsons set the limb.

We are assured by the business agent that "Davy Crockett" was not in the least "cut" on Saturday evening. He says: "Mr. Mayo is in every sense a just man, and always gives his audiences, large or small, the best he has, and always all he agrees to; on this occasion not only was every scene given, but not one word was omitted."

The cargo of the big schooner H. S. Williams, 1286 tons of coal, is for the Cocheco Manfg. Co. at Dover, and will be transported up the river by gondolas and scows.

Prof. Livesay, the champion roller-skater, will be at Franklin hall this evening, and perform scores of such tricks on the skates as have not before been seen here.

Mr. L. W. Marston, painter, and Mr. Gould Hunt, carpenter, of this city, are now working in Manchester.

Hon. Frank Jones left on Monday to attend the brewers' convention at Detroit, Mich.

John S. H. Frink, Esq., starts for a journey to New Orleans to-day.

The new steamship Normandie, of the French line, arrived in New York on Sunday last, having made the run from Havre in a little over eight days. Among the passengers were Mr. Alfred O. Larkin and wife, of this city.

John T. Raymond will appear at Music Hall on Thursday evening, May 24th, in his new play entitled "In Paradise."

The Dover *Democrat* says that George Woodward, a Portsmouth fish pedlar, arrived in that city on Thursday morning last with a quantity of fish, and soon disposed of the same. Then he went around to see men, and saw so many that at a late hour in the evening he was too bewildered to stand up, and was taken to the police station. In the police court on Friday he was ordered to pay $8.76, fine and costs.

Mr. Alfred T. Joy, late of Packer's Falls, Durham, whose funeral took place from the Court street Christian church in this city on Monday afternoon, was for many years a respected resident of this city, having learned the cabinet maker's trade as an apprentice of the late Langley Boardman, and afterward for thirty years or more carried on that business in the second and third stories of the building on Market street lately occupied by Dennis J. Lynch as a grocery store. He served the city as a representative in the legislature for two terms, and for a number of years as chief engineer of the fire department; was a member and officer of the Mechanics' association, and one of the oldest members of Piscataqua Lodge of Odd Fellows. The immediate cause of his death was pneumonia, aggravated by a disease of the heart with which he had been troubled for several years; he caught a severe cold at the burning of the buildings belonging to Mrs. Francis of Packer's Falls on the night of the 3d inst., and never recovered. He leaves a wife, one son, (Mr. Gardner T. Joy of this city,) and two daughters, the elder of whom is the wife of Capt. Charles C. Ricker, now of Buffalo, N. Y. His age was nearly seventy-six years.

Hon. Daniel Marcy has arrived home from New Orleans.

The Rockingham County Sunday School association will hold its eighth annual session in this city next Wednesday. The exercises will commence at the North church at 10 A. M. There will be a collation for the delegates at the Universalist chapel; and refreshments are solicited, to be sent to that place before 10 A. M. Wednesday.

Mr. Daniel E. Hanley, a machinist, will leave this city for Minneapolis, Minn., in a short time.

Mr. Jeff. Lewis, of Kittery, has already planted 15,000 hills of potatoes, and will plant 20,000 in all before he gets through.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 128.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE: OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE: OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR **HEART SOUND?**

Many people think themselves sick and doctor for Kidney or liver troubles, or dyspepsia, while the truth were known, sits real cause is at the heart.

The renowned Dr. Cheadle, startlingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have some attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

The Irish Troubles.

"Who are Sheridan, Walsh and Tynnan?" is a very common question nowadays. Patrick J. Sheridan is the man who was charged by informer Carey with having furnished the knives with which the Phenix park murders were committed; he is in New York, and is on the staff of the *Irish World* newspaper. John Walsh was charged by Carey with being the originator of the "Invincibles," or murder societies; he was arrested in France, but the French government refused to extradite him; he arrived in New York on the 18th of April, and is there now. Peter Tynan is said to be identical with "Number One," who supplied the Invincibles with the money needed to carry out their murderous schemes; he was only known to the conspirators as "Number One," but Carey has identified a photograph of Tynan as being a likeness of the mysterious leader. He also is said to be in this country, but his exact location has not been made public.

Joseph Brady was hanged in the jail yard at Kilmainhan on the 14th inst., in the presence of the prison officials only. He was condemned for the murder of Lord Frederick Cavendish and Under Secretary Burke, in Phenix park, Dublin, on the sixth of May, 1882; according to the evidence of Carey he was the actual murderer, and it is asserted that he was the only one of the entire number of "Invincibles" arrested in connection with the crime, who did not offer to "inform." He was one of a remarkable family, his parents being not yet sixty years old, though they have twenty-five children—five sons and twenty daughters.

Poor But Honest.

Charlie Sullivan is a poor but honest Irish lad, who, while walking down Washington street, found a wallet containing checks and money to the value of several hundred dollars. Although almost destitute, he returned it to its owners, Messrs. A. P. Ordway & Co., proprietors of Sulphur Bitters, who gave him a liberal reward, and also gave him six bottles of Sulphur Bitters for his mother, who has been a terrible sufferer with rheumatism, and who returned many blessings after being cured by their use.—*Weekly World.*

Seven negroes and two white men, thieves, were publicly whipped at Newcastle, Del., on the 12th inst.

Harvey N. Follansbee, the defaulting treasurer of the Police Relief association of Boston, has been sentenced to seven years in the state prison.

Andy Taylor, one of a family of notorious murderers, has been condemned to death at Chattenoogs, Tenn., for the murder of Sheriff Cate.

SILVER CREEK, N. Y., Feb. 6, 1880.

GENTS—I have been very low, and have tried everything to no advantage. I heard your Hop Bitters recommended by so many, I concluded to give them a trial. I did, and now am around, and constantly improving, and am nearly as strong as ever. W. H WHELLER.

C. H. J. Miller, an undertaker, and Wm. Baschorn, a brewer, of Chicago, fought a duel about a girl on the 10th inst. Broad-swords were used, and the undertaker gave in after getting severely cut about the head.

Your health depends on the purity of your blood. People who realize this are taking Hood's Sarsaparilla with the best results.

Amasa, Stone of Cleveland, Ohio, a millionaire, and founder of Adelbert college, shot himself in his bath on the 11th inst. He had been in ill-health.

Dr. J. N. Armstrong, Ottumwa. Ia., says: I have used Brown's Iron Bitters in my family and recommend its use to others.

A young girl was assaulted on the railroad track in Andover, Mass., on the afternoon of the 11th inst., by a young man, but her screams attracted four farm hands, and the assailant ran away. He was pursued, and when cornered drew a revolver, but was captured and locked up.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name and acts like or imitate the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidney, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

NO USE FOR THEM.

Concerning Certain Relics of the Past—Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and efficacious remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout,** and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness,** and **General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians to prescribe it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

SPRING MEDICINE.

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of brocades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief, Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Latest---As to Mary's Lamb.

Mary had a little lamb
Its fleece was black as ink,
And Mary had dyspepsia so
She couldn't sleep a wink.

She suffered both by night and day,
With pains and aches, until her
Kind friends suggested she should take
P. Davis's Pain Killer.

It quickly turned dyspepsia out
And made her good as new,
And just the way that Mary did,
Should all dyspeptics do.

In speaking of Governor Butler's little difficulty with the Boston & Providence railroad conductor the other day, when the governor, though he claimed to hold a pass, was obliged by the conductor to pay full fare because the pass was not produced, the Boston *Advertiser* says: "We learn from officers of the railroad that although Governor Buttler has before assumed to have a pass, and on that assumption has travelled free over the Boston & Providence railroad, the fact is that his excellency is mistaken, and that he has not and never had a pass over that road."

The Irish Troubles.

The document sent by the vatican to the bishops in Ireland, relative to the Irish agitation, in referring to the fund being raised for Mr. Parnell, says it is intolerable that a priest (much more a bishop) should promote such objects. The document condemns all collections which may be employed as a means of exciting rebellion against laws.

Brady, the "Invincible" executed on the 14th inst. for the Phenix park murders, met his fate with remarkable firmness, and with an entire absence of bravado. He made no confession or statement of any kind.

News and Notes.

In the district court at Virginia City, Nev., Saturday, a decree of divorce was granted Theresa Fair from Senator James G. Fair, on a charge of adultery. The plaintiff was allowed $250,000 in money and United States bonds, the family residence in San Francisco, and also custody of three minor children, Virginia Theresa, Alice and Charley. The custody of the eldest boy, James Fair, Jr., was awarded to the defendant.

Albert Baker was arrested May 14th at North Adams, Mass., for stealing a horse belonging to Mr. Potter of Lanesboro, on Feb. 14th, and will be tried next week.

Biddy Cahill, a somewhat notorious character of East Hampton, Mass., was found dead in her house May 13th, and there are suspicions of foul play. Paris green was found on her face and on the bed, but an autopsy discovered none in her stomach, while there were bruises on her body.

Henry E. Hudson, a spiritualist newspaper writer and amateur poet, has been held in $2,800 before the grand jury at North Adams, Mass., for robbing Ingalls' house of jewelry recently, and for having in his possession a complete set of burglars' tools. J. Fred Metcalf, his partner, was held in the same amount. Metcalf is twenty-four years old, and except nine months has been in jail continuously since he was seventeen years old. He served eighteen months for larceny in Northampton, and five years in Springfield for burglary. Hudson has robbed several places in North Adams.

Mrs. E. L. Stoddard, aged thirty-three years, wife of the rector of St. John's church on Summit avenue, Jersey City, in dusting a closet shelf on the 14th inst. knocked down a revolver, which was fired off by striking a lower shelf, the bullet entering her head and killing her almost instantly. She was an active member of the society, and leader of the church choir, being a fine soprano singer. The church of which Mr. Stoddard is rector is said to be "the most aristocratic one in Jersey City."

John L. Sullivan, the Boston bruiser, and Charles Mitchell, the so-called British champion, had a pounding-match with soft gloves in the Madison square garden at New York on the evening of the 14th inst., Sullivan winning easily in three rounds. Tickets of admission were one and two dollars, and fully 10,000 persons were in the building. The receipts amounted to $15,000 or $17,000, of which Sullivan (as winner of the contest) takes sixty per cent, and Mitchell forty per cent. Roscoe Conkling and Charles A. Dana occupied front seats.

Seven persons were killed and many injured by a collision on the railroad between London and Glasgow, on the night of the 14th inst.

Mr. James F. Meline, late chief bookkeeper in the office of the United States treasurer, has been promoted to be chief clerk, in place of Charles Lyman, resigned to take the position of chief examiner under the civil service commission.

The schooner Jefferson Borden, Patterson master, which has for years been notorious for rows, again got into trouble on the 14th inst., when in going up Charles river, Mass., the mate, Hartley S. Dodge, struck a seaman named Peter Benson in the face with a topmaul, severely injuring him. Dodge was arrested.

AROUND HOME.

The steamer Mystic went on the marine railway at Kittery on Tuesday, the 15th inst., to be cleaned and painted, to have extra bolts put through the bottom for securing the engine, and to have her propeller additionally fastened, so as to obviate any possibility of its again getting loose.

According to a published list, the following-named postoffices in York county were established prior to the year 1800: Wells, established Dec. 20th, 1791; Saco, July 31st, 1792; York, March 20th, 1793; Waterbury, (Waterboro',) Jan. 1st, 1796; Berwick, (South Berwick,) April 1st, 1796; Sanford, Shapleigh, July 1st, 1796; Doughty's Falls, (North Berwick,) Oct. 1st, 1796; Limerick, Parsonsfield, Buxton, Jan. 1st, 1798; Lebanon, April 1st, 1798. The first postmaster in Maine was Samuel Freeman, of Falmouth, appointed in 1776, who continued in office until July, 1804. He was the father of Rev. Charles Freeman, the second Congregational minister settled in Limerick, and of Wm. Freeman, who traded and practiced law there sixty years ago, but subsequently moved to Cherryfield, where he died a few years since at a great age.

The York Institute at Saco has succeeded in procuring likenesses to place upon its walls of all the representatives to Congress from the 1st Maine district, from the adoption of the federal constitution to the present time, (with but one exception, that of the late Joseph Dane of Kennebunk, of whom no painting or likeness of any description was ever taken,) as follows: George Thacher, Richard Cutts, Cyrus King, John Holmes, William Burleigh, Rufus McIntire, John Fairfield, Nathan Clifford, Joshua Herrick, John F. Scammon, David Hammons, Elbridge Gerry, Moses McDonald, John M. Wood, Daniel S. Somes, John N. Goodwin, Lorenzo D. M. Sweet, John Lynch, John H. Burleigh, and Thomas B. Reed.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Mrs. Polly (Dearborn) Neal, widow of Joseph C. Neal, died in Hampton on Tuesday, the 8th inst., in her 93d year. She was the only child of Col. John Dearborn, an officer in the Revolution. The husband of the deceased was a brother of Rev. James Armstrong Neal of Greenland and Hon. Moses L. Neal of Dover, and uncle of Joseph C. Neal of Philadelphia, author of "Charcoal Sketches." Mrs. Neal was the aunt of Sir Edward Neal of London. She was a lady of great personal worth, and retained her faculties until the last.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 26th, 1883:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of debris placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be proceeded against in consonance with section 6, chapter 17 of the Ordinances.

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of Hood's SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WARD TWO VACANCY.

Mr. Editor: As I have before intimated in your columns, a petition has already been presented to the selectmen of the ward asking them to call a meeting of the inhabitants for the purpose of filling the vacancy, and that they decline to do it. My authority for the last statement is the first petitioner, who told me that he had been so informed by the chairman of the selectmen. The petition was signed by about eighteen persons, all well known and respectable voters in the ward. The number might have been increased almost indefinitely, for no person who was asked hesitated to sign it, as the chairman was informed.

Now as to the right of the people to fill this vacancy, I am told that the precedents are numerous. But I only know of two—both in this city—one in Ward Two in 1855, and in Ward One in 1872. Both these vacancies were filled by Mr. James W. Emery, and he was admitted to the House on both occasions without a question. Mr. Emery has told me that he knew a vacancy which occurred through the death of a member after the close of the June session to be filled before the November session commenced, and the newly elected member took his seat without question.

Indeed, there is no question except that some invisible power has raised doubts in the minds of the selectmen for a purpose. If the people can be permitted, they will be happy to elect a member and run the risk of seating him. B.

SUNDAY SCHOOL ASSOCIATION.

The following is the programme of exercises at the eighth annual session of the Rockingham County Sunday School Association, at the North church in this city on Wednesday, May 16th:

Ten o'clock A. M., Devotional exercises, conducted by Rev. H. E. Hovey.

10:15, Words of welcome, by Rev. W. A. McGinley.

10:20, Address by Rev. C. L. Plumer of Kittery, Me., on "The importance of the presence and help of adult church members; how best obtained."

10:40, Business—appointment of committees, etc., and report of secretary.

11:15, Address by Mrs. Emily L. McLaughlin of South Boston, Mass., on "The duty of Sunday school workers in the cause of temperance."

11:45, Sermon by Rev. J. T. Beckley of Newburyport, Mass.

12:30, Adjourn for dinner.

1:45, Service of prayer and praise.

2:00, Address, "How to teach the lesson," by Rev. S. Baker of Lowell, Mass.

2:25, Address by Rev. J. E. Robins on "Memorizing scripture; how best effected, and its advantages."

2:45, Business—reports of committees, and choice of officers.

3:00, Essay by Rev. Gilbert Balch of Kingston, on "The spiritual life the foundation of Sunday school success."

3:30, Topic "How shall we do more effective Sunday school work?" by Rev. A. L. Rice of South Newmarket, and Rev. A. S. Stowell of Derry. To be followed by general discussion of the above topic.

4:15, Address by Rev. Smith Baker; subject, "The consecrated teacher."

5:00, Closing remarks by Rev. W. H. Alden, D. D.

POLICE COURT--BATCHELDER, J.

TUESDAY, May 15th.

Henry Moulton, for drunkenness, was fined $5, costs $6.90, which he paid.

MEMORIAL DAY.

The general committee met on Tuesday evening, with Col. Sise in the chair. City Marshal Entwistle, of the finance committee, reported the subscription of $165 on the paper circulated by him; two other papers, in the hands of equally energetic collectors, were not reported on. It was stated that Miss Flora Hayes, of Kittery, will be the chief singer at the evening exercises.

GOSSIPS SAY

That Ex-Senator Wadleigh was in town on Tuesday last.

That Mr. John F. Shillaber will shortly take a trip to the Hot Springs of Arkansas.

That while sawing limbs from an apple tree on the Gray estate on Vaughan street, Monday evening, Mr. Willmore Twombly fell to the ground, a distance of twenty feet, happily without injury.

That an out-of-town artist is making a bird's-eye sketch of the Jones brewery and surroundings, presumably for an illustratek paper.

That Rev. Charles B. Pitblado, formerly of this city, has been appointed by Bishop Simpson to a Methodist church in Providence, R. I.

CITY OF PORTSMOUTH.

(CHAPTER 101.)

An ordinance making appropriations for the year 1883.

Be it ordained by the City Councils as follows:

There shall be raised, and is hereby ordered to be raised, on the polls and estates of the inhabitants of this City, and non-residents, to pay the current expenses of the City for the year ending December 31, 1883, and to pay such debts of the City as are required to be paid the current year, the sum of one hundred and eighteen thousand dollars, which with the sums to be received from the railroad and savings bank taxes, and other income of the City, shall be appropriated as follows:

Collector's Commissions	750
Discounts on Taxes	6,000
For the purchase of a new Hook and Ladder Carriage	1,000
For the abatement of North Pond nuisance	1,000

And be it further ordained that there shall be in like manner raised in accordance with the provisions of the ordinance of October 5, 1882, providing for a temporary loan to meet the deficiencies in the appropriations of the year 1882, and of November 16, 1882, "to raise and appropriate certain sums of money for the payment of a judgment against the city and otherwise," the following recited additional sums as hereinafter designated, to wit:

Streets	$1,000
Police	300
Street Lights	1,000
Roads out of compact part of the City	500
Sewers	500
Sidewalks	500
Contingent	1,000

For the payment of a judgment against the City by Marian E. Odiorne of Rye, N. H.	967.39
For the settlement of suits arising out of the extension of Vaughan street	200

PASSED May 10, 1883.

ALBERT R. JUNKINS,
President Common Council.

JOHN S. TREAT, Mayor.

Mr. Fred L. Ham, who some time ago went from this city to Philadelphia on one of the steam colliers, has returned, and resumed his duties as clerk for Mr. J. Albert Walker. Mr. Ham came as far as Boston by the steamer Centipede, on his return.

At the regular meeting of the board of aldermen of Boston, on Monday last, James W. Ricker, formerly of this city, was unanimously elected city collector for the ensuing year.

The city safe which for a long time has been on the second floor of the city building, has been transferred to the lower story, where the collector and some other officials are to have their offices.

An informal meeting held at the Gibson house on Monday evening to talk over the feasibility of a fireman's muster, which it has been suggested be held in this city this year, was attended by a considerable number of firemen, all the companies being represented. The citizens and firemen present were quite enthusiastic, and a resolution was adopted recommending that the several companies hold meetings on the evening of the 21st inst., to outline a programme and take such other action as may seem proper. It was reported that many citizens had volunteered material aid in case the muster should be decided on.

The Newmarket *Advertiser* says: "We think it is about time Gen. Marston's tramp law should be enforced again. New Hampshire has been pretty free from them since that law was passed, but lately they appear to be crawling this way again. Several of this species have passed through this town lately, calling at the houses for food."

Mr. D. J. Lynch on Tuesday moved from this city to Boston, where he has gone into business as a member of the firm of Farrell & Co., wholesale liquor dealers at Nos. 9 and 10 Charlestown street.

Rev. Hugh Montgomery, formerly settled in Greenland, but now and for five years or more past a resident of Norwich, Conn., is noted in the latter place as a temperance worker of the most aggressive "legal suasion" variety. He recently brought a complaint against one Russell for violation of the liquor law, relying on the testimony of one John Ryan, who worked for Russell; but when Ryan was brought before the state attorney he refused to testify, and gave Mr. Montgomery the lie direct as to what he had previously said. Then the two men had a little fight, and were before the court next day for breaking the peace, Mr. Montgomery being discharged at once, and Ryan fined $30 and costs.

A large delegation from Storer Post, G. A. R., went to Dover on Tuesday evening, accompanied by Capt. Nat. Shackford, the occasion being the reorganization of the post in Dover. Department Commander John C. Linehan came back with the boys, to attend the examination of Storer Post.

The Concord railroad on Monday received from the Manchester Locomotive Works a new shifting engine named the "Portsmouth."

The trustees of the New England Agricultural society have decided to hold the next fair at Manchester.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

THE untold miseries that result from ineffective or improper treatment, or from no treatment at all, when a cure might be effected and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 50; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensively read work on Physiology ever published. Ten times nothing what ever that the married or single either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can have much time, suffering and expense by reading the Science of Life, or consulting the Author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

Now IS YOUR HEART SOUND?

Many people think themselves sick and look for liver or kidney or lung trouble, or dyspepsia, while it is much worse, the real cause being in the heart.

The renowned Dr. Cheatham, startlingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's nine-pound of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred diseases. It is known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

The Greatest Mess.

A Boston clergyman claims to have found in the Bible a prophetic reference to Gov. Butler's capacity for meddling things: "And Benjamin's mess was five times as much as any of theirs."—*Commercial Advertiser.*

There doesn't seem to be much prospect that Kentucky can get out from under bourbon rule this year.—*Washington Republican.*

Of what consequence would be Kentucky, without her Bourbon? It would be almost unknown, except for an occasional murder by a congressman, or some such occurrence.

A pure, wholesome distillation of witch hazel, American pine, Canada fir, marigold, clover blossoms, etc., fragrant with the healing essences of balsam and pine. Such is Sanford's Radical Cure for catarrh. Complete treatment for $1.

Herbert L. Rogers, of the firm of Rogers, Smith & Co., furniture dealers of Plymouth, has disappeared, and his whereabouts is unknown; he raised considerable money in the name of the firm. The total liabilities are supposed to be about $5,000, and the stock in the store about the same amount. The principal creditors are the Ashland savings bank, and Rogers' partner, father, grandfather and uncle.

Parents who allow their children to grow up with scrofulous humors bursting from every pore are guilty of a great wrong. Think of them pointed out as branded with a loathsome disease, and you will readily procure them the Cuticura Remedies.

Charles Merrill's buildings in New Hampton were burned by an incendiary fire on the night of May 13th; loss $1000, with no insurance.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

A young man supposed to be John Prior of Gilsum, N. H., shot himself twice in the street in Providence, R. I., May 14th; he may recover.

It is reported that Gen. Patterson and forty officers of the New Hampshire national guard will be present at the military review in Montreal on May 24th, the queen's birthday, for which preparations are now being made.

Dr. J. N. Armstrong, Ottumwa, Ia., says: I have used Brown's Iron Bitters in my family and recommend its use to others.

Katie Judd, now at the Rhode Island state prison, is apparently determined to regain her liberty. By the aid of an old case knife she worked upon the bars of her cell at night, and when discovered she had two of the bars nearly severed. She was at once placed in solitary confinement, and all her liberties and privileges curtailed. She was greatly chagrined to find that she was foiled, and gave the officials a good deal of trouble immediately after the discovery.

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

THE

6 PER CENT GOLD BONDS

OF THE

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paidin the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the south and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $300,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $680.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $100 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know Its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcades, Scotch plaids and broadcloths.

"I feel sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

An Infusion of "Young Blood."

Washington advices say the Grand Army of the Republic has declared war against the new superintendent of police and a majority of the commissioners of the District of Columbia, on the ground that Union soldiers have been dismissed and ex-confederates appointed in the police department. They have adopted resolutions denouncing the appointments, and purpose to present the matter to the President and Congress. The law requiring appointments on the police force to be made from able-bodied ex-soldiers and sailors of the Union is very clear; but the last Congress passed a supplementary law allowing the appointment of six men who were not war veterans, the commissioners urging this on the ground that they could not otherwise engraft any "young blood" on the force. Under this act two men have been appointed; Mr. Cox, an ex-confederate officer sixty-two years old, who is now chief detective, and Mr. Cummins, sixty years old, who is to be captain and inspector—a pair of very "young bloods" indeed. Cummins was a lieutenant in the National Rifles, a company that went out to the war ostensibly as a part of the Union army, but which signalized its advent into the southern states by going over bodily to the confederacy, where it was afterwards known as the "Beauregard Rifles." Cummins' application was endorsed by Gen. Beauregard, Gen. Joe Johnson and Senator Randall Gibson. The latter's letter contained the following sentence, which it was probably thought would have a good effect upon the discipline of a force composed exclusively of ex-soldiers and sailors of the Union: "He was one of the most valiant officers of the 'lost cause.'"

News and Notes.

The toll for foot passengers over the Brooklyn bridge has been fixed at one cent each.

Dr. W. C. Fox of Hoosac, Mass., is held for the alleged stealing of the body of Michael Gorey of North Adams.

A western man, widely known as a protectionist, has challenged Prof. Sumner of Yale college to discuss the tariff question in New Haven, before an audience of Yale students and the public.

Sullivan, the Boston bruiser, says that he never will have another fist fight with anyone, and that he is to open a saloon in Boston in June. Philadelphia sporting men won $6,000 on Sullivan's glove fight with Mitchell.

Five young train robbers were brought to court in New York on the 15th inst., charged with breaking into a freight car of the New York Central & Hudson River railroad early that morning. They detached the last car from the train, left it standing on the track, and robbed it of cloth and other merchandise.

Joe Coburn, the prize fighter, some time since applied to the excise commissioners of New York for a license to keep a liquor saloon; on the 15th inst. the commissioners refused to grant him a license on the score of his general reputation.

Books, Magazines, etc

"The Granite Monthly" for May has a sketch of Col. Daniel Hall of Dover, written by Dr. A. H. Quint. When a writer of the sketch of Wm. E. Chandler in a recent number of the G. M. began his paper with the remark "the time to write the life of Mr. Chandler has not arrived," he builded better than he knew. Sketches of living men in this periodical too often abound in complimentary allusions which would be better in a posthumou memoir. The doctor says that Daniel attends the church of his father, the First Congregational in Dover. In this connection we cannot forbear giving the good story upon the colonel, without which his biography would be incomplete. He is far from being a full blown Calvanist in his religious views. Indeed, he has always claimed to be a Liberal. When Rev. Mr. Mellen, the pastor of the Unitarian church, was settled in Dover, Col. Hall on being introduced to him, after the usual pleasant things he is capable of uttering, said: "Mr. Mellen, I am a Unitarian, but I attend Dr. Spalding's church." The new pastor quickly saw it, and went one better. "Col. Hall," said he, "I am a republican, but I vote the democratic ticket!" "But let that pass."

Mr. Tullock gives a second installment of Methodism in Portsmouth, and throws a mantle of charity over the history of John Newland Maffit, once a preacher of this town. "*De mortuis nil nisi bonum*," is always a safe guard in these matters.

Memoirs of the late Prof. John S. Woodman and the late Wm. B. Small, and a sketch of James E. Joy of Detroit, a native of Durham, serve to make up the remaining articles in this number.

"American Statesmen: Thomas Jefferson." Of the series of biographies of men conspicuous in the political history of the United States is the life of Jefferson by John T. Morse, Jr., who edits the series, and who has before given us the life of John Quincy Adams. In this volume we have some account of the youth of Mr. Jefferson, his service in the House of Burgesses in Virginia, his congressional career, his governorship and his political positions as minister to France, secretary of state, vice president and president, and in his private after life. These biographies, as we have before remarked, are written not simply as sketches of the eminent men in our past political history, but to indicate the lines of political thought and development in our country's history. We regard the publication of these biographies as timely and valuable, not only for those who have been in more or less degree familiar with our political growth, but they are of essential benefit to the younger portion of our population, who can thus obtain in a succint form a candid and impartial account of the men and measures which have in times past been so much discussed by our ancestors. In these books are digested a large amount of valuable historic information, and the series will form one of the most interesting additions to the libraries of the future. With Mr. Morse's volumes the general opinion is that the reader too speedily reaches the end of the book, while it is conceded that nothing is omitted which a candid and discriminating biographer ought to produce. The price of each volume is $1.25. Published by Houghton, Mifflin & Co. of Boston, and sold by M. Goodrich in this city.

"The Art Amateur" for May contains some excellent simple designs for wood carving from the Cincinnati School of Design, together with the first of a series of articles on "Practical Wood Carving for Amateurs," by Calista Halsey Patchin; some attractive South Kensington embroidery designs, a page of monograms in "B," and illustrated articles of much interest on the decorations of the Cornelius Vanderbilt house, on the costumes and jewelry worn at the Vanderbilt ball, on charcoal drawing, etc. Other articles of special practical value are those on portrait drapery, flower painting in water colors, mural decoration, and embroidery in gold and silver. The May number concludes the fourth year of the Art Amateur, and the index for the last twelve months gives a vivid picture of the wealth of designs and instruction contained in this magazine. Price; $4; single numbers, 35 cents. Montague Marks, publisher, 23 Union square, New York.

The returns of the assessors show some 2,500 taxable liquor saloons in Cincinnati, whose aggregate tax will reach nearly $500,000.

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. BLOOD

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT--BATCHELDER, J.

WEDNESDAY, May 16th.

John Mulchey, a marine, for drunkenness, was fined $3, costs $6.90.

John Hickey, for drunkenness, was assessed $9.90; county farm in default of payment.

Artie Barney, for drunkenness, was sentenced to thirty days at the county farm, and to pay $6.90 costs.

A REASONABLE COMPLAINT.

Mr Editor: In behalf of many persons who pass by the Middle street church, I beg to enter a public protest against a repetition of the outrage upon decency committed by someone connected with the cellar of the building on Monday. The ashes from the furnace chimney were taken and sifted in the public street through an upright sifter, the ashes blowing in clouds over the passers-by! Then the heap was suffered to remain over twenty-four hours in the street, in direct violation of the mayor's recent announcement of the aldermen's order of a few weeks since. The pile was a dangerous obstruction, which might have cost the city a round sum had any accident occurred in consequence of its being left there. But to sift a winter's supply of ashes in one of our most public thoroughfares in an open sifter which sheds a coat of dust on everything around, is a violation of law which should receive attention from the authorities. I fear that some of the remarks made in regard to this affair will cause a greater set-back to religious growth than all the preaching within the walls can cure in a twelve-month. DUST.

THE VACANCY IN THE LEGISLATURE.

Mr. Editor: It would seem as if your correspondents who discuss the representative vacancy in ward two of this city were either tyros in local politics, or else purposely conceal the knowledge of the causes which prevent the filling of the vacancy by a new election.

It is a well known fact that the political rule of the ward in question is given over entirely to the control of the power which rules the navy yard and directs the distribution of patronage at that spot. The selectmen of course recognize this fact. Is it to be supposed that they do not?

That power was not quite sure as to the late representative-elect, upon certain railroad and senatorial questions. It is satisfied with the two members-elect, but does not care to take the chances on a new man, whom there might not be time to instruct as to what is required of him.

The grim joke about an "independent representative" being chosen is too ancient. The time for that long since passed. As long as the navy yard is to be controlled by the "Boss system" there will be no independent representative elected from Portsmouth on the republican ticket; and your correspondents, who seem to be well informed upon the legal points in this connection, can now learn —if they did not before know—why the selectmen do not issue a warrant to elect a representative to fill a vacancy.

The powers that be do not want this done. This is all there is to it. G.

A POSTAL IMPROVEMENT.

As far as our mail facilities were concerned, Exeter has been one of the remote and inaccessible places of the earth. The only mail was the morning mail, which left Portsmouth at 7:55 A. M., remained till towards noon at Newmarket junction, and arrived at Exeter after the inhabitant of that flourishing centre of learning had obtained his morning mail, and was preparing for his noon repast. Postmaster Peirce informs us that a second closed mail leaves his office at a little before five P. M., and goes direct to Exeter, reaching that town shortly before six o'clock. This gives us two mails a day to the county seat, one of them being a direct mail, which has long been needed.

THE CIVIL SERVICE.

We learn that the secretary of the treasury has communicated to Collector Howard, the custodian of the United States custom-house building in this city, the third rule promulgated by the president for the regulation and improvement of the executive civil service, which relates to providing in the public buildings suitable rooms for examination of candidates for office, etc. The collector will probably select the United States court room for this purpose, to be used when the courts are not in session. Whether such examination is to apply to officers now in the service, as has been contended by many, or only to applicants for vacant places, it is not stated. The members of the board in this state have not been named.

THE REUNION OF '83.

The general committee on the Reunion of the Sons had a meeting in the city rooms on Wednesday evening, the 16th inst. Chairman Stavers, of the committee on finance, reported that the committee had two plans to propose; one, to circulate subscription papers for raising the necessary funds; the other to circulate among the citizens for signature a petition to the city government, asking the appropriation of a sum not to exceed $3000, for the purposes of the reunion. On a vote, it was decided to adopt the latter plan, and an adjournment was taken to Friday evening, May 25th.

GOSSIPS SAY

That the fare on the Kittery Point steamer will be raised to fifteen cents in June.

That nine carloads of molasses arrived at the Eastern railroad station in this city this week, consigned to one Portsmouth firm.

That the Grand Army boys went to Dover thirty strong on the evening of Tuesday; the 15th inst., had a royal good time, were treated to a collation by the Dover comrades, and arrived home at three o'clock A. M. on Wednesday.

That Department Commander Linnehan is a splendid story teller, and the best Irish linguist in the state.

That Storer Post had a hundred men in line at the inspection on Wednesday evening, the 16th, and received high compliments for their appearance, from the department officers present.

That the Sunday school convention on the 16th brought into town over three hundred strangers, who were entertained at noon with a collation in the Universalist vestry.

That the Marine Bicycle Co. have received another order from Australia, for one of their machines.

That the first picnic to Great island in which ladies participated this year, was made on Tuesday afternoon of this week.

That the selectmen of ward two, if they will not allow the vacancy in the legislative delegation to be filled, might at least give the voters some reason for their masterly inactivity.

That the bobolinks and golden robins made their appearance this year earlier than usual, both arriving before the 16th inst.

That the milkmen have reduced the price of milk to five cents a quart, from the first of May.

Hon. W. H. H. Allen, judge of the supreme court, is in town, looking out for a seaside cottage for the summer season.

In the calls for the annual meetings of the stockholders of the following-named railroads—the Manchester & Lawrence, to be holden May 25th, the Concord, on the 29th, the Boston, Concord & Montreal, on the 28th, and the Northern, on the 31st, there is an article inserted to see if it is expedient to unite the several railroads and their branches in one corporation.

The new bell for the Christ church chime, to replace the one which was some time ago sent away on account of its being out of tune with the others, has arrived from Baltimore.

Gen. Tom Thumb's combination will give entertainments in Music hall on Tuesday next, afternoon and evening. See advertisement.

Several condemned cannon, brought to this navy yard some months ago by the Tallapoosa, were taken to Concord on Wednesday of this week to be used in a soldier's monument, having been donated by Congress for that purpose.

Messrs. Walter Amee and Samuel Blake, of Kittery Point, on the 11th inst. brought in 400 lobsters, the product of four haulings of their eighty lobster-pots. Among the lot was one lobster of remarkable color, different from anything any of the fishermen had ever before seen, the ordinary greenish-black or blackish-green of the lobster being thickly sprinkled with large spots of a bright orange color, the claws, and legs and feelers being thus handsomely variegated, as well as the body. This dandy lobster was quite lively, and of good size, weighing about five pounds; it was taken in a pot set near Brave Boat harbor, and was carried home by its captors after they had shown it around. The creature appeared to be perfectly healthy, and as ready as other lobsters to nip anything which came within reach of its claws.

Hon. Thomas B. Reed, member of the 47th Congress from the 1st district of Maine, and member-elect of the 48th Congress, has gone on a trip to Europe.

Mrs. Deborah Brock of South Berwick, an elderly lady, went to Great Falls on the 14th inst. to attend to some insurance business, and while in the office of Crawford & Tolles was taken with a fit, in which she died.

Washington Remick, a respected citizen of Eliot, died May 8th, aged eighty-four years and nine months. He was the last of quite a large family,—an older sister, Mrs. J. R. Hill, having deceased in March last. He leaves a widow, two sons and one daughter.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

"It treats upon the most important subject in the world. It is a medical work of the first character, and should be read by all who desire either to enjoy vigorous health or to know how to secure it when it is explained."—London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR

Your HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheinlanig, startingly says "one third of our subjects show signs of heart disease." The heart sighs about nine ounces, and yet men's twenty-eight pounds of blood passes through it once in a minute and would, resting not day or night! Surely this subject should have careful attention.

Dr. Graves, a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

The Irish Troubles.

The trial of the car driver Fitzharris, alias, "Skin the goat," as an accessory to the murder of Lord Frederick Cavendish and Mr. Burke, was begun in Dublin on the 15th inst.

Excitement has been occasioned in Dublin by an article in the *Express*, referring to the trouble between the pope and Archbishop Croke. It says that the archbishop's friends seriously intend boycotting the pope for taking the part of the government and threatening forfeiture of the episcopate as a penalty for participation in the Irish agitation. Archbishop Croke's friends will refuse, according to the *Express*, to pay even the "Griffith's valuation," and they will also refuse to pay "Peter's Pence."

In Dublin, on the 16th, Fitzharris was found guilty, and sentenced to penal servitude for life. Daniel Delaney and Edward McCaffrey, indicted for conspiracy to murder, pleaded guilty; sentence deferred. Thomas Martin pleaded guilty to a charge of conspiracy to murder, but was allowed his liberty on promising to leave the country.

Hood's Sarsaparilla is made of roots, herbs, and barks. It gives tone to the stomach and makes the weak strong. Sold by druggists.

Giovanni Bettini, a young Italian officer belonging to a wealthy family of high social position, came to this country not long ago on a pleasure trip. In New York he fell in love with Miss Lillie Ayer, a society belle, daughter of J. C. Ayer of New York, but she rejected his suit. On the night of the 13th inst. he shot himself in front of her residence, inflicting a probably fatal wound.

Poor But Honest.

Charlie Sullivan is a poor but honest Irish lad, who, while walking down Washington street, found a wallet containing checks and money to the value of several hundred dollars. Although almost destitute, he returned it to its owners, Messrs. A. P. Ordway & Co., proprietors of Sulphur Bitters, who gave him a liberal reward, and also gave him six bottles of Sulphur Bitters for his mother, who has been a terrible sufferer with rheumatism, and who returned many blessings after being cured by their use.—*Weekly World.*

Julia Burroughs, aged thirty-four years, of Belvidere, Vt., committed suicide at Montgomery by drowning, May 13th. She took a dose of morphine, but as that did not take effect, plunged into the water. She was employed as a servant girl, and bore a good name.

"Buchu-Paiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

Catherine Linen of Manchester, aged sixty years, committed suicide on the 15th inst. by hanging. The body was found in a shed connected with her house. Despondency was the cause.

SILVER CREEK, N. Y., Feb. 6, 1880.

GENTS—I have been very low, and have tried everything to no advantage. I heard your Hop Bitters recommended by so many, I concluded to give them a trial. I did, and now am around, and constantly improving, and am nearly as strong as ever. W. H WHELLER.

Rev. Father Murphy of Dover denounces the Emmett society of that city, and advises all members to withdraw at once.

Dr. J. N. Armstrong, Ottumwa, Ia., says: I have used Brown's Iron Bitters in my family and recommend its use to others.

An unsuccessful attempt was made on the night of the 14th inst. to rob the railroad depot at Sawyer's Mills, Dover. An entrance was effected through the window, and the money drawer broken into, but it contained nothing but a few tickets. The safe was also tampered with, but not opened.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Thieves who stole a horse and carriage in Webster, Mass., have been tracked to Putnam, Conn. It is thought they are a part of a gang of horse thieves from New York who are working in Connecticut and Massachusetts.

Dr. Green, the Lynn, Mass., abortionist, now serving sentence at Lawrence, is said to be in failing health. His hair has turned white since his incarceration.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

A long established newspaper, of fine circulation, with an excellent stock of material and good jobbing patronage, for sale at a bargain. The publisher, who has run the paper over twenty years, has made enough out of it to be able to rest the remainder of his life. Location in Minnesota. Also a fine newspaper in West Virginia, well established, and having an excellent circulation and good jobbing business, for sale, on account of the ill health of the publisher. Either of these offices can be bought on favorable terms—part cash, and part secured by mortgage. Persons having the requisite amount of capital, and possessing proper business experience, will find either of these newspapers a rare bargain. Address BARGAIN, care Dauchy & Co., New York City. jel

The Irish Troubles.

Kingston, Gibney and Healey were indicted in Dublin on the 16th inst. for conspiracy to murder; and Matthias Brady, brother of Joe Brady, was indicted for threatening to murder the foreman of the jury that convicted Joe.

Patrick O'Brien, formerly secretary of the land league, Michael Hynes, a printer, and Patrick Slater, foreman for Hynes, were arrested in Dublin on the 16th, for printing and distributing circulars recently forwarded to tradesmen in that city, which circulars were headed "An analysis of special juries on eighteen trials under the crimes act," and threatened vengeance on whoever should dare to trade with any of the jurors named.

The Irish national league held a meeting in Dublin, on the 16th inst., and considered the pope's circular to the bishops. Mr. Kenny, M. P., called it a shameful insult to the priests and people in Ireland. The talk about boycotting his holiness shows how indignant the Irish Catholics are over the matter.

Six persons have been arrested at Ballina, on a charge of conspiracy to murder landlords. An infernal machine and a number of firearms belonging to the prisoners have been seized.

Myra Moore attempted suicide at Hermon, Me., by cutting her throat with a razor. She is aged twenty-two years, and went from her home in Dixmont recently to teach school at Hermon.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The British bark Arabia, Capt. Robinson, from New Orleans March 2d, has arrived at Reval. It is stated that twenty of her crew died of smallpox on the passage. The captain attempted to enter the harbor of Helsingfor, and was fined 300 crowns for violating a regulation of the port.

"Get up like a man, and take care of yourself." Get a bottle of Wheat Bitters, it will make a new man of you, no matter what your trouble may be. No such remedy was ever before offered to the public. $1.

Bean blowers have become so great a nuisance in Fitchburg, Mass., that the common council will be asked to abate them along with the toy pistol. Two persons have recently been seriously injured by them.

The universal verdict, "The Hop Plaster is the best porous plaster ever made." Only 25cts.

Minnie, a fourteen-years-old daughter of Jabez H. Merrill of Salem, Mass., has died from cholera morbus, caused, it is said, by excessive indulgence in chocolate candy and other articles.

,"It is easier to convince a man against his senses than against his will." When a sick man has given Kidney-Wort a thorough trial, both will and senses join in unqualified approval of its curative qualities in all diseases of the liver, kidneys and bowels.

Harry Garfield of Williams college, son of the late President Garfield, declines the invitation to deliver the memorial address at North Adams, Mass., on Memorial day.

*Among the most efficacious of remedial agents are the medical preparations from the laboratory of Mrs. Lydia E. Pinkham, Lynn, Mass.

In New Haven, Conn., May 14th, Daniel Cangney was fined $10 and costs for destroying one eye of Hattie Woodruff, a girl nine years old. Eyes are cheap in New Haven.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

While two burglars were attempting to rob the store of Burchard & Lake, in Littleton, Mo., they were discovered by a young son of Mr. Burchard and a companion. The robbers shot and killed Burchard. His companion then fired, and killed one of the burglars. The other fled, but was captured by a pursuing party and is believed to have been lynched, as no tidings have since been received of him.

Two-Thirds of a Bottle Cures.

Dr. R. V. Pierce, Buffalo, N. Y.: Dear sir—I have been taking your "Favorite Prescription" for "female weakness." Before I had taken it two days I began to feel stronger. I have taken but two-thirds of a bottle and believe I am cured. Gratefully

Mrs. H. C. Lovett, Watseka, Ill. *b*

In Brockton, Mass., May 14th, the aldermen granted permission to the Edison Electric Lighting company to lay underground wires through the public streets for the purpose of lighting the city with the incandescent light; also to the Woman's Christian Temperance union, to place fifteen water tanks on the public thoroughfares. Liquor licenses were granted to eight or ten persons.

MONROE, MICH., Sept. 25, 1875.

SIRS—I have been taking Hop Bitters for inflammation of kidneys and bladder. It has done for me what four doctors failed to do. The effect of Hop Bitters seemed like magic to me.

W. L. CARTER.

The Chicago *Tribune* says of the passage of the ordinance by the aldermen of that city permitting a company to string telegraph wires overhead that "the general belief is that bribery was at the bottom of it, and votes were bought like meat in the market."

The best tonic medicine—one that is not composed mostly of alcohol or whiskey—is Brown's Iron Bitters. It is guaranteed to be non-intoxicating and will absolutely kill all desire for whiskey and other intoxicants. It has been thoroughly tested and proven itself in every instance a never failing cure for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumptive disease, liver complaints, kidney troubles, etc.

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcloths, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 15, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840 my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in our line, and advise others to employ you. Very truly, GEORGE DRAPER.

Latest---As to Mary's Lamb.

Mary had a little lamb
Its fleece was black as ink,
And Mary had dyspepsia so
She couldn't sleep a wink.
She suffered both by night and day,
With pains and aches, until her
Kind friends suggested she should take
P. Davis's Pain Killer.
It quickly turned dyspepsia out
And made her good as new,
And just the way that Mary did,
Should all dyspeptics do.

The United States ship Lancaster has arrived at Cronstadt, Russia, with the envoys who are to represent America at the coronation of the czar. They were received with the usual honors.

"When a thing is once begun, it is almost half finished." If you, reader, have dyspepsia, constipation, biliousness, or any disorder arising from impure blood, begin taking Wheat Bitters. Your cure will be half finished, likely completed, by the first bottle.

A naval review took place at Fortress Monroe, Va., on the 16th inst., in the forenoon. Four steam launches and twenty-two barges came ashore in line, and landed 500 blue jackets, 100 marines and four pieces of ordnance under Commander Bridgman of the Kearsarge. They then formed a battalion, marched to the fort, and were reviewed by Admiral Cooper and Gen. Getty, returning at noon.

News and Notes.

In Boston, on the 16th inst., Henry F. Watson, aged twenty-three years, a reporter on the Boston *Herald*, attempted to kill a young woman named May Appleton, and did wound her dangerously with a pistol bullet. Before hitting her Watson fired unsuccessfully at Miss Lawrence, (who keeps the boarding house in which the crime was committed, Watson and the wounded woman boarding there) and also at Miss Appleton. He surrendered to the police in the evening.

Michael Doherty, a wholesale liquor dealer of Boston, and for many years a prominent leader of the Massachusetts democracy, died on Wednesday, May 16th, at the age of fifty-seven years. He was born in Ireland, but came to this country when a child.

The third reunion of the descendants of Robert Fletcher (Concord, Mass., 1630,) will take place in Lowell, Mass., on Wednesday, August 22d, 1883. It is hoped and expected that there will be a large attendance, and a very interesting and enjoyable meeting of many branches of the family and kindred. The chairman of the executive committee is E. Dix Fletcher of Lowell, Mass.

Mr. Charles A. Dana, of the New York *Sun*, understands exactly how much faith to place in the civil-service-reform talk of certain of the democratic leaders. Mr. Dana says the principal issue in the presidential fight next year will be the turning of the republicans out of office, and the putting of democrats in their places. This is the kind of talk that suits the democratic masses; the other kind is only taffy, for baiting republican theorists.

During a popular fete and fireworks display on the 16th inst. in a village near Lisbon, Portugal, a bomb filled with dynamite exploded, killing four persons and wounding twenty.

Roger Amero was on the 16th inst. held by the magistrate at Digby, N. S., for extradition to the United States, on a charge of having murdered Mrs. Carlton at Watertown, Mass. The accused has fifteen days from the date of his committal in which to apply for a writ of habeas corpus, at the end of which time he will be extradited, unless previously freed by the court.

Philip B. Thompson was on the 16th inst. found not guilty by a jury at Hardrodsburg, Ky., for killing Walter H. Davis.

The tobacco fly is doing much damage to the young tobacco plants in many sections of Virginia. Planters are greatly discouraged.

Gen. Jubal A. Early makes a singularly coldblooded statement respecting his part in the burning of Chambersburg. In a letter to Edward W. Bok of Brooklyn he says that Frederick, Md., very promptly responded to his demand for $200,000, and that Chambersburg was well able to pay the $500,000 demanded. Assuming responsibility for McCausland's act, Early adds: "The value of the houses destroyed by Hunter, with their contents, was fully $100,000 in gold, and at the time I made the demand the price of gold in greenbacks had very nearly reached $3, and was going up rapidly." Therefore he demanded the $500,000 in greenbacks.

William E. Chandler, in a long letter to the *Traveller*, reports in detail his apprehensions of the direful results of railway consolidation. One would be more inclined to participate in the fears of the brave secretary were it not that he goes out of the way to rebuke the governor, hit the attorney general, and evince, if he does not express, a contempt for the court for daring to decide a case in opposition to his views. In this, the court can afford to be pardoned. We remember on one occasion in Boston, where an eminent member of the Suffolk bar was seeking before Chief Justice Doe to have removed an injunction and receivership concerning the Manchester & Keene railroad, and undertook to show what he contended was a crude and illegal process by which Mr. Chandler had induced the court to grant an injunction and place the road in the hands of receivers, Judge Doe remarked, "Oh, we must not be too particular about the process, if it reaches the case. Mr. Chandler, you know, is not a lawyer; he is a politician!"

Dangerous Companions.

When a young fellow has made up his mind to walk on the edge of precipices, for the sake of seeing prospects, he always finds plenty of company. There are abundance of people with strong heads who, having walked these parts till they are quite certain of their foothold, are ready to go out with giddy new beginners. If they accidentally lose their heads and fall over, whose fault is that? Not theirs, of course. They never fall. They look where they step and their heads do not turn. It is not drunkards and thieves who are dangerous companions to the green boys just from the country—oh, dear, no! It is your respectable young men that have learned to sip discreetly in all sorts of forbidden fountains, and nibble here and there carefully of the forbidden fruit. They drink, but are never drunk. They have exactly the knack of seeing and knowing all that there is to be seen and known in the ways of wickedness, and yet keeping even step with the righteous. Some of them are church members and Sunday-school teachers; some of them are shrewd, business men. They are never going to hurt themselves, they tell you, but they believe in a certain freedom. They never could see the sense of temperance pledges; for their part, they don't need them; and if there is anything they do abominate it's your radical, strait-laced people who keep in the dusty turnpike for fear of the precipice. — *Harriet Beecher Stowe.*

How to Answer "Mashers" Notes.

There lives in St. Louis a very sensible old German named Muller, who keeps a store. He has a daughter named Mina. Not long since she attracted the attention of one of those unfortunate creatures called "mashers," so called because their noses need mashing about ten times a day. He found out where she lived, and next day an unkempt urchin brought Miss Muller a personal note, marked "strictly confidential." The contents of the note were to the effect that he loved her for herself alone. The following postscript was added:

"P. S.—That my darling may make no mistake, remember that I will wear a light pair of pants and a dark cut-a-way coat. In my right hand I will carry a small cane, and in my left a cigar.

Yours forever, ADOLPHUS."

As the urchin said he was told to wait for an answer, Miss Muller took the note to her father, and requested him to write an answer. The old man did so, stating that his daughter would be at the appointed place at the time specified, by proxy, he, her father, having authority to represent her at the proposed caucus. The postscript read as follows:

"P. S.—Dot mine son may make no mistakes, I will be dresbed in mine shirt sleeves. I will vear in mine right hand a glub; in mine left hand I will vear a six-shooter, 45-calibre. You vill recognize me py de way I bats you on de head, a goopb dimes twirl mit de glub. Vait for me on de corner, as I have somedings imbordant to inform you mit.

Your frent, HEINRICH MULLER."

For some unexplained reason, Adolphus was not on hand when he was wanted, much to the grief of the old man who meant all that he wrote.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod&jan9,84

—The New York *Herald* says the board of aldermen of that city contains a greater proportion of rum-sellers than any private association not organized strictly in the interest of the liquor traffic. That may be, but the New York aldermen have a good way to go before they can match the devotion to the liquor interest of the Boston school committee, which, when it finds the law prohibiting rum selling within 400 feet of a school-house violated, closes the school and lets the gin-mill run.—*Mirror.*

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures scrofula. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

POLICE COURT--BATCHELDER, J.

THURSDAY, May 17th.

John Dennis came to this city from Beverly, Mass., on the 7th inst., and with a partner opened a liquor saloon on Ceres street, near the Spring market. On the 14th inst. the partner skipped out, taking with him whatever was portable belonging to the firm; and on Wednesday night, the 16th, there was a fight in the saloon, caused as is alleged by an attempt of Daniel Hennessey and James Gilchrist, alias "Scotty," to "clean out the coop." The fight resulted in all three of the men named being brought before the court on the 17th, when Scotty was fined $10, with $6.90 costs, for drunkenness. Hennessey and Dennis were charged with assault, the latter's face bearing conclusive testimony that it had been hit pretty hard with something; both were discharged, Dennis promising to close his place and leave the city if let off. It is stated that John Dennis is a brother of Lem Dennis, a Florida politician who won some notoriety during the Hayes-Tilden contest as the "Little Giant of Alachua county."

GOSSIPS SAY

That there are more people who dread to meet the city marshal armed with a subscription paper, than there are who fear his coming with a warrant for arrest.

That the repairs on the north mill-bridge were completed on Thursday last.

That Storer Post mustered in seven recruits on Wednesday evening of this week, several of whom were prominent members of the Grand Army in this city twelve years ago.

That Messrs. Jones, Winchester and Walker will not at present build that magnificent block in Dover about which our friends on the Cocheco have plumed themselves.

That Storer Post will march to divine service on May 27th to the music of the Portsmouth band.

That Davenport Council of Royal and Select Masters worked the degrees on several candidates, Thursday evening.

That the furniture of Rev. Charles A. Holbrook, formerly rector of St. John's church, was put on board the cars last Thursday, for transportation to his new home in the west.

THE REPRESENTATIVE "VACANCY."

Our correspondents have discussed the representative vacancy apparently from but one standpoint. They have assumed that a vacancy exists. There is nothing which so much tends to render a correspondent intelligent and well informed, as being "a constant reader of your valuable journal," as is sometimes written; but this we have long been accustomed to, and as Joe Jefferson remarks in Rip Van Winkle, "it does not count."

Article 16 of part second of the Constitution of New Hampshire provides that "all intermediate vacancies in the house of representatives may be filled up from time to time, in the same manner as biennial elections are made." The question seems to be, "What is an intermediate vacancy?" The present house of representatives consists of members elected to serve from June, 1881, to the first Wednesday of June, 1883. Should the legislature be convened before June 6th, of course the members chosen in November 1880 will be those to serve till June 6th. There is no existing vacancy in the delegation from this city except from the fact that Mr. Cunningham, if he has ceased to be an inhabitant of ward four, may have thus deprived us of his valuable services.

Now, what is a vacancy in the *next* House? In the first place, the next house of representatives having not yet convened has not yet learned who accepts or declines the office of representative, nor can it have officially ascertained as to any "vacancy." Before the oath of office is administered, the representatives are simply members-elect. They may be good subjects with whom to plough, but they are not yet in office. Until the office is in some such way accepted, no vacancy can exist, and this seems to be what the framers of the constitution intended by the use of the word "intermediate," which means intervening or coming between two points of time. What two points? Certainly not between the time a representative is chosen and the date fixed for his inauguration, because there can be no legally or officially ascertained vacancy; but between the day assigned for the acceptance of the appointment and the induction into office, and the termination of the term of office; in other words, in the case under discussion, between June 1881, and June 1883.

We have never heard the selectmen's view of the question, nor have we seen or heard any discussion beyond what our correspondents have given us, but as we read the constitution there can be no intermediate vacancy in the delegation from ward two in the house of representatives, until after the assembling of the legislature on the 6th of June.

We attach no significance to the fact that in previous years representatives elected to fill prospective vacancies have been permitted to take seats in the house of representatives. Of course, if no objection was made to their membership, they would have their seats, as representatives who at the time of their service were holding office under the United States government have often had. In Maine the constitution excepts post-masters from this provision. In our state it has been quite frequently ignored.

—An anecdote which is going the rounds of the religious papers is to the effect that in a certain public office in England an old German, who was one of several foreigners employed in a case under examination, was shown by one of the commissioners, a notedly pious man, a name on a certain list, and was asked what had become of him. The German replied, "Oh, he is dead and gone to hell." The commissioner, herror-struck, replied, "My dear sir, you must not speak of him in that way." "Never-a-mind," said the German, "never-a mind." Then, in a mysterious and emphatic whisper, he added, "You vait; some day you vill see."

—A lawyer and a preacher were discussing the direction of the wind. The former said, "We go by the court-house vane." "And we go by the church vane," replied the parson. "In the matter of wind that is the best authority," said the lawyer. And the preacher went home to cogitate.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

[illegible] edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 50; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION

is beyond all comparison the most extensively used work on Physical and Sexual Debility. Her touching what every ailing man should know, either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.)

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures gray-ness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheadle, startlingly says "one-third of our subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half; resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1, per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

A "Compromise."

A despatch of May 15th, from Norfolk, Va., says:

The injury to the British barque Aikshaw, which was recently in collision with the United States steamer Alliance, at the mouth of Chesapeake bay, has been compromised, the United States authorities paying all damages.

When a sailing vessel, lying helplessly at anchor, is run down by a steamer under weigh, a "compromise" providing that all the damages shall be paid by one side would seem to be the only one practicable. The collision referred to was a result of the absurd order prohibiting naval vessels from employing local pilots when entering ports of the United States.

Did you read how Josiah Pitkin of Chelsea, Vt., was cured of a terrible sore leg, by Hood's Sarsaparilla, the blood purifier?

Dr. J. N. Armstrong, Ottumwa, Ia., says: I have used Brown's Iron Bitters in my family and recommend its use to others.

On Wednesday, the 16th inst., Sheriff Kent, accompanied by Deputy Sheriff Sanborn of Raymond, made a raid on the premises of Jeremiah Banfield in Fremont, with the result that Banfield was taken to Exeter, and held in $16[illegible] for trial on six charges of violating the prohibitory liquor law.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence the phenomenal popularity.

The New York correspondent of the Concord *Statesman* asserts that "it is not safe to enter into conversation with any man in New York with whom one is not acquainted!"

Solved the Puzzle.

The other night a merchant in a village in Ohio was discovered in his store at an unusually late hour, and in reply to inquiries he said:

"My confidential clerk is missing."

"And what of it?"

"Why, I'm looking over the books, and they seem to be all square."

"Have you counted your cash?"

"Yes, and it is correct to a dollar."

"Looked over your bank book?"

"I have, and it is satisfactory. That is the puzzle, you see. He skipped, and I can't make out what for."

"Been home since noon?"

"No."

"Perhaps he has eloped with your wife."

"Lands alive! but it may be so! If it is, then the puzzle will be solved."

He hurried home, and it was so, and he felt a great anxiety off his mind.

—The proficiency attained by the colored gentlemen who have charge of the hatrooms in large hotels is often surprising. They will pass out two hundred chapeaux without making a single mistake. A young man from Buffalo was so impressed with the performance the other day that he asked the phenomenon how he knew it was his hat. "Well, sah," was the brisk response, "I couldn't swar dat de hat was yourn, sah. I only knows dat it was de hat you guv me."

—The Rochester *Post* relates this affecting incident. "A beautiful young girl was about to be married to a bachelor seventy years of age, but very rich. On the eve of the marriage she learned that his wealth had been suddenly swept away, leaving him a penniless old man. Did the noble-hearted girl desert him in this hour of trouble? are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

"DON'T PLAY with the devil when you're young, lest you have to work for him when you're old." This is good advice and applies to other subjects besides his Satanic Majesty. Don't trifle with Catarrh by using nasal injections and irritants. They can never cure it. Use Ely's Cream Balm. It is not a liquid or snuff, and easily applied. A child can use it without harm, and its effects are speedy and thorough. "I suffered for years with chronic catarrh,' writes S. M. Greene, Book-keeper, office N. Y., Catskill & Athens Steamboat Co., Catskill, N. Y. "I was induced to try Ely's Cream balm, and relief was instantaneous." This exquisite remedy never disappoints. Mail it for 50 cents, (stamps taken). Ely's Cream Balm Co., Oswego, N. Y.

The body of Col. Brunnan, of the Great Beds lighthouse in Raritan bay, was found on the 15th inst. in Staten island sound, off Tottenville. Brunnan disappeared about three weeks ago. He had in his pocket three months' pay, amounting to $150. That evening he started for the lighthouse from Amboy, N. J., and the next morning his boat was found drifting in the sound bottom upwards. Only $40 was found on his body.

Personal.

A young lady of seventeen summers, highly educated, refined, and of prepossessing appearance, desires to form the acquaintance of some nice young man, whom she would advise if troubled with dyspepsia, to use that great blood purifier Sulphur Bitters.

—This is the season of the year when editors must choose between renting a cottage at Newport or repairing their yachts for a journey around the world. The latter course is the cheaper, but the former is less trouble.

A sententious, crispy and cheerful letter from Mr. Geo. Gladding of Hartsgrove, Ohio, recites this fact, viz: "I was almost dead from heart disease. Dr. Graves' Heart Regulator has cured me." For more than 30 years this preparation has received public recognition and endorsement as being the only known cure for heart disease, sleeplessness and nervousness.—*The Globe.*

—On the street: "I understand that you own a great many houses and small farms in the suburbs." "Yes." "Do you live on any of them?" "No." Then you don't raise anything?" Oh, yes; every year I raise the rents."

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidneys, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

—Elderly philanthropist, to small boy who is vainly striving to pull a door-bell above his reach—"Let me help you, my little man." (Pulls the bell.) Small boy—"Now you had better run or we'll both get a licking!"

A young lady way out in Montana,
Who kills time by playing the piano,
Got hurt one day,
And couldn't play,
But St. Jacobs Oil cured Johanna.

—A Wisconsin court decides that a pound-master does not hold an office or place of trust, and need not therefore be sworn. The owners of impounded stock, however, seem to think that considerable swearing is absolutely essential, and therefore do it themselves.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

—The use of garlic, it is said, conduces to an hallucination of the brain on the part of the indulger that he is possessed of valuable secrets which it is his conscious duty to impart to others by putting his mouth close to the ears of his victims.

—The resolutions passed by the New York legislature on the death of Peter Cooper open as follows: "Whereas, it has pleased Almighty God at the age of ninety-three years."

MONROE, MICH., Sept. 25, 1875.

SIRS—I have been taking Hop Bitters for inflammation of kidneys and bladder. It has done for me what four doctors failed to do. The effect of Hop Bitters seemed like magic to me.

W. L. CARTER.

—An Iowa villager laid a wager that a stranger, whose acquaintance he had casually made, could not within six hours woo, win and marry a young lady who had just arrived at the same hotel. The suitor introduced himself to her, she smiled upon him, a minister was called in, and the ceremony performed. The couple left the next morning with no inconsiderable sum of money. They were husband and wife of long standing, and had played the same trick in many places.

The best tonic medicine—one that is not composed mostly of alcohol or whiskey—is Brown's Iron Bitters. It is guaranteed to be non-intoxicating and will absolutely kill all desire for whiskey and other intoxicants. It has been thoroughly tested and proven itself in every instance a never failing cure for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumptive disease, liver complaints, kidney troubles, etc.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.--Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Taylor, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcloths, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or securing the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more competent of securing for them an early and favorable consideration at the Patent Office." EDM. BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1879.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1868 my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Latest---As to Mary's Lamb.

Mary had a little lamb
Its fleece was black as ink,
And Mary had dyspepia so
She couldn't sleep a wink.
She suffered both by night and day,
With pains and aches, until her
Kind friends suggested she should take
P. Davis's Pain Killer.
It quickly turned dyspepsia out
And made her good as new,
And just the way that Mary did,
Should all dyspeptics do.

In Claremont, on the night of the 16th inst., a flour mill, meat market and grocery store were broken into, and small sums of money stolen from each place.

Mr. A. D. Spalter, South Groton, N. H. says: I am entirely free from the effects of dyspepsia, since using Brown's Iron Bitters.

John Carver, a disipated young fellow about twenty-three years old, has cleared out from Nashua, taking with him Belle Dupree, fourteen years old, daughter of his boarding mistress.

"I need thee every hour," is what a physician writes who is administering Adamson's Cough Balsam as the best remedy for the coughs of his patients.

In New York, May 17th, Alice Zimmerman, the young and beautiful wife of the artist Frank Zimmerman, killed her babe, twelve days old, with a pair of scissors, and attempted to kill her mother. The unfortunate woman was slightly deranged for some days before her confinement, and has twice attempted suicide since her child was born.

Poor But Honest.

Charlie Sullivan is a poor but honest Irish lad, who, while walking down Washington street, found a wallet containing checks and money to the value of several hundred dollars. Although almost destitute, he returned it to its owners, Messrs. A. P. Ordway & Co., proprietors of Sulphur Bitters, who gave him a liberal reward, and also gave him six bottles of Sulphur Bitters for his mother, who has been a terrible sufferer with rheumatism, and who returned many blessings after being cured by their use.—*Weekly World.*

The training-ship Jamestown, from Havana, and the Portsmouth, from Gardiner's bay, arrived at Newport, R. I., on the afternoon of the 16th inst.

Vegetine is composed of roots, barks and herbs. It is very pleasant to take; every child likes it.

In New York, on the 17th inst., the trial of Commander Frederick R. Smith of Binghampton, N. Y., on a charge of scandalous conduct in making duplicate assignments of his pay, was commenced before a court martial composed of three commodores, three commanders and three captains, at the navy yard on board the Vermont.

A Fine Whiskey

A very ridiculous canard published in the Washington despatches of the Boston *Advertiser* of Friday shows how easy it is to impose upon a newspaper whose conductors are not posted in political knowledge.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

The Irish Troubles.

James Mullett, Edward O'Brien, Edward McCaffrey, Daniel Delaney, William Moroney and Thomas Doyle, all of whom had pleaded guilty of conspiracy to murder, were on the 17th inst. arraigned in the court at Dublin, and the first-named five sentenced to ten years of penal servitude, Doyle being let off with five years. The charge against McCaffrey, of participating in the murder of Mr. Burke, was dropped by the crown. Mathias Brady, accused of threatening the foreman of the jury which convicted Joe Brady of murder, pleaded guilty, but was allowed to depart by consent of the threatened party.

Daniel Curley, condemned for participating in the Phenix park murders, was hanged in Kilmainham jail on the 18th inst.

Marine Disaster.

As the steamer Granite State, plying between New York and Haven, was approaching the dock at Goodspeed's landing, forty-one miles from Hartford, early in the morning on the 18th inst., fire broke out forward, and spread so rapidly that the boat could not be beached; her stern however swung in so that most of the passengers and crew jumped to the wharf, though a number had to jump overboard. The wife of Dr. C. L. Maine of New Haven was drowned, and four persons are known to have been burned to death. The steamer and cargo are a total loss.

Masonic.

The annual convocation of the Most Excellent Grand Royal Arch Chapter of New Hampshire was held in Concord on the 15th inst., the principal officers installed being as follows:

G. H. P., Charles N. Towle, Concord;
D. G. H. P., Alpheus W. Baker, Lebanon;
G. K., John F. Webster, Concord;
G. S., Andrew Bunton, Manchester;
G. T., Joseph W. Hildreth, Manchester;
G. Sec., George P. Cleaves, Concord;
G. C., Joseph Kidder, Manchester;
G. C. of H., John C. Neal, Franklin Falls;
G. P. S., Harlan P. Goodrich, Lebanon;
G. R. A. C., George W. Flagg, Keene;
G. M. 3d V., Charles M. Dore, Great Falls;
G. M. 2d V., Nathan P. Hunt, Manchester;
G. M. 1st V., Renssalear O. Wright, Plymouth;
G. T., Samuel W. Emerson, Concord.

Alfred R. Chapman, of Boston, Acting Grand High Priest of the General Grand Royal Arch Chapter of the United States, was present, and delivered an interesting address.

The annual communication of the Masonic Grand Lodge of New Hampshire occurred in Concord on the 16th inst., the following officers being installed for the ensuing year:

M. W. G. M., John F. Webster, Concord;
R. W. D. G. M., Henry E. Burnham, Manchester;
R. W. S. G. W., William R. Burleigh, Great Falls;
R. W. J. G. W., George W. Currier, Nashua;
R. W. G. T., Joseph Kidder, Manchester;
R. W. G. S., George P. Cleaves, Concord.

The schooner Ivanhoe, of Gloucester, Mass., Capt. McDonald, arrived home recently from a southern mackerel voyage, to bring the master, who was sick with slow fever. Although the vessel had been absent for about eight weeks, she had scored no fish. The fleets are reported as having this spring been very unsuccessful, on account of the shyness of the fish; one vessel set her seine seventy-eight times, and secured less than ten barrels of mackerel.

The signal arrangements for operating the Salem tunnel were inspected on Tuesday afternoon, the 15th inst., by the railroad commissioners of Massachusetts. The Eastern railroad contracted with the Union Switch & Signal company of Pittsburg, Pa., for the establishment of a system of electric signals at the tunnel, by which the passage of trains could be made perfectly safe, the approach of a train to the tunnel at one end causing the locking of switches and the display of signals at the other end, it being stipulated that the apparatus should not be accepted unless approved by the commissioners; these officials on the 16th signified their approval, and the system will go into operation as soon as practicable.

Rev. James Rand, pastor of the Free-will Baptist church at South Berwick, having resigned his pastorate on account of ill health, about forty of his parishioners assembled at the parsonage on the evening of the 16th inst., and presented him with a purse containing twenty dollars. Mr. Rand has been pastor of the church for four years, and closes his labors this month.

At New Haven, Conn., on the 15th inst., the Yale boat races took place, the most interesting contest being that between the junior, sophomore and freshmen crews; the freshmen were well ahead at one time, and would have won had not a steamer got in their way; as it was they beat the sophomores, and were only two lengths behind the juniors at the finish. The despatch says "The work of W. B. Goodwin, coxswain of the freshmen crew, attracted particular attention. Goodwin hails from Biddeford, Me."

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

135 HOWARD STREET,
LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,
(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

Notice.

THE attention of the citizens of Portsmouth is hereby called to the following order passed by the Board of Mayor and Aldermen, Thursday, April 26th, 1883:

Ordered, that in view of the great expense entailed upon the City by reason of the large quantities of *debris* placed in the streets through the erroneous impression that the street commissioner is authorized to remove the same without cost to the depositors, the Mayor is instructed to notify the inhabitants that hereafter such matter only as is placed in barrels, the contents of which do not exceed two bushels, will be removed from the streets at the expense of the city; and all persons putting rubbish in the streets, except as above provided for, will be proceeded against in consonance with section 6, chapter 17 of the Ordinances.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands now in the day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE COUNTY FINANCES.

The report of County Treasury Winthrop A. Dow shows the Rockingham county debt on May 1st, 1883, to have been $13,835.47, a decrease for the past year of $16,440.75. The expenditures were as follows: Supreme court, $1,448.99; jury pay rolls, $1,861.18; state pay rolls, $3,540.47; county farm, $20,216.40; paupers off farm, $9,945.48; payments of bonds and interest, $2,870; Portsmouth and Exeter jails, $7,868.42; New Hampshire asylum, $452.69; New Hampshire Industrial school, $880.17; sheriffs and deputies, $3,029.74; commissioners, solicitor and treasurer, $2,821.62; justices and officers, $815.25; registers of deeds and probate, $279.24; new index, $680.02; miscellaneous, $2,152.62.

FILLING "VACANCIES."

Mr. Editor: Will you allow me to call the attention of the selectmen of ward two to the fact that Fremont, in this state, has just elected a member of the legislature to fill the vacancy caused by the death of Benning W. Scribner of that town; and that Wakefield will fill the vacancy in its delegation next week.

J. A. B.

GOSSIPS SAY

That there will be another christening of children in christ church next Sunday evening.

That if the wardens, or whoever has the management, could reserve a portion of the edifice for the accommodation of adults, so that the swarms of boys and girls who stand by to rush in as soon as the doors are opened could not monopolize all the best seats, thereby compelling their elders to take seats in the rear or stand in the aisles, it would be a good thing.

That Mr. Leonard Evans was thrown from a carriage in Greenland on Tuesday of this week, and quite badly injured.

That if the grass on the Haymarket square reservoir was mown it would add much to the appearance of that beautiful locality.

That through the enterprise of the Dover board of trade a new shoe factory in that city, the proprietor of which guarantees to pay out $2500 per week in wages for five years, opens its doors this morning.

That Portsmouth also has a board of trade.

That a Lewiston, Me., commandry of Knights Templar will visit this city on St. John's day, June 24th.

That the shipments of ale from the Jones brewery for the first half of May amounted to 10,000 barrels.

That calls were this week issued for meetings of all the fire companies, to consider the firemen's muster project.

COLLISIONS.

A young man on a bicycle crossed the railroad tracks at Vaughan street, going toward Christian Shore, Friday afternoon, and there met a dog which was accompanying a young lady down town. The dog and bicycle in some manner got mixed up so that neither could go ahead, and the young man sailed gracefully through the air and alighted all in a heap, the bicycle landing on top of the dog. No serious harm was done.

As two teams were turning from Middle into State street, late Friday afternoon, the hinder one, in which were three young men, attempted to pass between the leading carriage and a lamp post, the result being a collision, the young man who was driving being thrown out headforemost, carrying the reins with him. The horse broke into a run, sheering the other team across the street, throwing out the occupants, (Mr. Jos. K. Dupray, wife and child,) overturning the carriage, and breaking one wheel. As the runaway team went down the street the young men remaining in the buggy left it on opposite sides, one landing on an ash-heap, the other in the street near the Rockingham house; the horse kept on as far as Court place, into which he turned, and there stopped, no harm having been done to the team. The young man who was driving had his face somewhat scarred, and Mrs. Dupray and the child were badly jarred; the wonder is that the accident was not much more serious. The excitement in the vicinity was very great for a short time, and many people gathered.

Rev. A. Judson Rich, of Hyde Park, Mass., will preach for the South Parish, morning and evening.

Cherry trees were in bloom in some of the gardens in this city on Friday, the 18th inst., one week earlier than last year. The following is the record of the first appearance of cherry blossoms in this city for the past four years, as taken from the files of this paper: In 1879, May 13th; 1880, May 11th; 1881, May 10th; 1882, May 25th.

At a meeting of the governor and council last Thursday, Edward Spaulding of Nashua was appointed a trustee of the asylum for the insane, vice Dr. Fred. E. Potter of this city, resigned. Alfred C. Buzzell was nominated associate justice of the Exeter police court.

Several persons in Newington are at present sick with the measles, which disease was recently introduced in the town by a young man from Boston.

Rev. William E. Gaskin, pastor of the Universalist church, has gone to Ohio on a pleasure trip, intending to be absent about three weeks.

The crew of a schooner lying at a north-end wharf left their vessel on Friday, and attempted to ship on other schooners near by. They were arrested by the city marshal, and after being locked up a short time concluded to serve out the period for which they had shipped, and were allowed to go on board again.

A band of gipsies having seven or eight big teams were camped at the gravel pit on Lafayette road last Friday.

Mr. William J. Ladd has been chosen a director in the Hannibal & St. Joseph railroad as one of the successors of the retiring Gould party.

The brick schooners G. W. Raitt and Ocean Eagle arrived from Boston on the 17th inst., and the Satellite and D. K. Ham on the 18th, and all went up river to load.

In Dover, on the 16th inst., two loafers giving the names of James Dean and John Murphy were arrested, and on the 16th were held in $200 each for trial under the tramp law; failing to find sureties, they went to jail. The real name of the one calling himself Murphy is said to be Linscott, and he belongs in South Berwick, Me. The *Democrat* says that Dover has been visited by a good many tramps of late, and the *Republican* says Dean and Linscott are the first persons ever arrested in that city under the tramp law.

A Boston paper says, regarding the Eastern and Boston & Maine railroad lease, that "it is considered by excellent authority that the bill in equity filed by Willard P. Phillips will prove an insuperable obstacle to the consummation of the contract. It is stated that the only satisfactory answer which the railroads could make to this bill would be to agree that the net earnings of both corporations should be applied to the payment of interest on the Eastern bonds and the contribution to the sinking fund. It is doubtful if the Boston & Maine people would agree to this. If they would not, it is pretty evident that the bargain is a hard one for the Eastern people. On the principle that the greater includes the less, such an offer would secure the payment from the Eastern net earnings of the sums thus acquired and be a complete answer to Mr. Phillips' bill charging that it would be impossible, under the combined operation of the roads, to determine which are the Eastern net earnings."

Mr. George F. Plaisted of York has been clerk of school district number thirteen in that town for seventeen years, with an intermission of one year when he was in ill health.

There is a large quantity of last year's hay still on hand in Kittery and York, and the holders are in no hurry to sell, as the present prospect of the hay crop this year is hardly medium throughout the southern part of York county, the season being very backward, and the upland fields in many places showing that they suffered severely from the drought of last fall, while the grass in low lands was much injured during the winter by ice which formed on the surface of the ground before the snow came. The apple trees are very late in blossoming, but the indications are favorable for a large bloom, though of course the yield may not come anywhere near the promise.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries, that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **"THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the best popular work on Physology ever published. Her gentility what ever (for it is written in gentle language) or wishes to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cleadinning, startingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders, this known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' pamphlet and substantiate testimonials. (1)*

Mr. Sumner Welsh, of the "north village," York, cut off his left hand one day last week while splitting wood with an axe. It is said that he subsequently attempted to commit suicide.

SILVER CREEK, N. Y., Feb. 6, 1880.

GENTS—I have been very low, and have tried everything to no advantage. I heard your Hop Bitters recommended by so many, I concluded to give them a trial. I did, and now am around, and constantly improving, and am nearly as strong as ever. W. H WHELLER.

Chaplain William H. Stewart, U. S. N., formerly of Kittery but now of Newburyport, Mass., who was recently ordered to the U. S. S. Minnesota, has had that order revoked, and is placed on waiting orders instead. Mr. Stewart's wife, a former resident of Exeter, died in Newburyport on the 14th inst. in the 46th year of her age, leaving a family of seven children.

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the south and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $400,000 in bonds and $300,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $650.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $500 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprung up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with curiously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Bothered Army Surgeons.

It was in war-times. The Quartermaster of the Fourth New York Artillery was nearly dead with dysentery. The surgeons did their best for him, but at last gave him up. Lieut. Benis, who is now a well known merchant in Oneida, N. Y., ventured to dose him with Perry Davis's Pain Killer. In a few days the Quartermaster's sufferings were over, and he was on duty as before.

The New Hampshire Homeopathic Medical society held its 30th annual meeting in Concord on the 17th inst., and elected Dr. G. W. Flagg of Keene as president.

"I need thee every hour," is what a physician writes who is administering Adamson's Cough Balsam as the best remedy for the coughs of his patients.

Archibald Dowling, master of the schooner Wm. B. Meeker, has been arrested at Portland, Me., for attempting to smuggle 125 gallons of molasses. The mate, Wm. G. Dowling, is under arrest for attempting to steal the same molasses.

Dr. A. T. Henak, Garfield, Iowa, says: "Once using Brown's Iron Bitters proves its superiority over all other tonic preparations."

George H. Johnson of Berlin, Mass., who recently committed suicide, had been for some time stealing from the gingham mills in Clinton, from which he was discharged the day before his death.

"The world itself is too small for the covetous." How true this is of Wheat Bitters! Opponents, notably those who claim to have something "just as good," are always on hand. The public recognize Wheat Bitters as the best remedy in the market—hence its phenomenal popularity.

Edwin Harvey of Haddam, Conn., seventy-eight years old, a charcoal peddler, was burned to death at his charcoal pit on the 14th inst.

This favorite brand of pure Whiskey is bottled only by Chester H. Graves & Sons, 35 Hawkins St., Boston. Possessing ample capital, this firm does not put up this brand of their best and purest goods until it has become mellowed by age. They control the entire production of this brand, and allow no adulteration as whatever. It is a pure Whiskey, and such can be prescribed by physicians or purchased for domestic use from Druggists and Grocers everywhere.

A Chance for Genuine Reform.

The Supreme Court of this state has, in suits against towns for injuries to persons and property occasioned by alleged defects in highways, held that the questions as to insufficiency of streets and roads, the care or negligence of drivers and travellers, whether injuries were caused by the condition of the roads,—indeed, all questions likely to arise in this class of cases, are questions of fact for jurors to decide. This of course has made a comparative "walk-over" for any one who was injured in a public street or road, as the jury decide what is a defect, and as between individuals and a municipal corporation, the results were for a long while by no means uncertain.

Soon some of the towns in the state began to feel the result of this, in heavy damages; and jurors from country towns began to think it was only the cities that should keep their streets and sidewalks in perfect order day and night, free from ice in winter and from all manner of alleged defects in summer. Later on, in some of the counties of the state, the cities by vigorous resistance of this kind of suits have won verdicts occasionally, where the city was not in fault and where there was no possible excuse for a jury mulcting the municipality in damages.

The court has always allowed actions to be brought, even when the notice required by the act of the legislature in 1878 has not been given. The provisions of this act, except those relating to the powers of the court, have been rendered nugatory by the acts of the court.

In a case some time since against Portsmouth, when a horse ran away and was killed, the rule of the court made the city a losing party. In Iowa a different rule has been established. In the city of Burlington, a physician tied his horse to a post and went into a house to see a patient. The horse became frightened, broke the fastenings and ran down a declivity, and was killed. The buggy and harness were broken and damaged. There was no barrier across the declivity to protect the public, the declivity being impassable except by a stairway for foot passengers. The court held that the city must keep its streets in a reasonable passable condition for travellers, but it is not bound to keep its streets passable for horses which have escaped from the control of their owners. The Iowa court adopts the Missouri dictum that "a city is not bound to provide thoroughfares of such ample dimensions and such matchless grade that accidents from runaway teams would be absolute impossibilities."

The peculiar hardship upon a city whose miles of sidewalk are liable on any winter's night to be coated with a thin glacial "defect," which may cause many who venture to pass over it to slip and fall, even before the authorities can have any kind of notice as to the condition of the walks, is a matter which the legislature should in some degree take into consideration, and afford relief to cities and towns whose laudable efforts to provide passable sidewalks for citizens and strangers are followed by such great risks of paying heavy damages every time a winter's rain is succeeded by a cold wave.

A Specimen "Contract Ship."

The condemning of the United States steamer Pinta, an iron vessel of 306 tons, as unfit to go around to the Pacific squadron, even after she had been thoroughly overhauled and refitted for such a voyage, causes much comment. After expending $100,000, as Ex-Congressman Dezendorf of Virginia asserts in his letter to the President, for overhauling and refrigging the Pinta, besides the additional expense of putting her in commission, with officers, crew, and provisions on board, the board of inspection condemns her as unfit for the voyage to the Pacific, and orders her out of commission. The voyage down the Atlantic coast and through the Straits of Magellan has often been made by vessels as small as the Pinta; indeed, many of the old whalers which used to go around Cape Horn and up to the Arctic ocean, were much smaller than the Pinta. It is thought strange that after such a great amount has been expended on her she should be too unseaworthy to make the voyage. The Pinta was built by contract by John Roach & Sons at Chester, in 1865, and cost, with her machinery, $183,996.32, or more than $613 per ton, and about one-half of what the Havana steamship Saratoga, of 2,460 tons, or eight times the size of the Pinta, cost. Mr. Roach also built the Saratoga, but that vessel was built for a company of which Mr. Roach is a stockholder, and the Pinta was built for the government, and was not required to have the elaborate fittings and joiner work that a passenger steamer has. In addition to the original cost, the cost of repairs on the Pinta up to Oct. 1, 1881, was $55,996.32 by the bureau of construction, and $13,568.70 by the bureau of equipment, making a total cost, not including the recent expenditures upon her, of $253, 561.34, or a total of $353,-561.34 for a vessel that has been used only for the porposes of a tugboat.

The *Tribune* says "The friends of Governor Hamilton, of Maryland, do not propose to stand by idly while his opponents knife him. They are quietly organizing and will press his renomination upon the coming state convention. He has made many enemies during his term of office, and they are now seeking an opportunity for revenge. This, however, is only one of the discordant elements in Maryland politics. One of the chief causes of the dissension in the democratic party there is the revolt against family influence. There is perhaps no state in the Union where so much of this lingers in politics as in Maryland. Men ambitious of leadership have come to the front during the last few years, and find their path to political honors obstructed by this sentiment. The present campaign will probably make an end of the custom, already grown nearly obsolete, which a few old families have had, of parcelling out the highest offices among themselves."

American liars are fond of shouting "British Gold!" whenever an allusion is made to an advancement in free trade sentiment in this country. British gold has been piled up on account of our high tariff system, but not in this country. —*Boston Post.*

If the American protective tariff system has "piled up British gold" in Great Britain "but not in this country," the intense eagerness of the British manufacturers to have free trade substituted for it in America is a wonderful instance of self-abnegation.

The steamer Clara Batemen came off the marine railway in Kittery on Saturday, having while on the ways had her bottom cleaned and painted, her engine furnished with additional fastenings, and her propeller effectually secured to the shaft.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codtjan2,84

General A. A. Humphrey's important work, giving the history of the campaign of Grant in Virginia in '64 and '65, which he contributes to Messrs. Scribner's series, Campaigns of the Civil War, the publishers announce is about ready. The scope of the volume is indicated by its title: "The Virginia Campaign of '64 and '65; the Army of the Potomac and the Army of the James." It is General Humphrey's most important contribution to the literature of the war, and is unquestionably one of the most notable volumes of this very notable series; its publication is look forward to with a great and eager interest. At the same time will be issued the supplementary volume of the series, "Statistical Records of the Armies of the United States," as compiled by Col. Frederick Phisterer; in it everything of valuable statistical matter will be found arranged in a convenient form. With these issues the Campaign series is completed. The monographs have all been received with favor and good feeling, and are certainly, with the new set of books, "The Navy in the Civil War," of which the first volume is already published, the best general history of the war attainable.

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as proven by the cures effected) make it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitiating the blood, leaves the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

GEN. TOM THUMB.

To-morrow, at Music hall, the Tom Thumb combination will give two entertainments, one in the afternoon and one in the evening, for the latter of which reserved tickets can now be procured at Goodrich's. These performances will be the richest treat the children of Portsmouth have had for a great while, and big folks will find they can pass a very pleasant hour in attending either of them. Besides the diminutive general and his wife formerly Miss Lavinia Warren, there are in the company Major Atom, who appears as a vocalist; the ventriloquist and magician, Bingham; Mlle. Zoe Meleke and her troupe of educated canary birds; and Major Newell, roller skater. It will only cost ten cents to give a boy or girl an afternoon's enjoyment. See advertisement.

THE REPRESENTATIVE VACANCY.

Mr. Editor: Please allow me to trespass upon your columns once more. I will be brief. I think your correspondent "E" has the correct thing, and fully, fairly and honestly explains why no meeting is ordered for the purpose of filling the vacancy. I commend his article to the consideration of citizens and especially republicans who imagine that the people have an opportunity to elect their officers and representatives. They have no such chance, in the second ward at least.

Last fall, before the caucus was held which nominated representatives, workmen at the navy yard were presented with tickets which they were required to vote under threat of discharge, and under such threats the nominations were made. I have no doubt, could those men have been allowed to vote as they pleased, the canvass would have resulted differently. Soon after the death of Mr. Ackerman I was informed by a gentleman who had conferred with some of the same parties who engineered the successful ticket at the October canvass, that those parties were satisfied that they could not control an election this spring, but that they could and would prevent an election being held. I had no doubt they would do it, if they could, and for the reason mentioned by "E."

The reasons given for not issuing a warrant, so far as I know, are as follows:

1st. It is expensive. Well, it will cost a few dollars. Everything worth having costs, but I never heard before that the people would not be willing to bear the burden of supporting their rights. I have a better opinion of them than that.

2d. It is too late. This reason was given on Wednesday, May 16th. The legislature meets on June 6th, two weeks after next Wednesday, and the law requires that a warrant shall be posted fourteen days before an election, so that there are several days yet before it is too late to call an election before the legislature meets.

3d. The selectmen have no official knowledge of a vacancy. I have nothing to say to such a puerile reason as that.

Now I hope the republican party fully understand that they are permitted to elect such men and such only as are approved by the same bosses who rule the navy yard. B.

"IN PARADISE."

Reserved seat tickets for "In Paradise," the new comedy in which Mr. John T. Raymond will appear at Music hall on Thursday evening, go on sale at Goodrich's this morning.

The Louisville *Courier-Journal* says this "is a very funny play, as fun goes in these days; some of its situations are exceedingly ludicrous; the last two acts are particularly laughable; and, above all, it gives a wide swath to Raymond. The impression he made in it last night was emphatically a favorable one, the audience demanding the ringing up of the curtain two or three times after each act."

The St. Louis *Republican* says "it is the best play that Raymond has ever had; it is irresistibly funny, and from the first act to the last goes with a roar. Another thing in its favor is the fact that it has a strong plot, and all the parts are made prominent, thereby giving it sustained interest when Mr. Raymond is off the stage."

The Indianapolis *Journal* says "The play is clean and genteel all through, while it is luscious with good humor that calls for an accompaniment of continuous laughter."

FREIGHTS.

Among the freight engagements to this port reported last week were those of two schooners from Port Johnson with coal at $1.20 per ton, and one from Hoboken at $1.15 per ton — the latter to discharge at Dover.

A dead whale, emitting a most overwhelming odor, was washed ashore on Rye beach last Saturday, near the Sea View bathing houses; it was about sixty-five feet long. The blubber had been removed, and the whale is supposed to be the one towed in to the Shoals on the Thursday previous.

The new elevator at the Rockingham house works admirably.

The steamer Three Brothers on Friday last towed to Exeter a gondala loaded with coal. The gondola Sturgeon was on the same day discharging at Plaisted's wharf a load of bricks for A. Brackett Trefethen, and afterward took on board 20,000 shingles for Mrs. N. V. Raitt of Eliot.

Mr. Moses Laighton has been appointed flag-man at the Vaughan street crossing of the Eastern railroad.

Mr. William Plaisted, who ten or twelve years ago ran the street sprinkling carts in this city, and later for several years experimented in the "Hourly" line of coaches, was in Portsmouth several days last week, on a visit from Providence, R. I., where he has made his home for some two years past. Mr. Plaisted is looking hearty and contented, as though life agreed very well with him.

It is reported that Mr. James Hooper has been appointed night yard-master at the Eastern railroad station in this city.

Mr. Willard W. Young, carpenter, was stricken with paralysis on Thursday of last week, and died on Saturday, in the 54th year of his age. He was a Freemason and a member of the Grand Army of the Republic.

Mr. John O. Berry, of Rye, has a flock of twenty hens, which last year laid 2990 eggs. Besides using all that were required in his family, Mr. Berry sold enough to come to $57.04, the total cost of the fowls' feed during the time mentioned being $18.38.

The passenger earnings of the Eastern railroad for the first two weeks in May were $4000 more than for the same period in 1882. At the brokers' board in Boston, Saturday, Eastern railroad stock sold down to $41 per share, and Eastern 6s fell off from 111 to 110 5-8; Portland, Saco & Portsmouth railroad stock sold at 112 1-2.

In 1715 a captain of a vessel in this port, writing to his agent in Cadiz, Spain, advising him that the vessel was loading with fish for that port, said "there are twenty vessels loading in this port for Cadiz, so that I shall be able to advise you daily as to my movements," showing conclusively that Portsmouth did a large foreign trade a hundred and seventy years ago.

Messrs. Edmund F. Furbish and Geo. A. Jackson, residing on Christian Shore, on Wednesday and Thursday of last week lost their fine collections of fish, though the water in their aquariums becoming impure from some cause not positively known. These collections included fish of nearly every species known to live in fresh water in this part of the country, there having been nearly five hundred specimens in all.

The accident on the Maine Central railroad, on the 18th inst., was the most serious one which ever occurred on the line. Where the "wild" engine and the freight train met there is a sharp curve, and the freight engine, with twenty-nine heavy cars, was doing its best, while the wild engine was running at tremendous speed to reach Riverdale, six or eight miles from Augusta, before the freight train arrived there. Engineer Kilgore, of the wild engine, retained his senses for over an hour, sent messages to his family, and said to persons about him that it was a fearful blunder on his part; the fireman on the wild engine did not recover consciousness after the accident, and died about three hours after the collision. Engineer Small was instantly killed; the fireman on that engine jumped off, and was not much hurt. The pecuniary damage is placed at from $70,000 to $100,000, two of the finest engines on the road being destroyed, and also twelve or fourteen freight cars, a number of other freight cars being badly damaged. The brakemen on the freight train, and five or six passengers in the caboose car, were unhurt.

Mr. Horace Parker, of Eliot, is building a barn sixty feet by forty, with a cellar.

Miss Deborah Hilton of Lynn, Mass., who was ninety-five years old on the 17th inst., is in perfect health and as erect as she ever was, though her mind seems slightly impaired at times; she was accustomed to ride horseback up to the time she was seventy-six years old. She went to Lynn from Newmarket, N. H.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Enhanced vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the best admired work on Physiology and Hygiene. The nothing what ever that it may be, either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Alcher.

"Boycott the Pope !"

The *Citizen*, a paper published in Chicago by John H. Finerty, member of Congress from the 3d district of Illinois, on the 17th inst. published the following editorial, headed "Boycott the Pope:"

Of all the productions of papal interference in the affairs of Ireland that have marked the policy of the vatican from the days of Adrian IV to those of John XXII, and from the reign of that pontiff to the present time, the last circular, addressed by Leo XIII to the Irish bishops and clergy in regard to the Parnell fund, is the most intolerably impertinent, and if the Irish people submit cravenly to this latest Italian lash, the whip being furnished by the pope's worthy ally, Victoria, by the grace of God, etc., Queen of Great Britain and Ireland and Empress of India, they will forfeit the respect of the world at large.

But what are they going to do about it? may be asked. We reply, let them hold public meetings throughout every diocese in Ireland, pass resolutions sternly denouncing any more of his holiness' unholy intervention in Irish politics, and tell him, once and for all time, firmly and respectfully, to mind his own business, as the head of the Catholic church. They might supplement this action by resolving not to contribute a single cent of Peter's pence while Leo XIII occupies the Papal chair, or at least until he quits his palpable and scandalous alliance with the arch enemy of the Irish nation and race.

In a word we advise our countrymen, if they have any respect for themselves or for Ireland, to boycott the pope, and teach him a lesson that may be serviceable at least to his successors. Cut off some of the monetary supplies of Leo XIII, and teach him, without being misunderstood, that the Irish race cannot be bulldozed into slavery by the bayonets of England or by the thunders of Rome. We hope the Irish bishops and clergy will have backbone enough to resent this Roman outrage on their patriotism. Ireland will stand by them against Pope Leo and every other foreign busybody, be he Saxon or Italian.

—"Now, remember the direction," said his wife. "It's on the southeast corner when you go down street, and on the southwest corner when you come up street."

"Buchu-Paiba."

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with misleadingly devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Bothered Army Surgeons.

It was in war-times. The Quartermaster of the Fourth New York Artillery was nearly dead with dysentery. The surgeons did their best for him, but at last gave him up. Lieut. Bemis, who is now a well known merchant in Oneida, N. Y., ventured to dose him with Perry Davis's Pain Killer. In a few days the Quartermaster's sufferings were over, and he was on duty as before.

Jay Gould has been black-balled as a candidate of the Eastern Yacht club. The members probably thought he would have too many points.

The Brewers' Resolutions.

The brewers in convention at Detroit, Michigan, last week, passed the following resolutions, which apparently mean business, with a hint to the next House of Representatives:

Resolved, that the founders of these United States and their perpetual, indestructible union, while they created state and federal governments for the proper and prudent dispatch of public business, were careful to guard that personal freedom of the citizen which it is the object of all well organized communities to preserve; that the only limit they placed to the action of the individual was where it invaded the rights of any of his peers, and that while it is the duty of the state to forbid offenses against property and person and to punish infractions of the laws, any and all attempts to prescribe dress, food, or drink, or to regulate private manners at the arbitrary will of the majority, or make men moral by mandate of the legislature, are not only futile of themselves, mischievous in their consequences, and leading to tyranny on the one side and to contempt of the law on the other, but they are beyond the scope of power of any government established by the people.

Resolved, That the propriety of the manufacture of malt liquors, a drink-food recognized as healthful and needful by the instincts of the human race and the habits of temperate men, and whose consumption for centuries has been continuous and contemporaneous with the growth, prosperity, and progress of the most civilized and enlightened people, has passed beyond honest, intelligent controversy, and is only denied by idiots and fanatics; that we as brewers have the same rights, neither more nor less, as others; that we are men engaged in a necessary and beneficial industry; and we shall peaceably and firmly, under the law and by lawful means, defend these rights, and that in this defense we confidently ask the aid and co-operation of all honest citizens interested in the maintenance of good order, the preservation of the rights of property and freedom of person, and in the free enjoyment of any innocent pleasure which does not infringe upon the rights of others.

Resolved, That in the future, as in the past, we shall not assume influence or avert legislation by corrupt or degrading methods, nor shall we beg or buy justice; and relying upon the merits of our cause, we shall submit the question of sumptuary laws to the calm determination of the people; but we know of no code of political ethics which forces us to sit in tame inaction while our rights as citizens are invaded and our property confiscated, and therefore, when any political party professing devotion to the policy of an administration for the benefit of all shall beg for the suffrages of a band of zealots, by supporting a law dictating to men their food-drink, and degrading them by placing their private conduct under the control of others, we shall sever our accustomed political ties, and actively and earnestly support whatever party may sustain an equitable government of personal freedom; and we call upon all those in our craft who are not already affiliated to join with us and form local associations in connection with ours, and aid us in disseminating official acts and legitimate arguments, so that the great mass of people who have no selfish interests to serve on the one side, nor fanatical impulses on the other, may decide this controversy under the light of impartial and cool common sense.

Resolved, That we respectfully urge upon Congress at the coming session the propriety of reducing the tax on malt liquors to at least 1-2 per cent of the amount.

The resolutions also declare that the increase of duty upon the glass bottles used in the beer business is oppressive to the consumer.

Terrible Tornadoes.

Portions of Illinois and Wisconsin were devastated last Friday by two tornadoes of vast extent and power, immense tracts of country being laid waste, hundreds of houses torn to pieces, over 100 lives lost, and from 300 to 500 persons seriously injured.

At Racine, Wis., the number of killed and missing is placed at thirty, some of the latter having been carried into the lake; nearly every house in the path of the storm was shattered to atoms.

At Springfield, Ill., fifteen persons were fatally hurt; at Mattoon a railroad bridge, with a train on it, was blown down; at Round Prairie eight residences were demolished, two persons killed, six women and a man fatally hurt, and thirty others seriously injured; at Zitter five persons were killed, at Greasy Prairie three, and at Woodlawn five, many being badly injured at each place. At Uniontown six persons were killed, and twenty-five railroad men in one house injured.

The greatest damage in Missouri was in Montgomery, Warren and St. Charles counties.

The total pecuniary damage is estimated at from $3,000,000 to $5,000,000.

A new hotel will be erected at York beach next fall by John Sanborn of Concord, N. H., in conjunction with Chas. D. Preble of York, upon the land of the latter which has been held by the Preble family for five generations. Rear Admiral George H. Preble, on the retired list of the United States navy, belongs to this family. The building is to be eighty feet by thirty-six on the ground, three stories high, with a mansard roof, and will have wings thirty-five by twenty-seven feet on the ground; it will be situated on a knoll overlooking the sea, eastward of the hotel Bartlett and very near that building.

Capt. Lewis of Beverly, Mass., was struck and instantly killed at the Market street crossing in Lynn, Mass., Saturday night, by the Bangor express train on the Eastern railroad. He leaves a wife and one daughter.

The coroner's jury charged with the inquest on the bodies of the three victims of the disaster on the Maine Central railroad at Vassalboro last week has rendered a verdict, and attributes all the blame to the negligence of Engineer Kilgore, of the "wild" engine, who was one of the three men killed.

We understand that at the next regular meeting of the city council a petition will be presented, signed by citizens of wards four, five and six, asking that a protest be presented to the railroad commissioners against the Eastern railroad obstructing travel at the Washington street crossing. It is claimed that teams and foot passengers are obliged to wait from ten to fifteen minutes, several times a day, while the gates are closed, which certainly is an infringement on private rights.—*Newburyport Herald.*

Jere. Dunn, the sporting man who murdered Elliott, the prize fighter, was acquitted by a jury in Chicago last week. The verdict was received with cheers by the crowd of gamblers, thieves and roughs who crowded the court room, and Dunn then led the motley and disreputable mob on a triumphal tour among the bar-rooms of the city.

A report of the 20th inst. from Chihuahua, Mexico, says: Sixty Indians coming from the United States passed near Carman on the 15th inst. At Wayne's pass they killed and beheaded one man, and threw the head away after carrying it some miles. They killed a Mexican at San Lorenzo, and one at Buena Ventura, and two at San Rynardzo. Captain Jones has been sent from here with a body of men to meet this band, which is commanded by Chief Chata, and another detachment has been sent from Casa Grande. The Indians are making rapidly for the Sierra Madre mountains.

A New York despatch of the 21st inst. says: "The mystery which has for so many months surrounded the personality and whereabouts of Tynan, the famous 'Number One' of the Dublin 'Invincibles,' has at last been removed. It is now definitely known that he is not only in Brooklyn, but that he holds himself in instant readiness to deliver himself up for examination whenever the British government makes a demand for his extradition."

A great battle is reported to have taken place at Miragoane, Hayti, April 27th, between the rebels under Barzalene and the government troops, in which the latter were defeated with great slaughter; also two government vessels were sunk.

Earl Granville has instructed Mr. Sackville West, the British minister at Washington, to ask the United States government to revise the extradition treaty between the two nations in such a way that the clauses of the present treaty, which extend to actual murder only, shall be enlarged and made to include conspiracy and incitement to murder.

Topeka, Salina and Western Railroad.

The people throughout the central wheat belt of Kansas are highly pleased at the prospect of the speedy completion of the Topeka, Salina & Western railroad for which purpose a syndicate of Boston and New York capitalists has been formed through the efforts of Mr. C. G. Patterson of this city. The average distance between the two great parallel lines of road which now traverse Kansas from east to west is about sixty miles, and this requires of many farmers a haul of thirty miles to a railroad station. For such bulky freight as wheat and corn so long a haul is obviously a serious disadvantage, and to meet this difficulty is the primary purpose of this road. The line is to run southwesterly and westerly from Topeka through six of the richest counties of the State, and a short distance into a seventh county; in other words, from Topeka to Delhi, in Osburne county, a distance of 181 miles. In 1882 the corn crop of these seven counties was about 17,800,000 bushels, the wheat crop 7,000,000, to say nothing of the oats, cattle, hogs, sheep, wool and other productions. These counties have a population of over 125,000, which is rapidly increasing, many of the new settlers being the sons of well-to-do-farmers of Illinois, Indiana, Missouri and Ohio, who bring money and experience along with them. From 1870 to 1880 eleven counties through which the Atchison, Topeka & Santa Fe runs increased population from 34,500 to 136,260, which is an indication of the growth of population that a railroad stimulates in Kansas.

The building of the road has been in progress for several months,—forty-five miles being all ready for the rails. The work is now being pushed with all possible vigor, and is expected to be completed by July, 1884.—*Boston Transcript.*

MEDICAL.

PURE BLOOD IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. HOOD'S SARSAPARILLA purifies the blood. HOOD'S SARSAPARILLA cures dyspepsia. HOOD'S SARSAPARILLA cures biliousness. A peculiar point in HOOD'S SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

Mrs. S. A. Allen's WORLD'S *Hair Restorer* IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

WILLIAM A. VAUGHAN.

William Augustus Vaughan, who was stricken with paralysis on Wednesday evening of last week, passed away on Saturday evening without having regained consciousness from the moment of the attack. He was a member of the firm of M. J. & W. A. Vaughan, painters, and had been in business in this city forty years. He leaves no family, his wife having died thirty years ago, and their only child many years since.

Mr. Vaughan was very pleasant and agreeable in his manner, and honest and upright in all the relations of life; he is regretted by all who knew him, and most by those who knew him best. He was strongly republican, but was unobtrusive in politics, as in other matters. He was a constant attendant on the services of the Universalist church, and was one of the older members of the Mechanics' Association, having served as president of the latter body. His funeral occurs today.

GOSSIPS SAY

That Portsmouth should not, twenty years after the war of the rebellion, bear the stigma that she has not yet erected any memorial to the memory of her gallant "sons" who returned not back from those bloody years of strife, '61 to '65.

That there promises to be many more flowers for Memorial day purposes this year than were obtained a year ago.

That the defunct whale on Rye beach could be smelt at Breakfast hill, a distance of four miles, on Monday.

That the selectmen of Rye promptly ordered the cutting up and burial of the remains of the "critter."

That the schooner load of cotton recently brought here for Great Falls parties was valued at $125,000.

That a building has been erected near the town wharf at Newcastle for the sale of ice the coming season.

That fishing parties will appreciate and patronize the aforesaid institution.

That the trees have leaved out wonderfully during the past few days, attracting many people to short walks and drives in the country.

That John Lowry, watchman at the United States quarantine hospital on Wood island, has moved his family there for the summer.

That a number of the pretentious cat-rigged boats on the river seem disinclined to "hook on to" the new boat "Success."

That the shoe factory is again running with full force, there being plenty of work.

That the base ball fever does not rage in Portsmouth to any great extent this year—'tis roller skates instead.

That these are the days when the wicked cat pounces on the unwary chicken.

That Messrs. Samuel Gerrish and William Ward arrived home on Sunday last from their pleasure trip.

That a promenade or sentry's beat has been built on top of the house covering the receiving ship Constitution.

That Secretary Chandler will decide to pay for eight hours work as much as was formerly paid for ten.

That Samuel J. Gerrish has been awarded the contract for furnishing rations for the marine guard at the barracks at the navy yard, for the ensuing fiscal year.

That the storm-doors of the post-office remained in place this year later than usual, not having been removed until May 21st.

That Alderman Caswell's little white pony is as proud over the possession of a black colt as though the little rascal was of her own color.

That Mr. Thomas J. Goodwin and wife started for San Francisco on Monday last, intending to take up their residence there.

THE PATENT-VALVE SUITS.

The city councils of Dover had a special meeting on Friday evening last, called by the mayor that he might consult with them in regard to the patent-valve suits. He said he had been at a meeting of the mayors of Dover, Portsmouth, Concord, Manchester and Nashua, in the office of Roberts Brothers, to consider an offer made by Mr. Norton. The five cities named use eighteen engines with the valves. At the start Norton sued for $350,000, and now offers to settle for $9000, or about one-fortieth of the original claim. In other words he wants at the rate of five hundred dollars per engine. He further offers to give the cities $6000 for their models and other articles, such as legal documents, etc., which are to be used by the defense at the trials when they occur, so that in reality he will settle for three thousand dollars. The mayor was finally empowered to act on behalf of Dover as should appear to him best for the interests of the city.

Tom Thumb at Music hall this afternoon and evening. See advertisement.

The music of the Christ church chimes was heard at Woodman's point, Newington, on Sunday evening last; this point, which separates Little bay from Great bay, is full six miles from the church, but many of the tunes played could be readily distinguished.

A beautiful cactus in bloom in front of the residence of Mr. C. M. Gignoux on Middle street has attracted much attention this week.

The board of assessors completed the inventory of the city on Saturday, the total valuation being $6,091,788, against $6,100,364 last year; the rate of taxation will be about two per cent.

The new Farragut house is a credit to Rye beach, and to the enterprising builder. It has a large frontage, abounds in pleasant rooms, and unlike the big, commonplace, straight-sided hotels which formerly stood by the sea shore, exhibits artistic lines and graceful proportions. It is fast approaching completion.

The several fire companies held meetings on Monday evening, and each organization appointed a committee of three members to meet on Wednesday evening, the 23d inst., for consultation as to the advisability of holding a fireman's muster in this city next fall.

The brick schooners D. K. Ham and Ocean Eagle came down the river in tow on Monday forenoon, and proceeded to the lower harbor, where they brought up on account of the thick fog prevailing; the Hattie Lewis and Satellite came down in the afternoon. All are bound to Boston.

An elegant Queen Ann cottage built for Mr. Lewis of Philadelphia, next west of the Peabody cottage at Little Boar's head; the new cottage built for Miss Baker of Cincinnati; and an improvement upon the cottage and grounds of Mrs. Hills of Lawrence, afford an additional evidence of the appreciation of this most attractive spot on the New Hampshire coast. A very substantial stone faced wall has been built since last fall around the land purchased recently by Prof. Parsons of Philadelphia; the work was done under the charge of Mr. Wm. G. Marshall of this city.

A boy named Charley Smith, three years old, had both bones of his left fore-arm broken last week through being pushed down by another child. On Monday of this week a boy two and a half years of age, son of William Pendergast, broke one elbow by a fall. The cases were attended by Dr. Potter.

Dr. Kenison of Boston, chiropodist, can be consulted at the Kearsarge house for a few days, by persons who are troubled with corns, bunions, or any defects of the nails. His treatment is claimed to be painless, and no charge is made for consultation; orders for attendance at private residences promptly attended to.

Ex-Congressman Robeson has leased for a term of years the cottage of Postmaster Batchelder at Little Boar's head, and will keep house there during the summer season. He will be a guest at the table of Albert Batchelder, as heretofore.

The Rye people have heard of parties having an elephant on their hands, but for a strong load, residents near the beach say the thing is very like a whale.

An unknown man about sixty years old, wearing a silk hat marked "Dearborn," and having in his hand a pair of carpet slippers, dropped dead in the Eastern railroad station in Boston on Monday at about noon. Nothing was found on his person to lead to his identification, other than a ticket from Boston to this city.

Orders were received from New York on Monday to close the Mutual Union telegraph office in this city—the last office of that company to remain open in this state.

Mr. Charles H. Hayes, at the Plains farm, has on sale a dozen fine horses, suitable either for driving on the road or working on a farm; they were brought from New York state, and are all well broken.

The whalesback fog-horn could be heard sounding all day Monday.

The schooner Cocheco, Capt. R. H. Seaward, arrived at Bangor, Me., on the 18th inst., from Lynn, Mass., to load lumber for New York.

A brow is being built alongside the U. S. S. Omaha, at the navy yard, for the placing on board of her boilers and machinery.

The Biddeford & Saco Water company propose to bring water from Swan pond, Lyman, nine and one-half miles from Biddeford, in sufficient volume to supply the twin cities for all uses. They will erect a resovoir on Biddeford heights to hold 15,000,000 gallons of water, provided the city of Biddeford gives proper encouragement. A committee of the city government has been appointed to confer with the company.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who have undergone unnecessary consultations should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

This edition, revised, improved, enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, who has accumulated a fortune and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample 6 cents. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.

Is beyond all comparison the most valuable work on Physiology in the English language. The startling what every man, woman or child should know, or wish to know, but what is not explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N.B.—YOUNG and MIDDLE AGED MEN can now much true suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will expel every trace of impurity from the Blood, and give tone and strength to the system, of man, woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and sorpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

This plaster is popularly the best ever made, combining the virtues of hops with gums, balsams and extracts. Its power is wonderful in curing diseases where other plasters simply relieve. Cures in one day Pain in Side or Limbs, Stiff Joints and Muscles, Kidney Troubles, Rheumatism, Neuralgia, Sore Chest, Affections of the Heart and Liver, and all pains or aches in any part cured instantly by the Hop Plaster.

Try it. Price 25 cents. Sold by all druggists.

Jacob Gunoway, fourteen years old, has been arrested on a charge of wrecking a train near Ephrata, Pa., a few days ago, by which George Hain, master mechanic of the Reading & Columbia railroad, was killed.

Patrick Crain and Daniel Quigg, while working on a well in Saxonville, Mass., Friday night, were caught by the earth caving in, and imprisoned for nearly four hours. When released both men were greatly exhausted, but were otherwise uninjured.

"Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

At Paulding, Miss., May 18th, Dr. J. M. Byrd, a prominent young physician, shot and killed Capt. W. M. Brame, ex-sheriff of Jasper county, in the street. They began firing at each other simultaneously when about forty yards apart, and advanced, both parties firing, until Brame fell dead. A feud had existed between the parties for some time.

Are you bilious? Try the remedy that cured Mrs. Clement of Franklin, N. H.—Hood's Sarsaparilla, made in Lowell, Mass.

At Atlanta, Ga., Friday, Mrs. Dr. Ribney, daughter of the late Senator Hill, jumped from a runaway team, and sustained injuries which is expected will prove fatal.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

Antonio Samboro, a youth of fifteen years, was arraigned in court in New York city on Saturday, charged with abandoning his wife, Susannah. When the story was told it appeared that Samboro was compelled to marry his wife by the latter's two brothers, who threatened to send him to state prison in case of refusal, as they alleged that he had ruined the girl. The court discharged Samboro, and reprimanded the brothers. Steps are being taken by Samboro to have this forced marriage annulled on the ground of its being fraudulent.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Advices from St. Elie, in the county of Maskinonge, Canada, are to the effect that on Monday night, the 14th inst., about nine o'clock, a landslide took place on the bank of the river Yamanche, which blocked up its course and carried away acres of farm, brush and heavy timbered land, doing great damage in all directions. The damming up of the river caused the formation of a lake some thirty feet deep, and parties who went to the scene canoed over the submerged forest of elms and maples. The river having no outlet, further devastation was feared, unless the gangs of men engaged in opening a channel through the slide should succeed in their efforts.

Miss Georgiana F. Way, of North Charlestown, N. H., says: "I have taken Brown's Iron Bitters for general debility with most favorable results and cheerfully recommend it."

Three negroes—George Burton, Nathaniel Fisher and George Miller—were whipped at Newcastle (Del.) jail, Saturday, for petty thieving. Miller was given twenty lashes, the others ten each.

For all diseases of the heart Dr. Graves' Heart Regulator is peculiarly adapted, and a test of its remedial properties will show immediate results. The druggists everywhere sell it for $1. per bottle. Frank E. Ingalls, of Concord, N. Hampshire is sole agent for it and will answer correspondents and send circulars when desired.

At Newark, N. J., Saturday, the jury in the case of William A. Hall, indicted for forgery in altering the books of the comptroller's office, returned a verdict of guilty.

Personal.

A young lady of seventeen summers, highly educated, refined, and of prepossessing appearance, desires to form the acquaintance of some nice young man, whom she would advise if troubled with dyspepsia, to use that great blood purifier Sulphur Bitters.

are never *imitated* or *counterfeited*. This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of Hop Bitters, and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with curiously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Bothered Army Surgeons.

It was in war-times. The Quartermaster of the Fourth New York Artillery was nearly dead with dysentary. The surgeons did their best for him, but at last gave him up. Lieut. Bemis, who is now a well known merchant in Oneid , N. Y., ventured to dose him with Perry Davis's Pain Killer. In a few days the Quartermaster's sufferings were over, and he was on duty as before.

Humbug.

There is scarcely a pleasure in the wide world that equals that of the enjoyment of being humbugged. There is a fascination in being handsomely "taken in." Whether it is the young maiden whose hand is held by the ardent youth who goes through the role of reciting his positive inability to exist without her love, or Mrs. Younghousewife gently tapping the chin and pocket of her "dear good old man," or the man who pretends to know a horse when when he sees it being "done" by a professional dealer, or the countless other daily cases, all are the same. People love dearly to be humbugged.

The men who think themselves the shrewdest are the most easily caught. The sharp fellows understand this. The keen and sagacious cent-per-cent financier on a small scale, the superficial capitalist, is the easy prey for the operator. Men will buy worthless stocks or bonds of a stranger, who would pooh pooh the safe and moderate-paying income of a local investment. A mining company in a remote and almost if not quite unknown region, will have shareholders in a staid, conservative New England village where a guaranteed dividend-paying stock would not sell, simply because the latter is a home investment.

We were led recently to consider this peculiar trait in persons who have had money to invest, and who have invested it in that undiscovered country whence no interest returns. Take for example some of the once famous gold mines of California. In the opening article of *Harper's Magazine* for May, in the description of San Francisco it is stated that the aggregate value of mining stocks in 1875 was $282,000,000. The aggregate value of the same stocks in 1881 was but $17,000,000. There had been a shrinkage of $265,000,000, or over fifteen times the amount of the remaining value. "Consolidated Virginia," once valued at seventy-five millions, is now estimated at less than one. Sierra Nevada has fallen from $27,000,000 to $825,000; and California excels all, in a fall from eighty-four millions to three hundred and fifty-one thousand dollars. The loss came from the confiding purchasers at the Orient, and not from the knowing ones of the Occident.

The east yearns to be taken in and done for, and the process of placing on the market dividend-paying stocks,—the dividends of course being paid from the sales of new shares,—is welcomed by those who ache to be humbugged. It is one of the pleasurable occupations of the day, just as it has been in times past, to pay for this experience. The number of persons who live without work, and thrive by their wits, is ever on the increase, and their best field of operation is among the economical, conservative money-savers of the east, who, induced by the prospect of monthly dividends, march up in squads, pass in their ducats, and sooner or later achieve an experience of which they think the less said the better.

Centennial of Phillips Exeter Academy.

The graduates of this famous old academy will be sure not to forget that great preparations are being made for the celebration of its hundredth birthday on June 20th and 21st. On that occasion Hon. George Bancroft will preside, Rev. Horatio Stebbins, D. D., of San Francisco, will deliver the oration, and Edward E. Hale, of Boston, will read the centennial poem. The evening of the first day will be devoted to an informal gathering of the alumni, about fifteen hundred of whom are expected to be present; and on the second day will come the oration and poem, followed by a dinner. Some of the young ladies may be interested in learning that the grand ball of the senior class will also be given on June 21st. To enable the institution to lay out increased work for another century, the sum of $200,000 is to be asked for. The "Rugby of America" cannot afford to lose her old prestige, and it is confidently believed that her sons, and the descendants of the many distinguished men whom she has graduated, will give her all the money she needs. To add to the enjoyment of the centennial, the famous American band of Providence, R. I., Reeves leader, has been engaged.

A $20.00 Bible Reward.

The publishers of *Rutledge's Monthly* offer twelve valuable rewards in their *Monthly* for June, among which is the following:

We will give $20.00 in gold to the person telling us which is the shortest verse in the Old Testament Scriptures by June 10th, 1883. Should two or more correct answers be received, the reward will be divided. The money will be forwarded to the winner June 15th, 1883. Persons trying for the reward must send 20 cents in silver (no postage stamps taken) with their answer, for which they will receive the July *Monthly*, in which the name and address of the winner of the reward and the correct answer will be published, and in which several more valuable rewards will be offered. Address, "Rutledge Publishing Company, Easton, Penna."

"The plan of numbering the Italian laborers on the West Shore road," says the Kingston, N. Y., *Freeman*, "works like a charm. Finding it impossible to keep track of the men by their jaw-breaking names, the contractors concluded to number them. The number of each Italian is painted in figures on the seat of his pantaloons. Before beginning work in the morning, and at noon and again at night, the men are formed in line, and the foreman passes in the rear of them and takes down each number, in order to ascertain who is present, as well as who is absent. The plan is beneficial in two ways—the men are easily recognized, and they are also kept from sitting down too much for fear of rubbing out the figures on the seats of their pantaloons."

The local burglars in South Acton, Mass., have commenced their fourth raid within a year, and on the 20th inst. entered for the third time the store of D. F. Hayward, by prying up the same window through which access has been gained to the store before. About $5 in money was taken.

The coroner's jury in the case of Miss Christiana R. Harris of Greene, Me., decided that she committed suicide, but the people of the village are dissatisfied with the verdict. There was hardly any evidence to substantiate the verdict, and until more is brought forward the belief that it was a case of murder will be quite generally entertained. Miss Harris was found dead near her father's house, with two bullet holes in her head.

The Miseries of a Mean Man.

Sometimes I wonder what a mean man thinks about when he goes to bed; when he turns out the light and lies down; when the darkness closes in about him and he is alone, and compelled to be honest with himself. And not a bright thought, not a generous impulse, not a manly act, not a word of blessing, not a grateful look, comes to bless him again. Not a penny dropped into the outstretched palm of poverty, nor the balm of a loving word dropped into an aching heart; no sunbeam of encouragement cast upon a struggling life; no strong right hand of fellowship reached to help some fallen man to his feet — when none of these things come to him as the "God bless you" of the departed day, how he must hate himself! How he must try to roll away from himself and sleep on the other side of the bed! When the only victory he can think of is some mean victory, in which he has wronged a neighbor. No wonder he always sneers when he tries to smile. How pure and fair and good all the rest of the world must look to him, and how cheerless and dusty and dreary must his own part appear. Why, even one lone, isolated act of meanness is enough to scatter cracker crumbs in the bed of an average, ordinary man, and what must be the feelings of a man whose whole life is given up to mean acts! When there is so much suffering and misery and heart-ache in the world anyhow, why should you add one pound of wickedness or sadness to the general burden! Don't be mean, my boy. Suffer injustice a thousand times rather than commit it once.—*Hawkeye.*

The railroad commissioners of Massachusetts having approved the automatic switch for the Salem tunnel, it was accepted by the Eastern railroad on Monday.

Mr. R. A. Rogers, a brakeman on an Eastern railroad freight train, while backing away from part of a moving train last Wednesday morning, the 16th inst., caught his foot in a switch guard, fell, and two cars went over him. He lay between the rails and hugged the ground, but the brake beam, which runs within about one foot of the sleepers, and an iron brake-rod some three inches lower, brushed over him. He lay on his back, and received several cuts from the rod on the face, and a broken rib from the same. He is badly bruised all over, as might be expected, but his escape from horrible, instant death was miraculous. There is a belief among railroad men, founded upon experience, that if one man gets hurt in the line of duty, two other injuies will soon follow. A men had two fingers jammed in shackling cars on Monday, the 14th, and Rogers then remarked that two others would be hurt before the week was out. On Thursday a man had his foot cut off, upon hearing which Rogers said, "that is No. 3."—*Georgetown (Mass.) Advocate.*

Every druggist in Biddeford and Saco, except two, has been indicted for selling liquor.

The Kennebunk & Kennebunkport branch railroad is now rapidly approaching completion, and will be ready for passenger trains early in June. The terminal station will be on the west side of the river, at the village of Kennebunkport, one mile distant from the well-known sea shore resort at Cape Arundell.

MEDICAL.

PURE BLOOD

IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as seen by the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

135 HOWARD STREET,

Headache & Deafness, or any kind of mucous membranal irritations, inflamed and rough surfaces. A preparation of undoubted merit. Apply by the little finger into the nostrils. It will be absorbed, effectually cleansing the nasal passages of catarrhal virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. Will deliver by mail 50c a package—postage stamps. Sold by wholesale and retail druggists. MEDICAL.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT--BATCHELDER, J.

TUESDAY, May 22d.

Clarence Cunningham, of Byfield, Mass., was before the court on a charge of having been drunk. He confessed the soft impeachment, and promised to get out of town at once if allowed to go, so he was let off.

"IN PARADISE."

The *Union-Argus*, of Brooklyn, N. Y., says the new comedy in which Mr. John T. Raymond will appear at Music hall on Thursday evening, the 24th inst., "is as irresistably mirth-provoking as that with which Mr. Raymond's name has been so intimately associated," meaning of course "Col. Sellers." The New York *Herald* says "there is much of original and telling incident in the development of the story. In short, it is a play to see, laugh at, and thoroughly enjoy." The Louisville *Commercial* says "there is not a dull speech in the entire play. It is full of humor, has many strong situations, its construction is good, and it has considerable literary merit." Reserved seat tickets can be procured to-day at Goodrich's.

GOSSIPS SAY

That in 1850 the amount raised in Portsmouth by taxation was less than $50,000, while in 1883, with no larger population, the amount raised is $130,000.

That since 1850 the amount of state and county taxes has increased tenfold, which largely accounts for the great demands on our tax-payers.

That a down-river excursion party on Monday arrived home in the evening of that day minus rowlocks, having lost them in the heavy surf below Wood island bar, and with their oars lashed to the gunwales of the boat with fish-lines and tiller rope.

That a careful boatman will always have lanyards attached to his rowlocks.

That owing to the storm there was but one session of the public schools on Tuesday.

That a large fleet of coasters are storm and fog bound in the lower harbor.

That notwithstanding the storm Music hall was fairly well filled at both entertainments of the Tom Thumb troupe on Tuesday.

That the bald spot on Tom Thumb's head has grown perceptibly since he was last in this city.

That the flowering quince trees about town are blossomed out most gorgeously.

That the shop keepers are taking these dull rainy days to fix up their windows.

That the impression is growing daily that but one senator will be chosen at the coming session of the legislature.

That more rain fell on Tuesday than for two months previous.

That Major Urch will paint the railings of the Newcastle bridges.

That very few fish are now being taken in the weirs at the mouth of this harbor.

That the Dover *Enquirer's* editor is a constant reader of the CHRONICLE gossip.

The sloop yacht Wayward, of New York, which went ashore on Sea point, Gerrish's island, last fall, and has been laid up at Noble's island ever since, is being repaired and refitted by Mr. Daniel Littlefield.

The unknown man who dropped dead in the Eastern railroad station at Boston on Monday last had not been identified up to a late hour on Tuesday afternoon, though a rumor prevailed that he belonged in Epsom. The following was the description given of him by a Boston paper: "He was about seventy years of age, five feet nine inches in height, with white hair, and wore a tall black hat. The deceased was dressed in a black frock coat, two dark mixed vests, dark pants, red stockings, dark blue undershirt and congress boots. In his pocket was found $2 in money, a silver openface watch, and a ticket from Boston to Portsmouth on the Eastern railroad. The body was taken to the Massachusetts General hospital. Heart disease was the probable cause of death."

Mr. George Schlesinger, a wholesale liquor dealer of New York, arrived in this city on Monday, and put up at a hotel. During the night his room was entered by means of a skeleton key, and a gold watch made by Jules Jergunsen of London, a gold and platina Albert chain, with gold pen and pencil case and gold locket attached, two alligator-skin wallets, one containing $90 in money and a diamond ring, and an alligator-skin card-case and purse for change, were stolen. The thief is supposed to have been a man who registered as C. H. Brooks of Halifax, N. S., and left the hotel at an early hour in the morning under pretense of being ill and needing medicine; he is about forty years old, five feet seven inches high, with ruddy complexion, and a big nose flat on the end. Two hundred dollars reward is offered for the capture of the thief and the recovery of the property, or $100 for either.

Chief Engineer Oscar H. Lackey, on the retired list of the United States navy, died at his residence in Washington, D. C., May 21st. Mr. Lackey was well known in this city, having twice been stationed on this navy yard, the first time about 1865, as first assistant engineer under Chief Engineer Bartleman, who was the first chief engineer to take charge of the machine shop; and some years later, after his promotion to be a chief engineer, as chief of the department of steam engineering. He was a native of Virginia, from which state he was appointed to the navy July 21st, 1858; he was commissioned a chief engineer March 4th, 1871; his last cruise expired in May, 1881, and he was retired in 1882, for physical disability. The local base ball players of eighteen or twenty years ago will well remember him as the left fielder of the Portsmouth base ball club at that time.

Mr. Edmund Clarence Stedman will occupy the Woodman cottage at Newcastle this season.

Snake stories are now in season. The Newmarket *Advertiser* tells that Master Charlie Chapman of that town had a battle with three black snakes a few days ago, and killed two of them, one of which measured five and a half feet in length, the other being an inch shorter; the third snake, which the boy says was eight feet long, got away. The Dover *Democrat* says that Alderman Coleman and Ex-Councilman Horne of that city killed a black snake seven feet long one day last week.

Dr. Kenison extracts corns, bunions, etc., without pain; the boot can be worn with comfort, immediately after the operation. If you are troubled, call at the Kearsarge house at once and be relieved; he will remain but a day or two.

A raid was made on the Mountain house in South Hampton on the 19th inst., and the proprietor, Lon Elliott, arrested for violation of the liquor law, and taken to Exeter, where he gave bonds for his appearance at the October term of the supreme court. From all accounts Elliott's "hotel" has been a tough sort of a place.

The gondola "Fearless," with ten hogsheads of salt from E. F. Sise & Co., went to Newmarket on Tuesday.

The trustees of the Chase Home for Children are negotiating for the lot between the Chase house and the building now occupied by the Home.

The hook and ladder company held a meeting on Tuesday evening, and appointed a committee of three to meet with those previously appointed by the engine companies, to consider the question of a firemen's muster.

The instruments and other effects of the late Mutual Union telegraph office in this city were on Tuesday handed over to Mr. Hatch, of the Western Union.

Nine halibut were received on Tuesday by C. Sullivan & Co., the total weight being about 1050 lbs. They were caught in the vicinity of the Shoals, by hand lines, the schooner Mary A. Brown, of Gloucester, bringing in seven, of which five were of good size, one weighing 252 lbs. Two "chickens," weighing about thirty lbs. each, were brought in by a small boat, one of them being alive after reaching the market.

THE PATENT-VALVE SUITS.

The mayors of the five cities sued by Marcus P. Norton met in Boston on the 19th inst., for the second time that week, to further consider the proposition made by the prosecution to settle the claims of $350,000 for $9000—$3000 cash, and documents, etc., to be valued at $6000. The Dover *Democrat* gives the following report of the conference:

The matter was thoroughly discussed and sifted, and after due deliberation it was voted unanimously to fight the suits to the end, the motto being "no compromise whatever, that involves a single dollar of damages." The reasons for this decision are as follows: Counsel for the cities, Roberts Brothers, are positive they have got such a strong case that it is an impossibility that they can be beaten. By compromising with Norton for a small sum they would be establishing the basis of a most fraudulent claim, and setting bad examples for future suits. It would tend to intimitate other cities using those valves into paying large sums of money. Even if it does cost a little more money, the decision is that it is more honorable to crush out such a cheeky claim than to recognize its validity in any way.

Kentucky Justice.

The shot-gun is mightier than the courts. It is a universal leveller. It simplifies and cheapens the law, and brings it to the door of the poorest when need is, and long may its policy prevail, mute sentinel by the firesides, guarding the honor of our women, protecting our cradles and our children; a menace to wives that are weak, and a perpetual terror to libertines and libertinism.—*Courier-Journal.*

—Powerful hard: "De machinery ob dis life is a mighty contrary arrangement. De thing dat yer oughtenter do is mighty easy, but de things yer oughter compliish is powerful hard."

—A New Hampshire wild cat sprang from a tree at a boy and landed in a kettle of boiling sap. The disgust which the animal felt over its faux pas (and the rest of its body for that matter) entirely took away its appetite.

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

Vegetine.

Superior to any Family Medicine.

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

VEGETINE is made exclusively from the juices of carefully-selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syhilitic Disease, Canker, Faintness at the Stomach**, and all diseases that arise from impure blood. **Sciatica, Inflammatory** and **Chronic Rheumatism, Neuralgia, Gout**, and **Spinal Complaints** can only be effectually cured through the blood.

For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead** and **Ringworm**, VEGETINE has never failed to effect a permanent cure.

For **Pains** in the **Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa**, arising from internal ulceration, and uterine diseases and **General Debility**, VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulcerations and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness**, and **General Prostration of the Nervous System**, no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know, to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.

MANHOOD

KNOW THYSELF.

A Book for Every Man ! Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should procure the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

☞ 53th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the Royal Medical Association. It contains beautiful and very expensive engravings, 125 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample set cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extensive work on Physiology ever published. The startling wheel over that the married or single, either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Lachet.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Eldredge Sprague, proprietor of a drug store in North Abington, Mass., was obliged lately to have his divorced wife evicted by force from his house. She has since entered the dwelling and ransacked one of the drawers containing private papers. An officer now guards the house nightly.

The body of a female child was found in a dry well in Summerville, Vt., May 21st. An investigation showed that the child was born alive. The authorities will investigate.

A young son of George Wilson of Newport, Me., was drowned May 19th.

Margaret Lilly, eighteen years old, a domestic in Joseph Newton's family at Holyoke, Mass., took "rough on rats" on Sunday, May 20th, while in a fit of melancholia, and died on Monday evening.

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

John Bright, the great English opponent of shams and humbugs, is about to marry his deceased wife's sister. This action is illegal in England, and all parties recognize that it is done as a defiant protest against a law which Mr. Bright has all his life opposed. Mr. Bright is now seventy-two years of age.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

The case of Wm. H. Bush, charged by ex-Senator Tabor with the embezzlement of $2000, on trial in Denver, Col., was given to the jury on the 21st inst., and in five minutes they returned a verdict of not guilty. Tabor received a terrible scoring from Bush's lawyers.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

The proposed affiliation of the Irish societies in Montreal is denounced and opposed by the Irish Catholic clergy.

Miss Georgiana F. Way, of North Charlestown, N. H., says: "I have taken Brown's Iron Bitters for general debility with most favorable results and cheerfully recommend it."

The Brooklyn *Eagle* suggests to Harvard university that it would be the square thing to give the Hon. John L. Sullivan a degree this year.

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidney, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

Elizabeth Eldridge committed suicide on the 20th inst. in the Middleburg, Vt., jail, in which she was imprisoned for life. She first attempted to attach a rope to a lead pipe, but it gave way. She then tied a rope, made of braided strips torn from a sheet, to the bed-post, and held her body in a sitting position until strangulation ensued. She had once before taken an overdose of morphine, with suicidal intent.

"When a thing is once begun, it is almost half finished." If you, reader, have dyspepsia, constipation, biliousness, or any disorder arising from impure blood, begin taking Wheat Bitters. Your cure will be half finished, likely completed, by the first bottle.

The Boston *Post* says "Signor Fredericks Kelli, son of Mr. D. D. Kelly of East Boston, arrived home on Sunday. He has been in Italy for the past few years completing his musical education."

☞ Fast, brilliant and fashionable are the Diamond Dye colors. One package colors 1 to 4 lbs. of goods. 10 cents for any color.

The marquis of Lansdowne has been appointed governor general of Canada, to succeed the marquis of Lorne.

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is a positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprung up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

The Bothered Army Surgeons.

It was in war-times. The Quartermaster of the Fourth New York Artillery was nearly dead with dysentery. The surgeons did their best for him, but at last gave him up. Lieut. Bemis, who is now a well known merchant in Oneida, N. Y., ventured to dose him with Perry Davis's Pain Killer. In a few days the Quartermaster's sufferings were over, and he was on duty as before.

MILLINERY.

Immensely popular are capotes; so much so that one is set thinking, wherefore this lease of life prolonged?—this cat-like gift of nine lives? Firstly, the capote sets snug on the low coil; secondly, it does not catch the breeze as one walks or drives; it is easily gotten up, and therefore one may have three or four in place of a single, large, elaborate bonnet. There is not a little, too, in that "not catching the breeze," for when the bonnet catches the breeze, the breeze is pretty apt to catch the bonnet and send it tumbling one knows not where, and worse yet, exhibiting one's frizzes and the like when not exactly gotten up for exhibition, or possibly one's own dark locks under one's blond wig, wig and all being arranged with a view to having one's hat on one's head. The great picturesqueness, however, of the large hat is a strong card in its favor, and accounts for its prolonged fashionableness; yet the inconvenience of a continual clutching to keep it in place of a windy day militates seriously against it; causes one to fall back on turban shapes, and to look favorably on the inoffensive little capote, which if no protection, at least remains quiet in its place and gives rise to no anxieties or awkward complications. In the matter of shade, too, where is one's

PARASOL?

What better shade than that, especially if with lace cover drooping over the edge, or with a fall of lace giving the same refining effect. Indeed I know of nothing more excellent than that same fall of lace; tempering the too ardent glare of a summer's sun with peculiarly feminine effect, or adroitly used, a peculiarly feminine weapon of defence, since what is easier than by chance to lower one's parasol, that one's Adolphus may not see one walking with one's Theodore; Adolphus however being closely scrutinized through those never-to-be-sufficiently-praised loopings and open-work meshes. Economical ladies buy lace covers to put over a last year's parasol of plain silk, or trim up a plain silk of this year with a border of lace, black or white.

THE MYSTERIES OF COLOR.

Make a thing difficult, give it a name, and everybody wants it. Think of what dark-haired women go through to be made blondes. The difficulty is half the charm, the name of blonde the other. So with crushed strawberry and crushed rasberry. Who would care anything about them but for the absurd names and the trouble of determining which is which. The distinction is as puzzling as to know how to get hold of a Louisiana state lottery ticket. Everybody wants one because it is hard to get one, while thousands are taken in and paid back in prizes to people who think the names of Gens. Beauregard and Early insure the fairness of the drawings. Throughout the world of color, indeed, there is a pleasing sort of mystery. Blues we have that are endeavoring to be grays or greens; yellows that disdain to be yellows, and take in puzzling mixtures of red, orange or pink, obtaining curious names thereby and mounting high the ladder of fame. Consider, too, the position reached by color; a lady walking forth in a red costume, a red spotted with blue and the like, nobody looking at her a second time. These reds, however, are no more genuine reds than are most of the blues, greens or yellows—the rather brick dust or terra cotta reds, or reds having tinges of wine, or mongrel reds bringing us back to whence we started—to crushed rasberry and strawberry. Green is extremely fashionable this season, and while there are hybrid greens, you see charming outfits of clear, positive forest greens.

NECKS UNFASHIONABLE.

Necks are unfashionable, I should judge, from the fact that one never gets the sight of one. Rather the folds of swathing lace, the high upright collar, the ruching, the anything, rather than the divinely appointed neck. Where then is the room for an earring when the neck dressing is brought up to the ears? There is none, so we have none. None worth speaking of, unless it may be a handsome pair of pearls or diamonds. Clearly they must be shown, yet chiefly solitaires, and so close to the ear that little room is taken up. Occasionally one sees indeed an unpretentious earring, but it is very small—a minute leaf or floweret, small ball, etc., not so stylish as none. Everything runs to bracelets or lace pins; the former jingling over wrinkled gloves, or doing duty instead of cuffs at the end of sleeves which dressmakers will not allow of proper length; the latter standing solitary in place of a brooch, or with abandon catching the scarf or jabot. Flowers on the corsage are perhaps not quite so often seen as formerly, certainly not in such extravagance, but they are still very fashionable, from a single flower up to quite a bouquet.

ARMS OBJECTIONABLE.

Arms seem to be as objectionable as necks. No chance at all for them, since wherever your dress-sleeve ends there must your glove extend, unless perhaps in case of an extremely short sleeve, but even then the glove boldly turns the elbow and follows up, leaving only a little of the arm. The exquisitely-fitting Harris mousquetaire comes first, the more so as it has been found in every way reliable; yet for morning wear, travelling, etc., the Harris gauntlet is the favorite, since it is closed to the wrist and joined to a cuff, small and snugly fitting the arm. There is no fastening; it requires none, and such convenience is a great card in its favor. Lace mitts are shown, but are subordinate to the beautifully fitting jerseys of silk and Lisle thread mousquetaires. Remember, however, that your gloves must not match your costume, tan and yellow shades being all the go. LUCY CARTER.

Dr. Gage, a physician who has advertised wonderful cures in different parts of the state, was recently tried before the Dover police court upon complaint for practicing medicine without a license from a state medical society. The doctor showed that he was an educated physician, had practiced in Concord and other cities, and had a diploma from a New York college of medicine. His diploma by the state society was withheld because he had violated the rules of medical etiquette by advertising himself and his cures in the newspapers, and travelling from place to place. It was a question as to the right of the censors to withhold his license to practice, if the doctor was a suitable person and not a quack. The court sustained the doctor and discharged him without costs.

Foster's *Democrat* and the Manchester *Union* both affect to believe that Mr. W. E. Chandler's fearless advocacy of the people of his native state against the encroachment of the railway power is based upon a selfish and mercenary political purpose, and is a piece of low demagogism. It is always thus. What great and good man has ever attempted to inaugurate a reform or correct an abuse of this sort, when the newspapers of opposite political faith did not impugn the integrity of his motive? If, as Foster claims, this is all buncombe put forth in order to be elected United States senator two years hence, then certainly a political guardian for the aspirant ought at once to be appointed.

The Concord Summer School of Philosophy will open on the 18th of July, and continue for four weeks. The lecturers are Professors W. T. Harris, Geo. H. Howison and William James, Mr. Denton J. Snider, Rev. R. A. Holland, Rev. J. S. Kedney, D. D., Frank B. Sanborn (four lectures,) John Albee (Aug. 6th and 7th,) Rev. Dr. Bartol, Miss E. P. Peabody, Mrs. E. D. Cheney, Prest. Porter, Mrs. J. W. Howe, Julian Hawthorne, David A. Wasson and Lewis J. Block. Terms will be $4 for each full week, or $15 the course. All students should be registered before July 10th.

A store of good things is contained in the June number of the "Atlantic Monthly," and it does credit, as usual, to Mr. Aldrich's taste in selection. The third and last act of Henry James' dramatization of "Daisy Miller" is contained in it, and also the conclusion of Miss Sarah Orne Jewett's story, "A Landless Farmer," a contribution in her pleasantest vein. Perhaps the most noticeable things in the number are a poem by Whittier, "How the Women went from Dover," a stirring ballad of the old days of Quaker persecution in New England, and a paper entitled "Mr. Emerson in the Lecture Room," reminiscences of the great thinker's lectures delivered at Harvard College in 1870. Charles Dudley Warner has a travel sketch on Monserrat, written in his usual happy manner. Richard Grant White contributes the first part of an international paper, "Mr. Washington Adams in England," in which he will succeed in setting off the peculiarities of our compatriots as they appear abroad, as well as making some clever hits at our British cousins. "Bridget's Story," by L. C. Wyman, "The Biography of Two Famous Songs," by Amelia Barr, a gossiping and attractive article on "Table Talk," by F. C. Baylor, and "Life in Old Siena," by E. D. R. Bianciardi, add to the variety and general brightness of the contents, while timely and thoughtful essays on "Morality in the Public Schools" and "Authorship in America," form the pieces de resistance of the number. A poem or two, together with the usual excellent critiques on recent books, and the well-known Contributors' Club, a feature of steadily increasing popularity, complete a very noticeable number. Houghton, Mifflin & Co., Boston.

The low rate of the six per cent. gold bonds of the Topeka, Salina and Western Railroad, and the brilliant prospects of the road, render them most desirable as an investment.

Commodore Alexander A. Semmes is to command the Washington navy yard, succeeding Commodore Pattison.

MEDICAL.

PURE BLOOD IS THE ABSOLUTE NECESSITY OF HEALTH.

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as shown by the cures offered) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in Portsmouth and neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

135 HOWARD STREET, LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours, C. C. PICKERING. (Coburn Shuttle Co.)

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WEATHER.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 50 degrees above zero.

Raining.

A NEW INDUSTRY.

We learn that the gentlemen who own the Kearsarge mill site are making an effort to have a foundry and machine shop erected on the lot. A subscription paper to raise $100,000 as capital has been started, and about one half the amount is pledged.

While the owners have had numerous tenders of the services of persons ready to embark in new enterprises, it has always been upon the condition that liberal salaries should be paid to the new comers, and the entire capital raised here.

But this is a proposition to employ local mechanics, and develope an industry that will be maintained by practical men who know their business. We wish the project abundant success.

IDENTIFIED.

The man who fell dead in the Eastern railroad station in Boston on Monday of this week has been identified as Thomas Rutter of this city, who lived on Stark street, Christian Shore.

MUSTERED OUT.

Notwithstanding the drenching rain on Tuesday afternoon of this week, forty-two members of Storer Post, G. A. R., turned out to attend the funeral of Comrade Willard W. Young, who was a member of the post. Mr. Young served during the war in Co. C of the 8th Maine regiment, being the first man to enlist from his town, and the only one of that town who volunteered in defence of the Union. On the evening before his death he desired the presence of some of his comrades of the G. A. R., and on their arrival requested them to sing some of the old war songs so popular with the boys at the front from '61 to '65; there are some good singers in the post, several of whom were sent for, and "Rally Round the Flag," "Star Spangled Banner," the "Sweet By-and-Bye," etc., were sung, the dying veteran expressing his pleasure, and though fully aware of his approaching end, appearing less affected than did the other actors in this somewhat unusual death-bed scene. As the visitors departed they were thanked by Mr. Young, who bid them good bye, assuring them that he should be "mustered out" ere another day; and his calm confidence that "all is well" remained with him to the end. He was a carpenter by occupation, and an attendant on the services of the Freewill Baptist church.

AN IMMENSE HOTEL.

In the gentlemen's reading room of the Rockingham is a view of the "Wentworth" as it will appear when enlarged. The house will contain about five hundred rooms. It will have 145 parlors with sleeping rooms attached. The central tower will be one hundred and thirty-six feet in height. The new dining hall will be of the height of two of the present stories, and will be on the front side of the house, with windows looking towards the sea. The general appearance of the house will be that of a building of very huge size, yet of accurate proportions. Some idea of the extent of the new house as completed may be gained from the fact that it will have a frontage of 636 feet; the length of the verandahs will be 2068 feet, and the square feet under cover will be 42,448.

GOSSIPS SAY

That a tensorial artist who went to Minneapolis not many weeks ago to grow up with the country, arrived back on the three o'clock train Wednesday afternoon, the 23d inst., having grown up all he wants to with that country.

That the prodigious clap of thunder at midnight on Tuesday, the 22d inst., woke nearly every person in the city.

That a party of gentlemen will leave this city for an extended trip through the western states and territories on Saturday next.

That the petition asking the city fathers to appropriate $3000 for a Fourth of July celebration has not been very extensively signed.

That consequently the "Return of the Sons" project seemingly hangs fire.

That had all these efforts been made in behalf of a soldiers' monument, success would have been certain.

That it is more popular to render homage to the living than to pay tribute to the dead.

That the CHRONICLE correspondent "B" is not employed on the navy yard, as the Boston *Herald* of May 22d would have its readers believe.

That Seth Haley's barber shop, since its refitting and having a nice carpet on the floor, is the neatest tonsorial establishment in the city.

That nearly forty men are at work on the improvements connected with the Rockingham house.

That the Wentworth is advertised in all the metropolitan papers.

That Henry L. Harlow will have charge of the orchestra at the latter famous hotel again this season.

A LETTER FROM YORK.

YORK, ME., May 20th.

Since the laying out of a road from the foot "unto the uttermost top thereof" on Mt. Agamenticus, that section of our ancient city has taken quite a boom, and elevated ideas prevail of "Hotel Agamenticus" on the summit, and possibly an elevated railroad—a spur from the York & Portsmouth narrow gauge.

Geo. F. Plaisted recently painted the school house in that district by contract—made a fine job, and cleared quite a sum of money. Miss Emma Nowell is teaching school in the district.

Mr. Ellsworth Lewis last week sold to S. W. Junkins, Esq., a fine two-years-old bull, which Brother Junkins terms his "Agamenticus thoroughbred."

Capt. Josiah Chase, aged eighty-three years, near Chase's pond, is very low.

It is said that a Mr. Abbott of Concord, N. H., will open a grocery and meat store at Union Bluff.

Asahel Goodwin of Cape Neddick is very ill, reported with ossification of the heart. Deputy Sheriff Dan. Goodwin has been keeping his store.

The road ordered to be built by the county commissioners has been delayed by parties carrying the question to the courts.

The schooner President, Capt Joseph Donnell, has fitted out for fishing from York harbor.

George Pickering is enlarging the "Agamenticus house" at Union Bluff.

P. T. C.

Do not forget that John T. Raymond will appear in Music hall this evening, as Major Belter, in his new play "In Paradise."

Dr. Kenison leaves Portsmouth this evening; those who intend to have their corns removed would do well to govern themselves accordingly. See advertisement in another column.

Between two and three hundred bales of wool imported from Montevideo have been placed in the bonded warehouse of the custom house near the Eastern railroad track in this city.

Mr. H. M. Sullivan, clerk at the Rockingham house, has returned to his post, and will resume duty in the office on the first of June. The dining room at the Rockingham has been frescoed in an artistic manner. At the end toward the office will be an elegant mirror, occupying the entire space between the doors; at the eastern end the present marble fire place and mantel will be removed, and a new mantel in wood, of unique design, surmounted by a mirror, will be placed. The dining room when completed will of course be noted as much for its superior carving as for its beautiful gilding.

The schooner Mary S. Hontvet started for the Grand banks on Wednesday of this week, the steamer Mystic towing her down the harbor.

J. Albert Walker is to lengthen the store in Congress street occupied by Geo. W. Butler as a hat store, by an addition to the rear. Anderson & Junkins are the contractors for the work.

President Arthur has given his French cook a leave of absence for four months. If he can bring good recommendations, there are a dozen situations open to him between the Pepperell house and Boar's Head.

Shortly before twelve o'clock on Tuesday night of this week there was a very vivid flash of lightning, followed quickly by a first-class peal of thunder. Occupants of the police station at the time were startled by the entrance on the telephone wire of what appeared to be a ball of flame, which rung the bell, and emitted a sharp crack like the detonation of a large torpedo.

D. Horace Holman, dealer in crockery, etc., at Lewiston, Me., formerly of this city, has had his stock attached.

Mr. S. G. Sargent, auditor of the Eastern railroad, has resigned, to take a position in the office of the treasurer of the Chicago, Burlington & Quincy railroad. Mr. Wm. S. Hobbs, paymaster of the Eastern, has been promoted to be auditor, and Mr. George S. Hobbs has been appointed paymaster of the road. These changes were made at the monthly meeting of the Eastern railroad directors on the 22d inst.

At the broker's board in Boston, on the 23d inst., 100 shares of stock in the Eastern in railroad sold at $40 per share.

THE FIREMEN'S MUSTER.

Sixteen of the eighteen delegates appointed by the fire companies to confer as to a muster this fall, with several citizens, met on Wednesday evening, the 22d inst., as per appointment. Aldermen Sampson was chosen chairman, and Samuel Dodge secretary.

The delegates discussed the matter at length, and but one opinion existed as to the advisability of going ahead with it; and it was unanimously voted to have the muster.

The delegates then organized as a permanent general committee, with the same chairman and secretary, and the following additional officers: corresponding secretary, John E. Rider; assistant cor. sec., Joseph Randall; auditor, Geo. W. Tripp; treasurer Hon. John S. Treat. Israel P. Miller, Walter H. Page and W. T. Dodge were added to the general committee.

Willard J. Sampson, George W. Green and J. E. Rider were appointed to make a list of sub-committees necessary to carry out the matter, and to select names to be added to the general committee—to report to the next meeting.

Thanks were voted to Landlord Grant of the Gibson house for courtesies, and the meeting adjourned to eight o'clock Monday evening, the 28th, at the same place.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or whatever imparted by the errors of youth, or too close application to business, may be restored and manhood regained.

35th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extensive work on Physiology ever published. The startling wha ever that the world or the sick either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

A report from Henrietta, Texas, says: C. M. Burgess, who killed R. M. Donley last November, was shot and killed on Sunday, the 20th inst., by W. R. Curtis, the cattle king, one of the largest stock owners of Texas, at the postoffice during the delivery of the mail. It is claimed that Burgess assaulted Curtis and attempted to draw a revolver, but the latter was too quick for him. Burgess fell dead two feet from where he killed Donley.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

Three months ago Pierce Lanier was murdered in Livingstone parish, La., and shortly afterward James Curley, who with his brother William was suspected of the murder, was assassinated, it was believed by Guion and Pierce Lanier, Jr., sons of the first victim. On Sunday, May 20th, Wm. Curley and his brother-in-law waylaid the two Laniers, and in the fight which ensued Curley and the Laniers were killed.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

David Todd and Joseph Levessy fought a duel in New Orleans on the 22d inst.; nobody hurt.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy imitated is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. Those Pimples and Blotches which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Will cure you when Doctors and Medicine have failed. Why do you suffer with Dyspepsia, Sick Headache, Biliousness, Costiveness, Nervous Prostration, Female Weakness, Kidney Complaint, Rheumatism? Why let your blood become so impure and your system so full of poison that every pimple, blotch and boil on the skin will tell the story of your disease? Why let your nerves and all your system become so weak and shattered that you tremble at the least exertion, and be nervous and wretched? Why let your liver become torpid, your bowels costive, your appetite poor or poor and capricious? Why let your kidneys become so disordered that your urine is full of bricks and mortar, or else so thick and scanty that it can hardly be passed? Why let your blood become so impure that it will make a loathsome sore on any slight cut or bruise? Why let your nerves be so shattered that you tremble at the sight of a gun, or jump at the sound of your name? Why let your whole system be so shattered that you are a nervous wreck, and life a burden? Why do you let all this misery come upon you when you can get a bottle of SULPHUR BITTERS and be cured by using it according to the directions? Why do you let your friends and relatives see you suffer and die when a few bottles of SULPHUR BITTERS would save you? Why do you let your children be scrofulous, or have Fever and Ague, or Blotches, Boils, Tumors and Humors of any kind, when SULPHUR BITTERS will cure them? Why do you let your wife suffer from Female Weakness, Leucorrhœa, Irregularity, Prolapsus, or any other of the ailments peculiar to her sex, when SULPHUR BITTERS will cure her? Why do you let your children be stunted in their growth, be sickly, weak and miserable, when SULPHUR BITTERS will make them healthy and strong? Why do you let your servants be sick when SULPHUR BITTERS will make them healthy? Why do you let your cattle be sick when SULPHUR BITTERS will make them healthy? Why do you let your horses be sick when SULPHUR BITTERS will make them healthy? Why do you let your sheep be sick when SULPHUR BITTERS will make them healthy? WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are the most valuable food property, and are, when properly prepared, the most acceptable nutriments with which to build up the system.

The Blood, Brain and Nerves are the tissues which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by *fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These take in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. The most one healthful, pleasant to the taste and must be compounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

OLD LETTERS.

"Burn them wholesale! Ancient scars
Will bleed and throb if you delay.
Thrust them in between the bars,
Tied up in their packets"——"Stay!
I see my mother's writing, and
My father's: ay, 'tis theirs indeed,
Though lettered in a large round hand
That their little son might read.
How I prized them! New to school,
How my very soul did ache!
Grief had killed a little fool,
If the heart could really break."

"Cilssold's writing! 'Dear old boy,
Whatever happens, I'm your friend.'
He meant it too: without alloy
Our friendship was, and feared no end.
How oft, while dropping down the stream,
Or idly stretched amongst the heather,
We shared in Youth's presumptuous dream,
And vowed to storm the world together.
O fool! to trust a boyish word;
O fool! to feel a boyish sorrow;
That Cilssold, walking with a lord,
Would cut me, if we met, to-morrow."

"Burn the letters! Ancient scars
Will bleed and throb if you delay.
Thrust them in between the bars,
Tied up in their packets"——"Stay!
That hand so delicate and small,
Traced on paper pinky white,
Does like a happy dream recall
A time of heavenly delight.
'My life! my love! [O tender girl!]
'Twill kill me if you are not true.'
And here's a brown and silky curl,
Tied with the faithful color, blue.
The honest silk has faded quite;
For would this only love of mine
Shed, if she saw me dead to-night,
A single tear for auld lang syne?"

"Burn them wholesale! Ancient scars
Will bleed and throb with this delay;
Thrust the letters through the bars,
Open not another"——"Stay!
That foreign sheet I cannot burn;
'Tis Tom's last letter; give it me!
He writes in it of his return
To those—he ne'er again should see.
Burn it; burn all. For they who traced
The lines with such keen pleasure read,
Whose love can never be replaced,
Are false, are fickle, or are dead.
Burn them wholesale! Ancient scars
Will bleed afresh with each delay,
Thrust them in between the bars;
They belong to Yesterday."

MEDICAL.

"IT'S A GOOD THING

And I Know It," were the words of Mr. Levi Porter, the celebrated fashionable Cutter to the firm of Nathan & Taylor, under the Narragansett House, Providence, R. I.—Shows what an Honest Thing will Do.

"Its a good thing; I know its a good thing." Such were the words addressed to your reporter when he called at the fashionable establishment of Nathan & Tayler, under the Narragansett House, Providence, R. I. The speaker was Mr. Leroy Porter, head manager of the tailoring department of this large clothing house, as he was cutting his way through a mammoth pile of broadcades, Scotch plaids and broadcloths.

"I felt sometimes as if there was a cannon ball resting on my stomach. I would have to get up at night, for I was so short of breath. You see in the spring—our busy season—we are at work sixteen hours per day. Have short times for meals, and at irregular hours. My stomach became very much disordered, and I was all out of health. I tried every kind of medicines. The doctors said it was a touch of dyspepsia. I could get nothing to do me permanent good until a friend recommended Dr. Kennedy's FAVORITE REMEDY. I know it's a good medicine. It has completely cured me of stomach disorders and indigestion. It seems to be a thorough cleanser of the system from biliousness or anything of that kind. I know this for I've tried it. I'm in the best of health now, but should I ever have a dyspeptic turn again Dr. Kennedy's FAVORITE REMEDY would be my source of relief. Dr. Kennedy's FAVORITE REMEDY acts upon the digestive organs in a charming manner, regulating their action, strengthening and purifying the whole system."

The Bothered Army Surgeons.

It was in war-times. The Quartermaster of the Fourth New York Artillery was nearly dead with dysentary. The surgeons did their best for him, but at last gave him up. Lieut. Bemis, who is now a well known merchant in Oneida, N. Y., ventured to dose him with Perry Davis's Pain Killer. In a few days the Quartermaster's sufferings were over, and he was on duty as before.

The low rate of the six per cent. gold bonds of the Topeka, Salina and Western Railroad, and the brilliant prospects of the road, render them most desirable as an investment.

The Dover board of Aldermen having voted to ask the legislature for permission to raise $50,000 for county buildings there, Rochester has voted to ask the legislature for permission to raise $100,000 for the same purpose. This indicates that Rochester seeks to have the county seat removed from Dover.

The Courts in Strafford County.

Rochester would like to have the courts in Strafford county held in that town, instead of in Dover, and it is expected that the town will offer to build a good Court House if the legislature will permit a loan to be made and the courts to be removed as projected.

In a county like Strafford, the question of the location of the courts depends, in these days, not upon the geographical but upon the railway centre. The large towns are well accomodated at Dover, but the court room is an uncomfortable and at times dark place in which to have justice administered. The Dover people, rather than lose the courts from their city would build a new Court House, and perhaps induce better hotel accomodations to be furnished. In this last respect Rochester is far ahead of Dover. Rochester too is a railroad centre.

The question would probably be decided by the attitude of Somersworth and Rollinsford. Dover has a population of about 11,700. Somersworth and Rollinsford, quite near, have together a little over 7000. These towns would be better accomodated at Dover than at Rochester. The aggregate of the population of Dover and these two towns comprise over one-half the population of the county. Dover, too, is reached as easily by rail from the northern part of the county, as is Rochester.

The towns in the county which pay the taxes would probably be better accomodated at Dover than elsewhere. Still, if the proposition could result in a more spacious, better ventilated and perhaps better located Court House being built in Dover, no one, save perhaps the taxpayers in that city, will regret the agitation. At the rate in which litigation seems to be diminishing in our state, the subject of location of county courts will have possibly less interest in the future than it has had in the past.

A Proposed Railroad Law.

The bill to be introduced into the New Hampshire legislature in the form of a general railroad law, which the Boston & Lowell railroad is said to favor, is in general quite like the Massachusetts law. It has been drawn by Ex-Judge George A. Bingham, in consultation with John H. George, Richard Olney, Bainbridge Wadleigh, and other legal gentlemen; and the section which is relied upon for purposes of consolidation is as follows:

Two railroad corporations whose roads connect with each other may contract that either corporation shall perform all the transportation of persons and freight upon and over the road of the other, and any such corporation may lease its road to any other such corporation, upon such terms and for such time as the directors may agree, and as may be approved by a majority in interest of the stockholders of each corporation, at meetings called for the purpose. And two or more railroad corporations, whose roads connect, as provided in this act, may unite and form one corporation, with all the powers and privileges, and subject to all the duties and liabilities of railroad corporations, under the laws of this state, upon such terms as the directors of said corporation may agree, and as may be approved by a majority in interest of the stockholders of each corporation, at meetings called for the purpose, provided that the rates for fares and freights shall not be increased on either of said roads by such leasing or uniting.

Another section gives the railroads the privilege of constructing branches from their main lines at their pleasure.

An Easterly Breeze.

The *Maine Farmer* dislikes the idea of the Eastern railroad being leased to the Boston & Maine, on account of the effect it would have on the Maine Central road. It says:

The present managers of the Maine Central took the road when its stock was absolutely worthless, and its seven per cent bonds a drug on the market at eighty-five cents on the dollar. Now the stock is paying a regular annual dividend and its bonds are eagerly sought for by capitalists, savings institutions and the guardians of trust funds at $125 on a hundred. The Maine public are entirely satisfied with these results, and they are willing it should remain a Maine road, and this it cannot be if the lease of its ally is consummated.

If the proposed lease is allowed it transfers the management of both the Eastern and Maine Central roads to the hands of the Boston & Maine. The men who have so long shaped its policy so that the interests of the road shall run parallel with the true business interests of the public it has served would no longer be the managers of this large corporation, but it would pass into the hands of men who have no particular interest in the state, but who would use the road simply as a feeder to the Massachusetts corporation.

Another objection. By the terms of the proposed lease, before the Eastern and Maine Central can participate in any of the net earnings, by means of which they can declare dividends—no matter how much these roads may earn—a dividend of nine per cent must be declared and paid to the stockholders of the Boston & Maine before one cent can be paid on the stock of the Maine Central. This would amount to virtual prohibition—all the juice would be squeezed from the lemon before it got down to Maine. The stock of the Maine Central might sink back to its former state of worthlessness.

Of course the stockholders of the Boston & Maine favor this lease, because it is in their interest. We believe that the stock of the Eastern road, that voted for this lease, was secured in large blocks, bought and held for the purpose of speculation. We know that a large number of the stockholders of the Eastern road, and the bondholders of that road, do not favor this lease. Many of the large stockholders of the Maine Central railroad, directly interested in this lease, are opposed to it. We believe it is antagonistic to the best interests of this road, and we feel confident that it is against public policy and prejudicial to the best interests of the state.

If the courts shall not prevent this disastrous alliance by granting an injunction, the matter will come before the New Hampshire legislature at its June session. The friends of the measure will push it with great vigor, but with doubtful results. The Maine legislature meets in August, and while we do not claim that they have power to prevent the lease, they can insist upon the control and management of the Maine Central remaining in the state, and subject to its legislation. We think they will be opposed to placing this road, over which they have jurisdiction, into the keeping of a great monopoly. We are justified in saying this by their action on kindred measures. Under our present laws, the majority on the board of directors of the Maine Central railroad must be Maine men. To-day, the Eastern and Maine Central are practically one, with a common management and a common interest. Working in harmony, they have had a wonderful success. A lease of the Eastern would vitally affect the entire line, and it will be a sorry day for Maine when it is brought about. A few stock jobbers and speculators might possibly be benefited, but the interests of the people at large would suffer. Speaking for the people we protest against the lease.

Opening of the Brooklyn Bridge.

The big bridge between New York and Brooklyn was opened on Thursday, May 24th, with imposing ceremonies. It is the largest suspension bridge in the world. When started it was estimated to cost $7,000,000, and it was commenced by a private corporation, who worked on it from 1870 to 1874, when the construction was assumed by the two cities, with the proviso that the cost was not to exceed $8,000,000. The actual amount expended has been $16,000,000.

Among the notables present at the opening were President Arthur and several members of the cabinet, and Gov. Cleveland of New York. Business in the two cities was suspended, and many buildings were decorated with flags, bunting and lanterns.

The services at the Brooklyn end of the bridge were held in the afternoon, and consisted of music; prayer, presentation address, acceptance of the bridge by Mayor Low of Brooklyn and Mayor Edson of New York, and orations by Abram S. Hewitt and Rev. Dr. Storrs. There was a grand display of fireworks from the bridge in the evening. The Academy of Music in Brooklyn was magnificently decorated for the evening exercises.

At the Phenix hotel in Concord great improvements have been made. The office counter has been placed nearer the front entrance, and the toilet accomodations increased. Members of the legislature and gentlemen who have business before the general court will be glad to learn that the bar has been removed to the room formerly occupied as a telegraph office, in which the billiard room also is to be found, and hereafter there will be no necessity of descending to any subterranean region if one has occasion for a glass of ice-water or a plain lemonade.

BRIGHTON CATTLE MARKET.

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood (as it proves in the cures effected) prove it the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes the blood, and renovates the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

MEDICAL.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE 4th OF JULY REUNION.

There will be a meeting this evening at the Common Council room, at eight o'clock, of the Reunion Committee of '83, and it is earnestly desired that all citizens favorable to a reunion the coming July 4th should be present, as matters of great importance are to be acted upon.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, May 24th, Mayor Treat in the chair:

Present the full board, except Ald. Sampson and Hackett.

The records of the last meeting were read and approved.

Bill of $18.80, tax on Pest island, received from the town of Newcastle, was referred to the mayor and city solicitor.

Bounty on two lots of crows' heads was ordered to be paid.

Communication from committee on firemen's muster was received and referred.

Wm. E. Hadley was appointed collector of taxes.

Permission was granted Frank Jones to lay a gas-pipe from the brewery to the Rockingham house, through State street.

The street telegraph poles were discussed, and it was voted to notify the Eastern Telegraph Co., which erected the poles, to remove the wires, etc., from the city building, and make good any injuries consequent on its use as a telegraph station.

Adjourned for two weeks.

GOSSIPS SAY

That the social assembly of the colored people in Franklin hall on the evening of the 23d inst. was the last of the season.

That State Agent Marvin of the N. H. S. P. C. A. went to Kingston on Thursday to investigate a cruelty case.

That four of the owners of the Kearsarge mill lot have subscribed $40,000 toward the new machine shop and foundry to be erected on the site of the big mill.

That the machine shop alone will cover the foundations of the old cotton mill, and will be two stories high, while the building now used as a bonded warehouse for the storage of wool will be altered into a foundry.

That Messrs. Chritchley & Whalley will probably be the managers of the new industry.

That if so, they will be the right men in the right place.

That humming-birds are very numerous in this vicinity this spring.

That Vaughan street is being much improved by the relaying and straightening of its sidewalks.

That John Griffin will soon resume his hairdressing business in this city.

That all gladly welcome the returning wanderers home.

This forenoon is the last chance to have your corns extracted. Dr. Kenison, at the Kearsarge house, goes to Dover this noon.

The Eastern railroad will run a special train to the Point of Pines on Wednesday next to accommodate those wishing to see the great boat race between Hanlan and Kennedy. The train leaves this city at twelve o'clock, noon; returning, leaves the Point of Pines at 7:30 P. M.

Benjamin Pratt, of Epping, has contracted to replace all the wooden fencing along the line of the Concord & Portsmouth railroad with barbed wire.

Mr. Lucius Tuttle, the Eastern railroad's passenger agent, has issued a neat hand-book, full of information as to routes, resorts and board, for the benefit of intending visitors to Maine and the lower provinces this summer; also maps and illustrations.

The steamer "City of Portsmouth" will commence running between this city and York beach on the 16th of June. The name of the boat was formally changed from "City of Bangor" on the 24th inst., by Collector Howard, under authority of the treasury department and in pursuance of the act of Congress of March 2d, 1881.

A boy about eleven years old, said to belong in Boston, fell overboard from the custom-house landing-stage in the dock at Pier wharf on the 23d inst., and was rescued by John P. Brooks, sailing master of Mr. Decatur's yacht Sea Belle, who jumped overboard and brought the boy to the surface, when both were picked up by Capt. Duncan of the steamer James Sampson, who put off in a boat. This boy was the seventeenth person pulled out of the water by Mr. Brooks.

The increased mail facilities between Portsmouth and Exeter are greatly appreciated. The change was brought about, it is said, at the instance in the first place of the editor of the Exeter *Gazette*, who has considerable correspondence with Portsmouth.

In the brick wall on the north side of the Eastern railroad station in Boston openings are being made to allow baggage to be easily transferred to out-going trains starting from the outside of the station; after the summer business is over further improvements will be made at this part of the station.

Hon. Lafayette Hall is the largest individual tax-payer in Newmarket, his tax this year being $322.47.

Work on the new Kennebunk & Kennebunkport railroad has been prosecuted Sundays, in order to get it finished in time for the summer travel.

In the lists of jurors at the May term of court in York county were the following names: Grand jurors, Pascal M. Langton of Kittery, Albert A. Fernald of Eliot, Horace B. Tebbetts of Berwick, Oscar W. Clark of Wells; traverse jurors, Simeon Fernald of Kittery, Samuel Cole of Eliot, Isaac Libby, Jr., of South Berwick, Isaac S. Lord of Berwick, John Goodwin, 3d, of Wells; supernumeraries, Donnell Weare of York, Charles Webber and Alden Wakefield of Kennebunk.

Arthur A. Maxwell of Wells is to be one of the commencement speakers at Dartmouth college, his subject being "Is monarchy to endure in England."

At the Old Orchard camp ground there will this year be four meetings of one week each—the first, commencing the last week in July, being the Portland District Methodist camp-meeting, under Rev. Mr. Inskip, followed by Dr. Cullis' Faith Convention, and the National Temperance camp-meeting. A series of meetings will also be holden by the Free Baptists at Ocean park.

The officials of the Maine Central railroad now estimate the property damage caused by the collision near Vassalboro at $10,000.

The station of the Boston & Maine railroad in Boston is being repainted and renovated in the interior.

The Maine Central railroad company commenced on the 22d inst. to run refrigerator cars on their through freight trains between Bangor and Boston. Throughout the summer they will be run regularly every Tuesday and Thursday.

A Philadelphia newspaper went to the expense of having Spurgeon's sermon of Sunday, the 20th inst., sent as a "special cable despatch to the *Press*." The New York *Sun* does not think its Philadelphia cotemporary scored much by the arrangement, as the sermon is entirely devoid of new ideas or any special adaptation to this time. It might have been uttered a hundred years ago, and just as likely as not was. There is really nothing new under the sun in this line.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

THE
6 PER CENT GOLD BONDS
— OF THE —
TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $4 0,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

PASTURAGE.

AT THE BURNHAM FARM, Gerrish's Island, Kittery, a limited number of **CATTLE** will be taken to **pasture** during the season, at fair rates. Prompt application is advisable, as no more animals will be received than there is abundant accommodation for. The feed on the place is of extra quality, the water abundant and good, the forest affords from sun and wind all that is needed; and there is low land enough to meet all the wants of a dry season. Cattle taken to pasture will receive the same care and attention as those belonging on the farm, without responsibility. Apply to PORTER R. EMERY, Manager.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.

It is said there is not a single ship of war in the British navy on board which at present there is not a band of teetotalers, and some of these bands are 100 to 150 strong, while in the whole service there are upwards of 10,000 teetotalers, or one-sixth of the whole navy. This result is due to a Miss Weston, whose labors in behalf of British seamen cover a period of fourteen years.

Deposits of one cent may be made in a Nebraska savings bank. Even this is larger than the withdrawals from some savings banks after a suspension.

Good health is the greatest of fortunes; no remedy has so often restored this prize to the suffering, as Hood's Sarsaparilla. Try it.

At Denver, Colorado, William H. Bush, who was recently acquitted of the charge of embezzling $2,000 from Ex-Senator Tabor, now brings several suits against the latter, among them being one for $75,000 damages for malicious prosecution; another for $13,000, for services in connection with the Denver and Leadville opera houses, and a third for $19,000, for aiding in Tabor's election to the United States senate, as per agreement, and for procuring Tabor's divorce from his wife and bringing about his marriage with "Miss" Lizzie McCourt.

☞ Fast, brilliant and fashionable are the Diamond Dye colors. One package colors 1 to 4 lbs. of goods. 10 cents for any color.

Ex-Congressman Dezendorf, of Virginia, who is an opponent of the readjuster movement, has written to Secretary Chandler complaining that the Norfolk navy yard is run in the interest of Mahone. Mr. Chandler in response virtually informs Mr. Dezendorf that "you're another," and intimates broadly that Dezendorf never had any fault to find with the running of the navy yard for political purposes, so long as said running was done by Dezendorf. It may be remarked, however, that the question is not whether the yard was formerly run by Dezendorf, but whether it is now run by Mahone.

"Get up like a man, and take care of yourself." Get a bottle of Wheat Bitters, it will make a new man of you, no matter what your trouble may be. No such remedy was ever before offered to the public. $1.

Smallpox of a virulent type has broken out in the Lancaster (Pa.) prison, and the institution has been quarantined.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

The Abberville, (Ala.,) *Times* tells of a young man in that neighborhood who worked for a man last year, with the understanding that he was to have at the end of the year, as compensation for his services, the man's daughter for a wife, and a double-barrelled shot-gun.

EASILY PROVEN.—It is easily proven that malarial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives new life and vigor to the aged and infirm always.

Daniel H. Rogers of Brookline, Mass., chief clerk in the state treasurer's office, has sued the Springfield *Republican* and Boston *Globe* for $25,000 each, for libel in charging him with the improper use of trust funds.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Mr. Secretary Chandler's letter to Ex-Congressman Dezendorf seems to be regarded throughout the country as a spiteful outburst of a politician, rather than as a dignified rebuke of a statesman or a proper official communication of a cabinet officer.

Miss Georgiana F. Way, of North Charlestown, N. H., says: "I have taken Brown's Iron Bitters for general debility with most favorable results and cheerfully recommend it."

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that Hop Bitters was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or crumbs, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them, or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

THE

6 PER CENT GOLD BONDS

— OF THE —

TOPEKA, SALINA & WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Beloit, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$180,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $40,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850.00 and accrued interest from Jan. 1, 1883, Five Shares of Stock, par value $100 each, and a $1000 Bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co., of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

A Scientific Discovery.

A New and Most Important Theory on One of the Most Vital Questions of the Day.

If anyone had informed Queen Elizabeth in her palmiest days that she could have been seated in her palace in London and conversed with Sir Walter Raleigh in his North Carolina home; receiving a reply from him within an hour's time, she would have declared it to be a miracle. And yet, had they lived in the present day, this apparent miracle would most readily have been witnessed and not seem at all strange or unnatural. The truth is, new principles are coming into existence, and the operation of many laws unknown in the past is being fully understood in the present. In no way does this fact come more forcibly to the mind than in the care and treatment of the human body. Millions of people have died in past ages from some insignificant or easily controlled cause which is thoroughly understood now and readily handled. Consumption during the entire past has been considered an incurable disease. And yet it is demonstrated that it has been and can be cured, even after it has had a long run, Dr. Felix Oswald has just contributed a notable article on this subject to the *Popular Science Monthly*. He regards consumption as pulmonary scrofula. The impurities of the blood produce a constant irritation in the lungs, thus destroying their delicate tissues and causing death. His theory shows conclusively that consumption is a blood disease. It has its origin primarily in a deranged condition of the kidneys or liver, the only two organs of the body, aside from the lungs, that purify the blood. When the kidneys or liver are diseased they are in a sore or lacerated state which communicates poison to every ounce of blood that passes through them. This poisonous blood circulates through the system and comes to the lungs, where the poison is deposited, causing decomposition in the finely formed cells of the lungs. Any diseased part of the body has contaminating power, and yet the blood, which is the life of the system, is brought into direct contact with these poisoned organs, thus carrying contagion to all parts of the body.

Bishop Jesse T. Peck, D. D., LL. D., whose death has been so recently regretted, is reported to have died of pneumonia, which medical authorities affirm indicates a diseased condition of the kidneys. It is well known, moreover, that for several years he has been the victim of severe kidney trouble, and the pneumonia which finally terminated his life was only the last result of the previous blood poisoning. The deadly matter which is left in the lungs by the impure blood clogs up and finally chokes the patient. When this is accomplished rapidly it is called pneumonia or quick consumption; when slowly, consumption, but in any event it is the result of impure blood, caused by diseased kidneys and liver.

These are facts of science, and vouched for by all the leading physicians of the day. They show the desirability—nay, the necessity, of keeping these most important organs in perfect condition, not only to insure health, but also to escape death. It has been fully shown, to the satisfaction of nearly every unprejudiced mind, that Warner's Safe Kidney and Liver Cure is the only known remedy that can cure and keep in health the great blood-purifying organs of the body. It acts directly upon these members, healing all ulcers which may have formed in them and placing them in a condition to purify and not poison the blood. This is no idle statement nor false theory. Mr. W. C. Beach, foreman of the Buffalo, N. Y., Rubber Type Foundry was given up to die by both physicians and friends. For four years he had a terrible cough, accompanied by night sweats, chills, and all the well known symptoms. He spent a season south and he found no relief. He says: "I finally concluded to try Warner's Safe Cure and in three months I gained twenty pounds, recovered my lost energy and my health was fully restored." The list could be prolonged indefinitely but enough has been said to prove to every sufferer from pulmonic troubles, that there is no reason to be discouraged in the least, and that health can be restored.

Ex-Secretary Bristow says that his old law partner, the new internal revenue commissioner, is industrious, and with his knowledge of the law is well qualified for his new position, and will soon master the work of the office.

The Bothered Army Surgeons.

It was in war-times. The Quartermaster of the Fourth New York Artillery was nearly dead with dysentary. The surgeons did their best for him, but at last gave him up. Lieut. Bemis, who is now a well known merchant in Oneida, N. Y., ventured to dose him with Perry Davis's Pain Killer. In a few days the Quartermaster's sufferings were over, and he was on duty as before.

Prof. William T. Thorn of Roanoke, Va., has reason to remember the 13th of April. His wife died on the 13th of April, his mother died on the 13th of April, his father died on the 13th of April, he broke his leg on the 13th of April, and he was born on the 13th of April.

Dr. A. T. Henak, Garfield, Iowa, says: "Once using Brown's Iron Bitters proves its superiority over all other tonic preparations."

While fishing in a lake at a picnic last September, a young lady of Lundy, Cal., lost an earring overboard. Recently John Murphy caught a three-pound trout in the lake, and the lost earring was found in one of its gills.

Bourbon Whiskey

is a necessity in every household. A really reliable brand may be found in the "G. O. Taylor Old Bourbon," bottled by Messrs. Chester H. Graves & Sons, of Boston, and to be obtained in bottles only, bearing their signature over each cork, from leading Grocers and Druggists everywhere.

Episcopal Bishop Riley of Mexico has never received any salary, and has spent $150,000 on his work. He has now exhausted his private fortune.

Portland & Ogdensburg.

A prominent legal firm of New York has written to Mayor Deering, in behalf of clients who desire to purchase the interest which the city of Portland holds in the Portland & Ogdensburg railroad. The letter asks the mayor to name a price, or if he will call a meeting of the city council, a member of the firm or the parties who wish to buy will visit Portland to confer on the subject.

In reply the mayor stated that no one unless with the sanction of the city council has any authority to name a price for such interest. The mayor expressed his readiness to call a meeting of the city council after their arrival here, and also said in any case he would present the communication at the June meeting of the city government, for consideration.—*Portland Advertiser.*

A New York banking institution holds $800,000 of the bonds of this road. Mr. Gould, the retiring stock operator, is a director in the bank, and there is pending in the United States circuit court for this district a suit to obtain control of that part of the road located in New Hampshire, the interest on the bonds issued for building that section being in default.

The executive council of Massachusetts have rejected Gov. Butler's nomination of Edward Hamilton as a member of the board of health, lunacy and charity, *vice* Donnelly, term expired. Mr. Donnelly, a democrat, is acknowledged to have been one of the best men who ever served on the board; but he takes no stock in Butler. Mr. Hamilton's sole qualification for the place is that he is a thick-and-thin Butler man; a few years ago he held an office under a republican state administration, and the scandals connected with his management were so glaring that the legislature had to abolish the office in order to abolish Hamilton. Of course he has been a "reformer" ever since.

A queer race took place from Birmingham to Milford, Conn., May 24th, between shell-boats on the river and bicycles and pedestrians on land, the distance by water being fourteen miles, and by the road twelve miles. Terrence S. Allis, on a bicycle, made the distance in 1h. 38m. 30s.; Robert Swift, in a shell, 1h. 53m. 30s.; Charles Nettleton, runner, 1h. 57m. 30s.

Mary Harrington, fifty-five years old, hung herself in Fall River, Mass., May 24th.

Foster's *Democrat* holds that the fact that Carroll, a clerk in the comptroller's office in New York city, who stole $169,460 from the city, was a democrat, does not make the nefarious business look a whit better.

Newspaper editing in Arizona is not without its incidents. The Ruby (Ariz.) *News* says: "James E. Anderson, who was killed last November, the first editor and founder of this paper, is in another world; his successor is in the Nevada insane asylum; and the third and present unfortunate is still battling with the world, the flesh and the devil, dodging bullets and soliciting advertisements."

At Helena, Ark., May 24th, Dr. E. D. Moore became angry because Judge Saunders would not interrupt a case in court to attend to him, and opened fire on him with a revolver, wounding him in the hand. This attracted the attention of the judge, who ordered the shooter arrested.

The schooner Alice M. Strople, the first of the Gloucester fishing fleet to use a wire cable, has arrived home from a Grand bank trip, and reports the experiment a success.

Philander Varney's barn in Goulc was burned May 24th; loss on building $1000; insurance $500. Mr. Varney had stored in the barn goods worth $500 or more; and Charles Keats had in it a horse, carriage, harness, etc., all which were destroyed, with no insurance.

The grand jury of York county at their late session found thirty-six indictments, of which thirty-three were for violation of the liquor law. As these thirty-three indictments were divided among thirteen persons, some of them received a very heavy dose. Four of the liquor sellers indicted were fined $1300, and others were assessed $275 or thereabouts each.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.
